

FOR IMMEDIATE RELEASE

OptConnect Makes Annual Inc. 5000 List of America's Fastest-Growing Private Companies for Fifth Consecutive Year

(SILICON SLOPES, Utah) August 16, 2022 – OptConnect, a longtime leader in managed wireless services, today announced that they have made the 2022 Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies. The list represents the most successful companies within the American economy's most dynamic segment—its independent small businesses. OptConnect's impressive year over year growth makes this the company's fifth consecutive national recognition in addition to being recognized one of the 50 fastest-growing companies in Utah by Utah Business Magazine.

“Over the last few years, OptConnect has added thousands of satisfied customers, expanded into new verticals, developed award-winning new products, grew profitability and continued to simplify connectivity for our customers so they could focus on their core businesses,” said Chris Baird, CEO of OptConnect. “We are proud that this hard work is being recognized and that we are continually one of the fastest-growing companies in the nation and in the state of Utah.”

The companies on the 2022 Inc. 5000 have not only been successful, but have also demonstrated resilience amid supply chain woes, labor shortages, and the ongoing impact of COVID-19.

“The accomplishment of building one of the fastest-growing companies in the U.S., in light of recent economic roadblocks, cannot be overstated,” says Scott Omelianuk, Editor-in-Chief of Inc. “Inc. is thrilled to honor the companies that have established themselves through innovation, hard work and rising to the challenges of today.”

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at www.inc.com/inc5000.
