

ST. LEDGER

The image shows the front cover of an old book. The cover is made of a light brown, textured material, possibly cloth or paper. It features a decorative border consisting of a chain-link pattern. The title "ST. LEDGER" is printed in a large, bold, serif font, slanted diagonally across the center of the cover. The text is enclosed within a rectangular frame made of two parallel lines. The overall appearance is aged and worn.

DOMESTIC PARCEL POST—FOURTH-CLASS MATTER

Fourth-class Matter Embraces that known as domestic parcel-post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, books (including catalogs), also miscellaneous printed matter weighing more than four pounds, and all other mailable matter not embraced in the first, second and third classes.

The limit of weight for parcels for local delivery and for delivery at other post offices within the first, second and third zones is seventy pounds. The limit of weight for parcels intended for delivery in other than the first, second and third zones is fifty pounds, except that parcels for the American Expeditionary Forces must not weigh over seven pounds.

The limit of size is 84 inches in length and girth combined.

WAR-STAMP TAX

Effective December 1, 1917, parcels on which the postage amounts to 25 cents or more are subject to a tax of one cent for each 25 cents or fractional part thereof. This tax must be paid by the sender by special internal revenue stamps affixed to the parcels; postage stamps are not valid for this purpose. The internal revenue stamps must be canceled by the sender by placing or causing to be placed thereon, with ink, his written or stamped initials, together with the date upon which the stamps are attached or used. In no case, however, should the sender cancel postage stamps affixed to parcels; such stamps must be canceled only by postal employees.

The tax is not applicable to parcels on which the postage amounts to less than 25 cents. On a parcel subject to 25 cents postage the tax is one cent; on parcels on which the postage amounts to from 26 to 50 cents the tax is two cents each and so on.

The War-Stamp Tax does not apply to parcels for foreign countries, nor to parcels for Porto Rico, the Philippine Canal Zone, Virgin Islands of the United States, Guam, Tutuila and Manua, and other Islands of the Samoan group belonging to the United States, United States Naval Vessels and the United States Expeditionary Forces.

In determining the amount of postage on which the tax shall be based, the fees paid for special-delivery and insurance or C. O. D. services shall not be counted.

Internal Revenue Stamps for use in paying the war tax are sold at the General Post Office and all stations.

Parcels will not be accepted for mailing unless both the required postage and tax are fully prepaid.

Rates of Postage on Fourth-class or Parcel-Post Matter—To Be Fully Prepaid—Unsealed—are as follows:

(a) Parcels weighing four ounces or less, except books, seeds, plants, etc., one cent for each ounce or fraction thereof, any distance.

(b) Parcels weighing eight ounces or less containing books, seeds, cuttings, bulbs, roots, scions and plants, one cent for each two ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than eight ounces containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than four pounds, and all other parcels of fourth-class matter weighing more than four ounces are chargeable, according to distance or zone, at the pound rates shown in the following table, a fraction of a pound being considered a full pound:

Local from any Post Office	ZONES						
	1st and 2d (Up to 150 miles)	3d (150 to 300 miles)	4th (300 to 600 miles)	5th (600 to 1,000 miles)	6th (1,000 to 1,400 miles)	7th (1,400 to 1,800 miles)	8th (Over 1,800 miles)
Five cents for the first pound and One cent for each additional Two Pounds or fraction thereof.	Five cents for the first pound and One cent for each additional pound or fraction thereof.	Six cents for the first pound and Two cents for each additional pound or fraction thereof.	Seven cents for the first pound and Four cents for each additional pound or fraction thereof.	Eight cents for the first pound and Six cents for each additional pound or fraction thereof.	Nine cents for the first pound and Eight cents for each additional pound or fraction thereof.	Eleven cents for the first pound and Ten cents for each additional pound or fraction thereof.	Twelve cents for the first pound and Eleven cents for each additional pound or fraction thereof.
Limit of weight up to third zone 70 pounds.			Limit of weight for fourth to eighth zones 50 pounds.				

Parcels for U. S. Naval Vessels.—Parcels for United States naval vessels, addressed care of Postmaster, New York, N. Y., or care of Postmaster, San Francisco, California, which are subject to the zone rates, are mailable at the rates of postage applicable between the post office of mailing and New York or San Francisco, as the case may be, and will be transmitted to the vessels without additional charge for postage.

Parcels mailed at New York, N. Y., care of Postmaster, New York, N. Y., will be accepted when prepaid at the local rate.

Parcels for American Expeditionary Forces.—Limit of weight, seven pounds. Postage, twelve cents a pound, except parcels weighing four ounces or less and except books, seeds, plants, etc., weighing eight ounces or less.

Parcels may not be registered, insured or sent C. O. D.

For further information regarding manner of addressing, wrapping, prohibited matter, see circular "MAIL FOR OR FROM AMERICAN EXPEDITIONARY FORCES IN EUROPE."

Seeds, Cuttings, Bulbs, Etc.—The rate of postage on parcels of seeds, cuttings, bulbs, roots, scions and plants weighing eight ounces or less, is one cent for each two ounces or fraction thereof, regardless of distance; on parcels weighing more than eight ounces the pound rates shown in the table on page 1 apply.

See Section 469, P. L. & R., as to preparation of seeds, etc., for mailing.

67/40 (5)
Rates for Books.—The rate of postage on parcels of printed books weighing *eight ounces or less* is one cent for each two ounces or fraction thereof.

Parcels of books weighing *more than eight ounces* are subject to the parcel-post or zone rates of postage shown on page 1.

"The term 'books' is used in its ordinary and generally accepted sense, and embraces printed books of all classes in their usual form, whether bound in paper or a more substantial binding, including printed catalogs."

Blank books, and partially printed books, mainly blank, are chargeable with postage at the rate of one cent for each ounce or fraction thereof on parcels weighing four ounces or less and the regular pound rates, according to zones, on parcels weighing more than four ounces.

Miscellaneous Printed Matter.—Parcels of miscellaneous printed matter (third-class matter) *not exceeding four pounds in weight* are subject to postage at the third-class rate—one cent for each two ounces or fraction thereof.

Parcels of miscellaneous printed matter weighing *more than four pounds*, which are within the limit of weight and size for parcel post matter, are mailable at the zone rates of postage.

Miscellaneous printed matter includes all printed matter not coming within the term "single book" and not constituting newspapers and periodicals which are entered as second-class matter. Patrons who desire to ascertain the classification of articles in the mail or the amount of postage required for any printed matter are advised to submit a specimen at the office of the Assistant Postmaster or at the nearest carrier station.

Places Where Parcels Must Be Mailed.—Parcels subject to the zone rates must be mailed at the General Post Office, or at a lettered or local-named station or branch post office, or such numbered stations as have been designated to receive parcel-post matter.

Uninsured parcels not subject to the zone rates may be mailed at the most convenient point. They may be mailed in street-package boxes and at all numbered stations as well as the General Post Office and carrier stations.

Name and Address of Sender.—Parcels must bear the name and address of the sender, preceded by the word "From."

How to Address Parcels.—Addresses should be complete and plainly written in ink. The name and address of the sender should be placed on the upper left corner, the name and address of the addressee on the lower right corner, and the stamps on the upper right corner of parcels. In case a tag is used, the name and address of the sender and addressee should also be written on the wrapper of the parcel, for use should the tag become detached. Space sufficient for a legible address, postmark, the necessary postage stamps, and any words necessary for forwarding or return must be left on the address side of parcels.

In order that the delivery of mail may be facilitated and expedited, it is highly important that complete addresses be given and to this end the street and number, Post Office Box or Rural Route number, if any, should be shown.

Wrapping and Packing of Parcels.—Parcels must be prepared for mailing in such manner that the contents can be easily examined.

Parcels of fourth-class matter shall not be accepted for mailing unless packed so as to insure safe shipment and permit the contents to be easily examined. (See Sec. 474 in Circular 112). Such matter inclosed in boxes to which the lids are nailed or screwed may be accepted for mailing at the fourth-class rates of postage if, with reasonable effort, the lids can be removed by the use of a chisel, screw driver, or other suitable instrument, for the purpose of permitting examination of the contents. When a postmaster to whom is presented for mailing a bag which is sewed up is satisfied from an examination of it that it contains only fourth-class mail, he should accept it at the fourth-class rates of postage and mark it: "Examined at mailing office; contains only fourth-class mail." (Par. 3, Sec. 469, P. L. & R.)

Proprietary articles of merchandise, such as harmless medicinal preparations, soaps, tobacco, food products, etc., put up in fixed quantities in original sealed packages by the manufacturer so as to allow examination of the packages in their simplest mercantile form, and labeled in printing so as to show the nature of contents, quantity, and name of the manufacturer, are mailable at the fourth-class rates. If such sealed packages are inclosed in an outer wrapper, the latter must not be sealed, unless it is also labeled in printing in the manner indicated.

Limit of Weight and Size.—Parcels which exceed the limit of weight and size stated on page 1 will be refused.

In measuring a parcel the greatest distance in a straight line between its ends, *but not around the parcel lengthwise*, shall be taken as the length, while the distance around it at its thickest part shall be taken as the girth. For example, a parcel 10 inches wide, 5 inches high and 35 inches long has a girth of 30 inches, its length and girth combined being 65 inches.

A parcel not more than 4 feet 6 inches in length may measure as much as 2 feet 6 inches in girth, or around its thickest part. A shorter parcel may be thicker; thus, if it measures no more than 3 feet in length it may measure as much as 4 feet in girth, or around its thickest part.

Measuring Automobile Tires or Casings.—In measuring an automobile tire or casing which is so wrapped as to leave a clear space in the center, the outside diameter shall be taken as the length, and the distance around the body of the tire, that is, the mere circumference of the tubing or casing shall be taken as the girth. For example, a tire or casing 32 inches in diameter, the tubing or casing being $3\frac{1}{4}$ inches thick, would have a length of 32 inches, while its girth would be approximately 11 inches, making the length and girth combined 43 inches, and, therefore, within the limit of size prescribed for fourth-class or parcel-post mail.

However, in measuring a tire or casing which is so wrapped as to form a circular-shaped solid parcel, or leave no perfectly clear space in the center, the outside diameter of the parcel shall be taken as the length, and twice its diameter and thickness as its girth.

Permissible Additions and Inclosures.—In addition to the name and address of the sender, which is required, it is permissible to write or print on the wrapper or cover of a parcel, or on a tag or label attached to it, the occupation of the sender, and to indicate in a small space by means of marks, letters, numbers, names or other brief description, the character of the parcel, but ample space must be left on the address side for the full address in legible characters and for the necessary postage stamps. Inscriptions such as "Merry Christmas," "Please do not open until Christmas," "Happy New Year," "With best wishes," and the like, may be placed on the cover of the parcel in such manner as not to interfere with the address, or on a card inclosed therewith.

The written additions permissible upon third-class matter also may be placed on fourth-class matter, together with any marks, numbers, names, or letters, for purpose of description, or they may be placed on the wrapper or cover, tag or label. There may be written on the blank leaves or cover of any book a simple manuscript dedication or inscription not in the nature of personal correspondence. Space sufficient for a legible address, postmark and the necessary postage stamps must be left on the address side of parcels.

It is permissible to inclose with matter of the fourth class an invoice showing, in writing or printing, the name and address of the sender and of the addressee; the names and quantities of articles inclosed, together with inscriptions indicating, "for purpose of description," the price, style, stock number, size and quality of the articles; the order or file number, date of order and date and manner of shipment; the initials or name of the salesman, or of the person by whom the articles were packed or checked.

NOTE.—Invoices descriptive of the articles in parcels may be inclosed in unsealed tag envelopes attached to the outside of parcels. (See below.)

page 61

Directions for taking medicine written on a label attached to a bottle or package containing the medicine or inclosed with it are permissible and do not affect the classification of the parcel.

Public library books, otherwise mailable as parcel post matter, may bear any printed or written mark constituting a necessary inscription for the purpose of a permanent library record.

Written matter, in the nature of a personal communication on the wrapper of a parcel or inclosed therein, will subject the parcel to the letter rate of postage. See paragraph below regarding letters attached to parcels of fourth-class mail.

Printed matter relating to an article which it accompanies is regarded as descriptive of the article within the meaning of Section 458, Postal Laws and Regulations, and therefore is a permissible inclosure with such article when mailed as fourth-class or parcel-post matter.

Printing on an article or on its wrapper, or on a label pasted to it in such manner as to form an integral part of it, does not affect the classification of the article as parcel-post matter.

The tag or label, with the printing or writing authorized thereon, may be attached to the whole parcel or separate tags or labels, bearing the same, may be attached to each of one or more articles contained in the parcel.

A single order form, mainly in print, may be inclosed with fourth-class matter mailed at the rates for that class without affecting its classification.

Miscellaneous printed matter may be inclosed in parcels of fourth-class matter or in parcels of books weighing *more than four pounds* mailed at the parcel-post rates of postage.

Invoices in Unsealed Envelopes Attached to Parcels.—Senders of parcels mailed at the fourth-class rates may, if they so desire, inclose invoices bearing no unauthorized additions in unsealed tag envelopes and attach the latter to the outside of the parcels they are to accompany, provided the envelopes in which the invoices are placed are left unsealed and are plainly marked, preferably in printing, "Invoice Inside," or some similar inscription, and the senders' and addressees' names and addresses are, in all cases, placed on the wrappers of the parcels, regardless of whether or not they appear on the envelopes containing the invoices. Furthermore, in order to prevent the separation of the tag envelopes and parcels while in the mails, the envelopes must be securely fastened to the parcels and placed underneath the string with which the parcels are tied. When practicable, the tag envelopes should be pasted to the parcels. In all cases the invoices must be readily accessible for postal examination.

Letters Attached to Parcels of Fourth-Class Mail.—When the sender desires that a parcel of fourth-class matter on which the postage is fully prepaid, with stamps affixed, at the rate for that class, be accompanied with a communication which is not a permissible inclosure at the fourth-class rate, the communication may be placed in an envelope, and after the full amount of postage at the first-class rate is affixed to the envelope it may be tied to or otherwise securely attached to the outside of the parcel in such manner as to prevent its separation therefrom and not to interfere with the address on the parcel. The envelope shall be addressed to correspond with the address on the parcel. Parcels to which such communications are attached shall in all cases be treated as fourth-class mail. (Par. 5½, Sec. 458, P. L. & R.)

Any strong envelope which can be securely attached to the outside of the parcel in such manner as will prevent its separation therefrom and not interfere with the address on the parcel may be used. A tag envelope fastened with strong twine would serve this purpose very well. The envelope should always be placed under the twine with which the parcel is tied, thus lessening the chances of its becoming torn from the parcel while in transit.

The envelope must be addressed to correspond with the address on the parcel, so that in case of their becoming separated while in transit both may be delivered.

Sufficient stamps to prepay the postage at the first-class rate on the communication must be affixed to the envelope. Stamps sufficient to prepay postage at the fourth-class rate on the parcel must be affixed to the wrapper of the parcel.

Parcels Containing Two or More Classes of Mail Matter.—A parcel containing two or more classes of mail matter is chargeable with postage at the rate applicable to the highest class of matter inclosed. A parcel composed of two articles, one being matter of the third class and the other matter of the fourth class, is chargeable with postage at the fourth-class rate when such postage is equal to or greater than that which would be chargeable if the third-class rate were applicable. However, when the postage on a parcel containing both third and fourth class matter amounts to more than the third-class rate at the fourth-class rate, owing to the graduated zone rates, the parcel must be charged with postage at the third-class rate—one cent for each two ounces or fraction of two ounces.

Parcels containing second-class matter and fourth-class matter are subject to the highest rate as explained in the preceding paragraph.

Packages Mailed as First-Class Matter Should Be Sealed.—When it is desired to send packages as first-class matter, the packages should be sealed or otherwise closed against inspection, in order to avoid any confusion in the mails as to their proper classification.

NOTE.—The limit of weight for first-class matter is the same as for fourth-class matter.

Forwarding and Return of Parcels.—Parcel-post matter will be forwarded or returned to the sender on a new prepayment of postage at the rate which would be chargeable if the package was originally mailed at the forwarding office, or at the office where the parcel is held.

When parcels are subject to a new prepayment of postage amounting to 25 cents or more for forwarding from the office of original address to the addressee at another post office, or for return to the sender, they are likewise chargeable with an additional war tax. Therefore, when notifying the addressee or sender of a parcel of the amount of postage required for its forwarding or return, as the case may be, the postmaster shall also indicate, on the official card notice used for the purpose, the amount of the war tax chargeable on the parcel, for which the necessary internal-revenue stamps must be furnished by the addressee or sender. (See "War-Stamp Tax" on page 1.)

Postmasters are required to notify the senders of undeliverable parcels of obvious value.

Sender's Receipts for Ordinary Fourth-Class Parcels.—The postmaster at the mailing office may, on payment of one cent, give the sender of an ordinary parcel of fourth-class mail a receipt therefor. A postage stamp to cover the charge for the receipt shall be affixed thereto. The name and address of the addressee of the parcel shall be written in the receipt by the sender. (Section 458½, Postal Laws and Regulations.)

The purpose of this receipt is to provide senders of fourth-class parcels, when desired, a record evidencing their mailing for which a fee of one cent is charged. Their issuance does not in any way insure the parcels against loss while in the mails and no receipt is obtained from the addressee upon delivery. Patrons who desire either of these latter facilities should insure their parcels.

Receipt will be given on tag form 3817. The name and address of the addressee shall be written on the tag by the sender, who may place his own name thereon if he desires, and affix on the tag a one-cent postage stamp in the space provided. The tag shall be tied to the parcel before mailing. The postal employee accepting the article shall compare the address on the tag with that on the parcel, postmark the stamp to show the date of acceptance, detach the receipt and deliver it to the sender.

When such receipts are desired by firms and individuals mailing a number of parcels at one time a "Firm Registration Book" will be used with such modifications as are necessary. Each sheet must have affixed postage stamps at the rate of one cent for each parcel listed thereon, which stamps shall be postmarked and the sheet returned to the sender. These sheets are to be filled out by the sender and a carbon copy must not be filed at the post office.

Parcel-Post Matter Can Not Be Registered.—Fourth-class or domestic parcel-post mail will not be registered, but may be insured against loss upon payment of a fee of three, five, ten or twenty-five cents for value not exceeding five, twenty-five, fifty or one hundred dollars, in addition to the postage, both to be prepaid with stamps affixed. (See Circular 113 for detailed information.)

Special Delivery.—A mailable parcel will be accorded the usual special-delivery service when a special-delivery stamp or ten cents in ordinary stamps are affixed thereto in addition to the parcel-post postage. When ordinary stamps are used the words "Special Delivery" must be placed on the wrapper.

Unmailable Matter—Packing of Liquids, Fragile and Perishable Articles.—For information regarding un-mailable matter and the regulations as to packing of liquids, fragile and perishable articles, the use of boxes, crates, etc., in the shipment outside of mail bags of butter, eggs, fruits, vegetables, dressed poultry and other articles; also the preparation of articles which, unless properly protected, are liable to injure another or damage the mails. (See Circular 112.)

Insurance and C. O. D. Service.—Fourth-class or domestic parcel-post mail (but no other) may be insured against loss or damage upon payment of a fee of three cents for value not exceeding \$5, five cents for value not exceeding \$25, ten cents for value not exceeding \$50, or twenty-five cents for value not exceeding \$100, in addition to the postage, both to be prepaid with stamps affixed. It may not be registered.

Such mail may be insured at the General Post Office or at any Parcel-Post Station.

Return Receipts for Insured Parcels may be obtained by indorsing the parcels "Return receipt desired."

Parcels of fourth-class or parcel-post matter may be sent "C. O. D." from one money-order post office to another on payment of a fee of ten cents or twenty-five cents in addition to the postage, both to be prepaid with stamps affixed. The amount to be remitted to the sender must not exceed \$100. The remittance is made by post-office money order, the fee therefor being included in the amount collected from the addressee. A "C. O. D." tag furnished by the post office must be filled in by the sender and attached to the parcel. The "C. O. D." fee also covers insurance against loss, rifling or damage up to \$50 actual value when a ten-cent fee is paid and \$100 when a twenty-five cent fee is paid.

A Receipt is given to the sender of a "C. O. D." parcel at the time of mailing, but no return receipt is furnished, as the remittance shows that delivery has been made.

Examination of Contents of a "C. O. D." Parcel is not permitted until it has been receipted for and all charges paid.

Indemnity for Lost, Rifled or Damaged "C. O. D." Parcels is paid for the actual value under the conditions governing the payment of indemnity for insured parcels.

For further particulars regarding insurance and collect-on-delivery service see Circular 113.

HELP! IN CASE OF ACCIDENTS.

Drowning. 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach and lifting by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils and pressing the "Adam's apple" back (so as to close entrance to stomach) direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. DON'T GIVE UP! People have been saved after hours of patient, vigorous effort. 8. When breathing begins get patient into a warm bed, give warm drinks, or spirits in teaspoonfuls, fresh air and quiet.

Burns and Scalds. Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive or linseed oil, plain or mixed with chalk or whiting.

Lightning. Dash cold water over a person struck.

Sunstroke. Loosen clothing. Get patient into shade and apply ice-cold water to head.

Mad Dog or Snake Bite. Tie cord tight above the wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife.

Venomous Insects' Stings, etc. Apply weak ammonia, oil, salt water or iodine.

Fainting. Place flat on back; allow fresh air and sprinkle with water.

Electricity. Release from current not touching body or wire with hands, metal or a wet stick. Handle body by its clothing, with rubber gloves and shoes if possible; if not, cover hands with dry woolen cloth and stand on dry boards. Then induce artificial respiration as in case of drowning. Rub limbs and massage body.

ANTIDOTES FOR POISONS.

First. Send for a Physician.

Second. INDUCE VOMITING, by tickling throat with feather or finger, drinking hot water or strong mustard and water. Swallow Sweet Oil or whites of Eggs.

Acids are antidotes for ALKALIES, and vice versa.

SPECIAL POISONS AND ANTIDOTES.

Acids. MURIATIC, OXALIC, ACETIC, SULPHURIC } Soap-suds, magnesia, Lime-water.
(Oil of Vitriol), NITRIC (Aqua Fortis)

Prussic Acid. Ammonia in water. Dash water in face.

Carbolic Acid. Flour and water, mucilaginous drinks.

Alkalies. POTASH, LYE, HARTSHORN, AMMONIA. Vinegar or Lemon juice in water.

Arsenic, Lead Poison, Paris Green. Milk, raw Eggs, Sweet Oil, Limewater, Flour and water.

Red Powder, Lead, Saltpetre, Corrosive. Whites of Eggs, or Milk in large doses.

Sugar of Lead, Blue Vitriol.

Chloroform, Chloral, Ether. Dash cold water on head and chest. Artificial respiration. Piece of ice in rectum.

Carbonate of Soda, Copperas, Cobalt. Soap-suds and mucilaginous drinks.

Iodine, Antimony, Tartar Emetic. Starch and water. Astringent infusions. Strong tea.

Mercury AND ITS SALTS. Whites of Eggs, Milk, Mucilages.

Nitrate of Silver, Lunar Caustic. Salt and water.

Strychnine, Tincture of Nux Vomica. Mustard and water, Sulphate of Zinc. Absolute quiet. Plug the ears.

The above table applies to ordinary years only. For leap year, one day must be added to each number of days after February 28.
EXAMPLE.—To find the number of days between June 3, 1892, and February 16, 1893. The figures opposite the third day in the first June column are 154; those opposite the sixteenth day in the second February column are 412. Subtract the first from the second product—i. e., 154 from 412, and the result is 258, the number of days between the two dates.

Weight per Bushel of Grain, Etc.

BUSINESS LAW IN DAILY USE.

The following compilation of business law contains the essence of a large amount of legal verbiage:—
 If a note is lost or stolen, it does not release the maker; he must pay it, if the consideration for which it was given and the amount can be proven.
 Notes bear interest only when so stated.
 Principals are responsible for the acts of their agents.
 Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of special partnership.
 Ignorance of the law excuses no one.
 The law compels no one to do impossibilities.
 An agreement without consideration is void.
 A note made on Sunday is void.
 Contracts made on Sunday cannot be enforced.
 A note by a minor is void.
 A contract made with a minor is void.
 A contract made with a lunatic is void.
 A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.
 It is a fraud to conceal a fraud.
 Signatures made with a lead pencil are good in law.
 A receipt for money is not always conclusive.
 The acts of one partner bind all the rest.
 "Value received" is usually written in a note, and should be, but is not, necessary. If not written it is presumed by the law, or may be supplied by proof.
 The maker of an "accommodation" bill or note (one for which he has received no consideration, having lent his name or credit for the accommodation of the holder) is not bound to the person accommodated, but is bound to all other parties, precisely as if there was a good consideration.
 No consideration is sufficient in law if it be illegal in its nature.
 Checks or drafts must be presented for payment without unreasonable delay.
 Checks or drafts should be presented during business hours, but in this country, except in the case of banks, the time extends through the day and evening.
 If the drawee of a check or draft has changed his residence, the holder must hold due or reasonable diligence to find him.
 If one who holds a check as payee or otherwise transfers it to another, he has a right to insist that the check be presented that day, or, at the farthest, on the day following.
 A note indorsed in blank (the name of the indorser only written) is transferable by delivery, the same as if made payable to bearer.
 If the time of payment of a note is not inserted, it is held payable on demand.
