**“STATEMENT OF MANAGEMENT RESPONSIBILITY
FOR FINANCIAL STATEMENTS”**

The management of **PawnHero Pawnshop Philippines Inc.** (the Company) is responsible for the preparation and fair presentation of the financial statements including the schedules attached therein, for the years ended December 31, 2024 and 2023, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

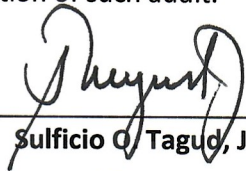

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company’s financial reporting process.

The Board of Directors reviews and approves the financial statements including schedules attached therein, and submits the same to the members.

Reyes Tacandong & Co., the independent auditor and appointed by the members, has audited the financial statements of the Company in accordance with Philippine Standards on Auditing, and in its report to the members, has expressed its opinion on the fairness of presentation upon completion of such audit.

INDEPENDENT AUDITORS' REPORT

The Stockholders and the Board of Directors
PawnHero Pawnshop Philippines, Inc.
7/F, The AVECshares Center
1132 University Parkway North
Fort Bonifacio, Taguig City

Opinion

We have audited the accompanying financial statements of PawnHero Pawnshop Philippines, Inc. (the Company), which comprise the statements of financial position as at December 31, 2024 and 2023, and statements of comprehensive income, statements of changes in equity and statements of cash flows for the years then ended, and notes to financial statements, including material accounting policy information.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2024 and 2023, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to the audits of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

PAWNERO PAWNSHOP PHILIPPINES, INC.

NOTES TO FINANCIAL STATEMENTS AS AT AND FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

1. Corporate Information

PawnHero Pawnshop Philippines, Inc. (the Company) was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) and with the Bureau of Internal Revenue (BIR) on September 12, 2014 and October 1, 2014, respectively. The Company has a Certificate of Authority from the Bangko Sentral ng Pilipinas (BSP).

The Company's primary purpose is to engage in the business of lending money on personal property delivered as security for loans in accordance with Presidential Decree 114 otherwise known as Pawnshop Regulation Act, provided the Company shall not engage in financing business as defined under Republic Act (RA) 8556, *The Financing Company Act of 1998*, As Amended; and to engage in pawnshop business online including but not limited to establishment and maintenance of sites for e-pawnshop business and other electronic business applications and services or undertaking that is expedient in furtherance and/or connected with or related to the herein purpose.

The Company is 45%-owned by Hatchd Inc., 30%-owned by Pawnhero Philippines, Pte. Ltd., and 25%-owned by an individual shareholder. Hatchd, Inc. is domiciled in the Philippines and is engaged in venture capital investment. Pawnhero Philippines, Pte. Ltd. is domiciled in Singapore and is engaged in management consultancy services.

The Company's registered office address is located at 7/F, The AVecshares Center, 1132 University Parkway North, Fort Bonifacio, Taguig City.

Approval of the Financial Statements

The financial statements of the Company as at and for the years ended December 31, 2024 and 2023 were approved and authorized for issuance by the Board of Directors (BOD) on May 25, 2025.

2. Material Accounting Policy Information

Basis of Preparation and Statement of Compliance

The financial statements of the Company have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards issued by the Philippine Financial and Sustainability Reporting Standards Council and adopted by the SEC. This financial reporting framework includes PFRS Accounting Standards, Philippine Accounting Standards (PAS), and Philippine Interpretation from International Financial Reporting Interpretations Committee.

Measurement Bases

The financial statements are presented in Philippine Peso, the Company's functional currency. All values are stated in absolute amounts, unless otherwise indicated.

The financial statements have been prepared under the historical cost basis, except for:

- Retirement liability that is carried at the present value of defined benefit obligation; and
- Lease liability that is initially measured at the present value of remaining lease payments, discounted using an appropriate discount rate.

Historical cost is generally based on the fair value of the consideration given in exchange for an asset and fair value of the consideration received in exchange for incurring a liability. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as at measurement date.

The Company uses market observable data to the extent possible when measuring the fair value of an asset or a liability. Fair values are categorized into different levels in a fair value hierarchy based on inputs used in the following valuation techniques:

- Level 1 - Quoted (unadjusted) market prices in active market for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level of input that is significant to the fair value measurement is directly or indirectly observable; or
- Level 3 - Valuation techniques for which the lowest level of input that is significant to the fair value measurement is unobservable.

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level of input that is significant to the entire measurement.

The carrying amounts of cash, loans and other receivables (excluding nonfinancial assets), accounts and other payables (excluding statutory payables), notes payable, and advances from a related party approximate their fair values due to their short-term nature. The carrying amount of security deposits approximates fair value because the management has assessed that the effect of discounting the future receipts from these financial instruments using the prevailing market rates is not significant.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Adoption of Amendments to PFRS Accounting Standards

The material accounting policies adopted are consistent with those of the previous financial year. There are no amendments to PFRS Accounting Standards effective January 1, 2024 that have an impact on the Company's financial statements.

New and Amendments to PFRS Accounting Standards in Issue But Not Yet Effective

Relevant new and amendments to PFRS Accounting Standards, which are not yet effective as at December 31, 2024 and have not been applied in preparing the financial statements, are summarized below.

Effective January 1, 2026 -

- Amendments to PFRS 9, *Financial Instruments*, and PFRS 7, *Financial Instruments: Disclosures - Classification and Measurement of Financial Assets* – The amendments clarify that a financial liability is derecognized when the related obligation is discharged or cancelled, expires, or otherwise qualifies for derecognition (e.g. settlement date), and introduce a policy option to derecognize financial liabilities settled through an electronic payment system before settlement date if the required conditions are met.

The amendments also clarify the assessment of contractual cash flow characteristics of financial assets, the treatment of non-recourse loans and contractually linked instruments, as well as require additional disclosure requirements for financial assets and liabilities with contingent features and equity instruments classified at fair value through other comprehensive income (FVOCI). Earlier application is permitted.

Effective January 1, 2027 -

- PFRS 18, *Presentation and Disclosure in Financial Statements* – This standard replaces PAS 1, *Presentation of Financial Statements*, and sets out the requirements for the presentation and disclosure of information to help ensure that the financial statements provide relevant information that faithfully represents the entity's assets, liabilities, equity, income, and expenses. The standard introduces new categories and sub-totals in the statements of comprehensive income, disclosures on management-defined performance measures, and new principles for grouping of information, which the entity needs to apply retrospectively. Earlier application is permitted.

Under prevailing circumstances, the adoption of the foregoing amendments to PFRS Accounting Standards is not expected to have any material effect on the financial statements of the Company. Additional disclosures will be included in the financial statements, as applicable.

Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity or a financial liability or equity instrument of another entity.

The Company recognizes a financial asset or a financial liability in the statements of financial position when it becomes a party to the contractual provisions of a financial instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, is done using settlement date accounting.

Financial Assets at Amortized Cost

Initial Recognition and Measurement. Financial assets at amortized cost are recognized initially at fair value, which is the fair value of the consideration given. The initial measurement of financial assets at amortized includes transaction cost.

Financial assets are measured at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, financial assets at amortized cost are subsequently measured at amortized cost using the effective interest method, less any allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition, and fees that are an integral part of the effective interest rate. Gains and losses are recognized in profit or loss when the financial assets are derecognized, impaired, and through amortization process. Financial assets at amortized cost are included under current assets if realizability or collectability is within 12 months after the reporting date. Otherwise, these are classified as noncurrent assets.

As at December 31, 2024 and 2023, the Company's cash, loans and other receivables (except nonfinancial assets), and security deposit are classified under this category (see Notes 4, 5, and 7).

Impairment of Financial Assets at Amortized Cost. The Company assesses on a forward-looking basis the expected credit losses (ECL) of financial assets at amortized cost. ECL is based on the difference between the cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation to the asset's original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The measurement of ECL reflects: (a) an unbiased probability-weighted amount that is determined by evaluating a range of possible outcomes; (b) the time value of money; and (c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

ECL is a function of the probability of default, loss given default, and exposure of default, with the timing of the loss also considered, and is estimated by incorporating forward-looking economic information and through the use of experienced credit judgment.

The probability of default represents the likelihood that the borrower will default either over the next 12 months or over the remaining life of the asset. Loss given default represents the Company's expectation of the extent of loss on a default exposure. Exposure at default is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, and expected drawdowns on committed facilities.

The Company measures loss allowances at an amount equal to the 12-month ECL for loans receivable and other financial assets at amortized cost.

The 12-month ECL is the portion of ECL that results from default events on financial assets that are possible within the 12 months after the reporting date. Financial instruments for which a 12-month ECL is determined, are referred to as "Stage 1 financial assets".

However, when there has been a significant increase in credit risk since initial recognition, the allowance will be based on the lifetime ECL. Lifetime ECL is the ECL that result from all possible default events over the expected life of the financial instrument. Financial instruments for which a lifetime ECL is determined but which are not credit-impaired, are referred to as “Stage 2 financial assets”.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial asset as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Company also considers downgrade of credit risk rating or changes in the computed probabilities of default to determine whether significant increase in credit risk has occurred subsequent to initial recognition date. In subsequent reporting years, if the credit risk of the financial instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts them to Stage 1.

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired (referred to as “Stage 3 financial assets”). A financial asset is “credit-impaired” when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

ECL for credit-impaired financial assets is based on the difference between the gross carrying amount and present value of estimated future cash flows. The Company transfers credit exposures from Stage 3 (non-performing) to Stage 1 (performing) when there is sufficient evidence to support their full collection. Such exposures should exhibit both the quantitative and qualitative indicators of probable collection prior to the transfer. The quantitative indicator is characterized by payments made within an observation period. The qualitative indicator pertains to the results of assessment of the borrower’s financial capacity.

Financial assets at amortized cost are written off when there is no reasonable expectation of recovering the financial asset in its entirety or a portion thereof. This is generally the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. This assessment is carried out at the individual asset level.

Derecognition. A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- The right to receive cash flows from the asset has expired;
- The Company retains the right to receive cash flows from the financial asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
- The Company has transferred its right to receive cash flows from the financial asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive cash flows from a financial asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset nor transferred control of the financial asset, the financial asset is recognized to the extent of the Company's continuing involvement in the financial asset. Continuing involvement that takes the form of a guarantee over the transferred financial asset is measured at the lower of the original carrying amount of the financial asset and the maximum amount of consideration that the Company could be required to repay.

Financial Liabilities at Amortized Cost

Initial Recognition and Measurement. Financial liabilities at amortized cost are recognized initially at fair value, which is the fair value of the consideration received, net of any directly attributable transaction costs.

Financial liabilities are categorized as financial liabilities at amortized cost when the substance of the contractual arrangement results in the Company having an obligation either to deliver cash or another financial asset to the holder, or to settle the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

After initial recognition, these financial liabilities are measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issue, and fees that are an integral part of the effective interest rate. Gains and losses are recognized in profit or loss when the liabilities are derecognized or through the amortization process.

As at December 31, 2024 and 2023, the Company's accounts and other payables (excluding statutory payables), notes payable, advances from a related party, and lease liability are classified under this category (see Notes 10, 11, 14, and 16).

Derecognition. A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Classification of Financial Instrument between Liability and Equity. A financial instrument is classified as a liability if it provides for a contractual obligation to:

- Deliver cash or another financial asset to another entity;
- Exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Company; or
- Satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the Company does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

Offsetting of Financial Assets and Liabilities

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position only if there is a currently enforceable legal right to offset the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the statement of financial position.

Foreclosed Assets

Foreclosed assets are initially recognized at the amortized cost of the related outstanding loans on the date of repossession, which is generally below the net realizable value (NRV) of the foreclosed assets. Upon repossession of the assets, the related loans together with the related impairment allowances, if any, are derecognized from the statements of financial position. Subsequently, foreclosed assets are carried at the lower of the amount initially recognized or NRV and are therefore written down if and when the NRV falls to below the carrying amount of the asset. The excess or deficiency of the net proceeds over the carrying amount of the foreclosed assets is recognized as a gain/loss upon the disposal of the assets.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation, amortization, and any impairment in value.

The initial cost of property and equipment consists of its purchase price after deducting trade discounts and rebates, import duties, non-refundable purchase taxes, and any other costs directly attributable in bringing the asset to its working condition and location for its intended use.

Expenditures incurred after the property and equipment have been put into operations, such as repairs, maintenance and overhaul costs, are normally recognized in profit or loss in the year the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment. The cost of replacing a component of an item of property and equipment is recognized if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognized.

When parts of an item of property and equipment have different useful lives, these are accounted for as items (major components) of property and equipment.

Depreciation and amortization of property and equipment begin when it is in the location and condition necessary for it to be capable of operating in the manner intended by the management. Depreciation and amortization are calculated on a straight-line basis over the following estimated useful lives of the property and equipment:

	Number of Years
Leasehold improvements	5 or term of the lease, whichever is shorter
Appraisal equipment	10
Office equipment	3
Furniture and fixtures	3

The estimated useful lives and depreciation and amortization method are reviewed at each reporting date to ensure that these are consistent with the expected pattern of economic benefits from items of property and equipment.

Fully-depreciated assets are retained in the accounts until these are no longer in use.

When assets are retired or otherwise disposed of, the cost and the related accumulated depreciation and amortization, and any impairment in value are removed from the accounts. Any resulting gain or loss is recognized in profit or loss.

Computer Software

Computer software pertains to pawnshop operations software that is stated at cost, which includes purchase price and other direct costs, less accumulated amortization and any impairment in value. Computer software is amortized over its useful life on a straight-line basis and assessed for impairment whenever there is an indication that the computer software may be impaired.

The amortization period and method for computer software are reviewed at each reporting date. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the computer software with finite useful life are recognized in profit or loss.

The useful life of computer software arising from contractual or other legal rights should not exceed the period of those rights, but may be shorter depending on the period over which the computer software is expected to be used by the Company. Computer software is amortized on a straight-line basis over five years.

Impairment of Nonfinancial Assets

The carrying amounts of nonfinancial assets are reviewed for impairment when events or changes in circumstances indicate that the carrying amounts may not be recoverable. If such indication exists and when the carrying amounts exceed the estimated recoverable amounts, the assets are written down to their recoverable amounts. The recoverable amount of the asset is the greater of the fair value less cost of disposal and value in use. The fair value less cost of disposal is the amount obtainable from the sale of an asset in an arm's-length transaction less cost of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects the current market assessment of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating units (CGU) to which the asset belongs. Impairment losses are recognized in profit or loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. In such instance, the carrying amount of the asset is increased to its recoverable amount. However, that increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, if no impairment loss had been recognized for the asset in prior years. Such reversal is recognized in profit or loss. After such reversal, the depreciation and amortization charges are adjusted prospectively to allocate the asset's revised carrying amount on a systematic basis over its remaining useful life.

Equity

Preferred Stock. Preferred stock is classified as equity if it is non-redeemable, or redeemable only at the Company's option, and any dividends are discretionary. It is measured at par value for all shares issued. Dividends thereon are recognized as distributions within equity upon approval by the Company's BOD.

Common Stock. Common stock is measured at par value for all shares issued and subscribed.

Deficit. Deficit represents the cumulative balance of the Company's net income or loss.

Cumulative Remeasurement Gains on Retirement Liability. Cumulative remeasurement gains on retirement liability represent the cumulative balance of actuarial gains and losses due to experience adjustments and changes in financial assumptions. Remeasurements are recognized in other comprehensive income (OCI) and not reclassified to profit or loss in subsequent events.

Revenue Recognition

Revenue from contract with customers is recognized when the performance obligation in the contract has been satisfied, either at a point in time or over time. Revenue is recognized over time if one of the following criteria is met: (a) the customer simultaneously receives and consumes the benefits as the Company performs its obligations; (b) the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or (c) the Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date. Otherwise, revenue is recognized at a point in time.

The Company also assesses its revenue arrangements to determine if it is acting as a principal or as an agent. The Company has assessed that it acts as a principal in its revenue arrangements.

The following specific recognition criteria must also be met before revenue is recognized.

Interest Income. Interest income is recognized as it accrues, taking into account the effective yield on the asset.

Gain on Disposal of Foreclosed Assets. Gain on disposal of foreclosed assets represents the excess of the proceeds from the sale of foreclosed assets acquired and the cost of the foreclosed assets acquired, net of cost to sell. Revenue is recognized when delivery has taken place.

Other Income. Income from other sources, which includes consignment income and authentication fee, is recognized as revenue when earned.

Cost and Expense Recognition

Costs and expenses are recognized in profit or loss when a decrease in future economic benefits related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably.

Operating Expenses. Operating expenses constitute cost of administering the business. These are recognized in profit or loss when incurred.

Finance Costs. Finance costs are recognized in profit or loss using the effective interest method.

Employee Benefits

Short-term Employee Benefits. The Company recognizes short-term employee benefits based on contractual arrangements with employees. The unpaid portion of the short-term employee benefits is measured on an undiscounted basis and is included as part of “Accounts and other payables” account in the statements of financial position.

Retirement Benefits. Retirement benefits are actuarially determined using the projected unit credit method. This method reflects services rendered by employees up to the date of valuation and incorporates assumptions concerning employees’ projected salaries. The calculation of defined benefit obligations is performed annually by a qualified actuary. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in the future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

The Company recognizes retirement benefits, comprising current service costs and interest costs, in profit or loss.

The Company determines the interest costs by applying the discount rate to the retirement liability at the beginning of the annual period, taking into account any changes in the retirement liability during the period as a result of contributions and benefit payments.

Remeasurements of the retirement liability, which comprise actuarial gains and losses, are recognized immediately in OCI and are not reclassified to profit or loss in subsequent years.

The retirement liability recognized by the Company pertains to the present value of the retirement liability which is determined by discounting the estimated future cash outflows using risk-free interest rates of government bonds that have terms to maturity approximating the terms of the related retirement liability.

Leases

The Company assesses whether the contract is, or contains a lease. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Company assesses whether, throughout the period of use, it has both of the following:

- The right to obtain substantially all of the economic benefits from use of the identified asset; and
- The right to direct the use of the identified asset.

If the Company has the right to control the use of an identified asset for only a portion of the term of the contract, the contract contains a lease for that portion of the term. The Company also assesses whether a contract contains a lease for each potential separate lease component.

At the commencement date, the Company, as a lessee, recognizes right-of-use (ROU) asset and lease liability for all leases, except for leases with lease terms of 12 months or less (short-term leases) and leases for which the underlying asset is of low value, in which case the lease payments associated with those leases are recognized in profit or loss on a straight-line basis throughout the lease term.

ROU Asset. ROU asset is measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of the related lease liability. The cost of ROU asset includes:

- The amount of the initial measurement of lease liability;
- Any lease payments made at or before the commencement date less any lease incentives received;
- Any initial direct costs; and
- An estimation of costs to be incurred by the Company in dismantling and removing the underlying asset, when applicable.

After the commencement date, the ROU asset is carried at cost less any accumulated amortization and any accumulated impairment losses, and adjusted for any remeasurement of the related lease liability. The ROU asset is amortized over the shorter of the lease term or the useful lives of the underlying asset of five years.

Lease Liability. At commencement date, the Company measures a lease liability at the present value of future lease payments using the interest rate implicit in the lease, if that rate can be readily determined. Otherwise, the Company uses its incremental borrowing rate (IBR).

Lease payments included in the measurement of a lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Any variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable by the lessee under residual value guarantees; and
- The exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early, when applicable.

A lease liability is subsequently measured at amortized cost. Interest on the lease liability and any variable lease payments not included in the measurement of lease liability are recognized in profit or loss unless these are capitalized as costs of another asset.

If there is a change in the lease term or if there is a change in the assessment of an option to purchase the underlying asset, the lease liability is remeasured using a revised discount rate considering the revised lease payments on the basis of the revised lease term or reflecting the change in amounts payable under the purchase option. The lease liability is also remeasured using the revised lease payments if there is a change in the amounts expected to be payable under a residual value guarantee or a change in future lease payments resulting from a change in an index or a rate used to determine those payments.

Foreign Currency-denominated Transactions

Transactions denominated in foreign currencies are recorded using the exchange rate at the date of the transaction. Outstanding monetary assets and liabilities denominated in foreign currencies are translated using the closing exchange rate at reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of initial transaction. Differences arising on settlement or translation of monetary assets and liabilities are recognized in profit or loss.

For income tax reporting purposes, foreign exchange gains or losses are treated as taxable income or deductible expenses in the year such are realized.

Income Taxes

Current Tax. Current tax assets and liabilities are measured at the amounts expected to be recovered from or paid to the taxation authorities. The tax rate and tax laws used in the computation are those that have been enacted or substantively enacted at the reporting date.

Deferred Tax. Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences and carryforward benefits of unused tax credits from excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient taxable profit will be available against which the deductible temporary differences and carryforward benefits of unused tax credits and unused tax losses can be utilized. Deferred tax, however, is not recognized when it arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Related Party Transactions

Related party transactions are transfers of resources, services or obligations between the Company and its related parties, regardless whether a price is charged.

Related party relationships exist when one party has the ability to control, directly or indirectly through one or more intermediaries, the other party or exercise significant influence over the other party in making financial and operating decisions. Such relationships also exist between and/or among entities which are under common control with the reporting enterprise, or between and/or among the reporting enterprise and its key management personnel, directors, or its stockholders.

Provisions and Contingencies

Provisions. Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in profit or loss net of any reimbursement. If the effect of the time value of money is material, the estimated cash flows are discounted using a current pre-tax rate that reflects the current market assessment of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

Contingencies. Contingent liabilities are not recognized in the financial statements. These are disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed in the notes to financial statements when an inflow of economic benefits is probable.

Events after the Reporting Date

Post year-end events that provide additional information about the Company's financial position at reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to financial statements when material.

3. Significant Judgments, Accounting Estimates, and Assumptions

The preparation of the financial statements requires management to exercise judgments, make accounting estimates and use assumptions that affect the amounts reported in the financial statements and related notes. The judgments, accounting estimates, and assumptions used in the financial statements are based upon management's evaluation of relevant facts and circumstances at the reporting date.

While the Company believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the estimated amounts. Actual results could differ from such estimates.

The accounting estimates and underlying assumptions are reviewed on an ongoing basis. Revisions in accounting estimates are recognized in the period in which the estimate is revised and in any future years affected.

The following are the significant judgments, accounting estimates, and assumptions made by the Company:

Judgments

Determining the Classification and Measurement of Financial Assets. Classification and measurement of financial assets depends on the results of the contractual cash flow and the business model tests. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective.

This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated, the risks that affect the performance of the assets, and how these risks are managed. The Company monitors financial assets measured at amortized cost that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate. Otherwise, change in the business model should result to a change in the classification of those financial assets.

Cash, loans and other receivables (except nonfinancial assets), and security deposits are classified as financial assets at amortized cost because the Company's primary business model in relation to these assets is to hold the financial assets to collect contractual cash flows, on specified dates, solely for principal and interest (see Notes 4, 5, and 7).

Determining the Term of Lease Contracts with Renewal and Termination Options. The Company, as a lessee, considers the renewal option in determining the term of its lease contract since the Company believes that it is reasonably certain that it will renew and not terminate the contract. The Company determined that the term of the contract is five years as at commencement date. Accordingly, the Company includes the expected lease payments upon renewal of lease contract in the calculation of ROU asset and lease liability.

Evaluating the Adequacy of Tax Liabilities. The Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Company believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretation of tax laws and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Company to change its judgment regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Accounting Estimates and Assumptions

Assessing the ECL on Financial Assets at Amortized Cost. The Company determines the allowance for ECL using general approach based on the probability-weighted estimate of the present value of all cash shortfalls over the expected life of financial assets at amortized cost. ECL is provided for credit losses that result from possible default events within the next 12 months unless there has been a significant increase in credit risk since initial recognition in which case ECL is provided based on lifetime ECL.

When determining if there has been a significant increase in credit risk, the Company considers reasonable and supportable information that is available without undue cost or effort and that is relevant for the particular financial instrument being assessed such as, but not limited to, the following factors:

- Actual or expected external and internal credit rating downgrade;
- Existing or forecasted adverse changes in business, financial or economic conditions; and
- Actual or expected significant adverse changes in the operating results of the counterparty.

The Company also considers financial assets that are more than 30 days past due to be the latest point at which lifetime ECL should be recognized unless it can demonstrate that this does not represent a significant risk in credit risk such as when non-payment was an administrative oversight rather than resulting from financial difficulty of the counterparty.

The Company has assessed that the ECL on other financial assets at amortized cost is not material because the transactions with respect to these financial assets were entered only with banks and companies with good credit standing and relatively low risk of default. Further, for loans receivable, the Company holds pawned items as collaterals. As at December 31, 2024 and 2023, the fair value of pawned items fully covers the carrying amount of loans receivable. Accordingly, no provision for ECL on financial assets at amortized cost was recognized in 2024 and 2023.

The carrying amounts of financial assets at amortized cost as at December 31, 2024 and 2023 are disclosed in Notes 4, 5, and 7 to the financial statements.

Determining the NRV of Foreclosed Assets. The Company writes down its foreclosed assets to NRV whenever the selling price less costs to sell foreclosed assets becomes lower than cost due to damage, physical deterioration, obsolescence, changes in price levels or other causes. However, when the circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in NRV because of changed economic circumstances, the amount of the write-down is reversed. These are being reviewed by the Company on a regular basis.

As at December 31, 2024 and 2023, the carrying amounts of foreclosed assets and the related allowance for impairment losses are disclosed in Note 6 to the financial statements.

Estimating the Useful Lives of Property and Equipment and Computer Software. The Company estimates the useful lives of its property and equipment and computer software based on the period over which the assets are expected to be available for use. The Company reviews the estimated useful lives of property and equipment and computer software at each reporting date based on factors that include asset utilization, internal technical evaluation, technological changes, environmental changes, anticipated use of the assets, and experience with similar assets.

There were no changes in the estimated useful lives of property and equipment and computer software in 2024 and 2023. The carrying amounts of property and equipment and computer software as at December 31, 2024 and 2023 are disclosed in Notes 8 and 9 to the financial statements.

Assessing the Impairment of Nonfinancial Assets. The Company assesses impairment on nonfinancial assets whenever events or changes in circumstances indicate that the carrying amount of the assets or CGU may not be recoverable. The relevant factors that the Company considers in deciding whether to perform an asset impairment review include, among others, the following:

- Significant underperformance of a business in relation to expectations;
- Significant negative industry or economic trends; and
- Significant changes or planned changes in the use of the assets.

Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized. Recoverable amounts are estimated for individual assets or, if it is not possible, for the CGU to which the asset belongs. The recoverable amount of the asset is the greater of the fair value less cost of disposal or value in use. The fair value less cost of disposal is the amount obtainable from the sale of an asset in an arm's-length transaction less cost of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

The carrying amounts of other nonfinancial assets as at December 31, 2024 and 2023 are disclosed in Notes 7, 8, 9, and 16 to the financial statements.

Determining Retirement Liability. The determination of the retirement liability and expense is dependent on the assumptions used by the actuary in calculating such amounts. Actual results that differ from the Company's assumptions are accumulated and amortized over future periods and, therefore, generally affect the recognized expense and recorded liability in such future periods. While the Company believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the retirement liability.

Information of the Company's retirement benefits in 2024 and 2023 and retirement liability as at December 31, 2024 and 2023 are disclosed in Note 15 to the financial statements.

Estimating the IBR for the Computation of ROU Asset and Lease Liability. The Company uses its IBR in computing for the present value of lease liability. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the ROU asset in a similar economic environment. The Company estimates the IBR using available observable inputs, such as the prevailing Bloomberg Valuation Service (BVAL) interest rates, adjusted for entity-specific estimates, to reflect the terms and conditions of the lease.

The Company has applied IBRs ranging from 8.00% to 10.71% for the computation of lease liability and ROU asset. The carrying amounts of ROU asset and lease liability as at December 31, 2024 and 2023 are disclosed in Note 16 to the financial statements.

Assessing the Realizability of Deferred Tax Assets. The Company reviews the carrying amount of deferred tax assets at each reporting date and reduces the balance to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Management believes that Company will be able to utilize in the future all its deferred tax assets on deductible temporary differences and carryforward benefits of unused tax credits and unused tax losses based on the Company's projected taxable income in the subsequent reporting periods.

Information of the Company's recognized deferred tax assets as at December 31, 2024 and 2023 are disclosed in Note 17 to the financial statements.

4. Cash

This account consists of:

	2024	2023
Cash on hand	₱4,125,388	₱3,066,641
Cash in banks	13,870,258	16,492,246
Other cash items	217,617	179,626
	₱18,213,263	₱19,738,513

Cash in banks earn interest at prevailing bank deposit rates and are readily available for use in the current operations.

Other cash items pertain to electronic wallets, which are used for selected online disbursement transactions. These are unrestricted and available for use in the current operations.

Interest income is recognized from the following:

	Note	2024	2023
Loans receivable	5	₱33,703,129	₱38,028,359
Cash in banks		10,761	8,693
		₱33,713,890	₱38,037,052

5. Loans and Other Receivables

This account consists of:

	2024	2023
Loans receivable	₱44,811,234	₱54,178,162
Amounts owed by third parties	5,528,631	1,728,848
Advances to employees	4,573,012	102,518
	₱54,912,877	₱56,009,528

The principal activity of the Company is the granting of pawn loans in the Philippines. Loans receivable pertain to loans granted to customers in exchange of pawning their personal items. Terms of the loans range from one to three months in 2024 and 2023. These loans are fully secured by pawned items and earn monthly interest ranging from 3.50% to 20.00% and 3.50% to 6.00% in 2024 and 2023, respectively.

Interest income earned on loans receivable amounted to ₱33,703,129 and ₱38,028,359 in 2024 and 2023, respectively (see Note 4).

The acquisition of foreclosed assets in settlement of loans receivable amounted to ₱24,960,069 and ₱33,147,178 in 2024 and 2023, respectively (see Note 6).

Amounts owed by third parties pertain to payments made by pawners to third parties pending remittance to the Company.

Advances to employees pertain to amounts given to employees that are paid through salary deduction and subject to liquidation.

6. Foreclosed Assets

This account consists of:

	2024	2023
At cost	₱10,300,691	₱17,643,278
At NRV	6,883,792	9,410,782
	₱17,184,483	₱27,054,060

The cost of foreclosed assets measured at NRV amounted to ₱15,862,628 and ₱19,796,119 as at December 31, 2024 and 2023, respectively.

The movements of this account are as follows:

	Note	2024	2023
Balance at beginning of year		₱37,439,397	₱43,020,655
Acquired in settlement of loans receivable	5	24,960,069	33,147,178
Cost of sold foreclosed assets		(36,010,778)	(36,877,837)
Reclassifications	8	(225,369)	(440,599)
Applied in settlement of notes payable	11	-	(1,410,000)
Balance at end of year		26,163,319	37,439,397
Allowance for impairment losses		(8,978,836)	(10,385,337)
Carrying amount		₱17,184,483	₱27,054,060

In 2024 and 2023, the Company sold foreclosed assets resulting to a net gain on disposal amounting to ₱17,870,956 and ₱33,433,387, respectively.

In 2023, foreclosed assets were applied in settlement of notes payable amounting to ₱1,410,000 (see Note 11).

The movements in allowance for impairment losses on foreclosed assets are as follows:

	2024	2023
Balance at beginning of year	₱10,385,337	₱11,414,815
Reversal	(1,406,501)	(1,029,478)
Balance at end of year	₱8,978,836	₱10,385,337

In 2024 and 2023, the Company was able to dispose previously been written down foreclosed assets. As a result, reversal of impairment loss was recognized amounting to ₱1,406,501 and ₱1,029,478 in 2024 and 2023, respectively.

7. Other Current Assets

This account consists of:

	Note	2024	2023
Security deposits	16	₱1,376,130	₱1,323,564
Others		636,775	754,708
		₱2,012,905	₱2,078,272

Security deposits are noninterest-bearing lease deposits for the Company's office to cover for any unpaid bills and damages to premises.

8. Property and Equipment

The details and movements of this account are as follows:

		2024				
	Note	Leasehold Improvements	Appraisal Equipment	Office Equipment	Furniture and Fixtures	Total
Cost

Carrying Amount		₱755,300	₱500,442

10. Accounts and Other Payables

This account consists of:

	Note	2024	2023
Accounts payable		₱1,655,522	₱1,965,354
Statutory payables		1,383,057	2,128,072
Accrued interest	11	1,096,667	9,699,733
Others		–	52,210
		₱4,135,246	₱13,845,369

Accounts and other payables are unsecured, noninterest-bearing, and due within one year.

In 2024, the Company reversed accrued interest on notes payable and accounts payable aggregating ₱6,515,874 as other income.

11. Notes Payable

The Company has various loans from related parties and third parties for working capital requirements with an original maturity of up to 180 days and which bear annual interest ranging from 8.00% to 12.00% in 2024 and 2023. The loans' maturity dates may be extended through mutual agreement between the Company and lenders.

Details of notes payable are as follows:

	Note	2024	2023
Related party	14	₱39,086,667	₱39,086,667
DOSRI	14	12,000,000	13,000,000
Third parties		9,000,000	12,000,000
		₱60,086,667	₱64,086,667

In 2023, foreclosed assets were applied in settlement of notes payable amounting to ₱1,410,000 (see Note 6).

Finance costs are recognized from the following:

	Note	2024	2023
Notes payable		₱5,280,933	₱6,257,863
Lease liability	16	1,427,877	1,758,699
		₱6,708,810	₱8,016,562

Accrued interest amounted to ₱1,096,667 and ₱9,699,733 as at December 31, 2024 and 2023, respectively (see Note 10).

Reconciliation of Liabilities Arising from Financing Activities

The table below details changes in the Company's liabilities arising from financing activities:

	2024			2023		
	Notes Payable*	Lease Liability (see Note 16)	Advances from a Related Party (see Note 14)	Notes Payable*	Lease Liability (see Note 16)	Advances from a Related Party (see Note 14)
Balances at beginning of year	₱73,786,400	₱14,831,995	₱2,839,769	₱90,159,467	₱17,670,519	₱2,839,769
Cash changes:						
Principal payments	(4,000,000)	(4,827,085)	(352,402)	(22,290,000)	(4,597,223)	–
Interest payments	(8,133,999)	–	–	(9,130,930)	–	–
Availments	–	–	–	10,200,000	–	–
Noncash changes:						
Write-off of interest	(5,750,000)	–	–	–	–	–
Interest expense	5,280,933	1,427,877	–	6,257,863	1,758,699	–
Applied against foreclosed assets	–	–	–	(1,410,000)	–	–
Balances at end of year	₱61,183,334	₱11,432,787	₱2,487,367	₱73,786,400	₱14,831,995	₱2,839,769

*Inclusive of accrued interest amounting to ₱1,096,667 and ₱9,699,733 as at December 31, 2024 and 2023, respectively.

Regulatory Requirement

Under Section 201-P, Maximum Borrowings, of Manual of Regulations for Non-Bank Financial Institutions (MORNBFII) - Pawnshop (P) Regulations of the BSP, the maximum borrowings of a pawnshop business, expressed as a percentage of total borrowings to pledge loans, shall not exceed 50.00%, provided, that borrowings shall not be from more than 19 creditors. Borrowings for purposes of acquiring fixed assets used for business operations shall not be included in the aforementioned limit.

As at December 31, 2024 and 2023, the Company's total borrowings exceeds 50.00% of the pledge loans. To address this, the Company plans to convert portion of its notes payable to preferred stock with a related party and the corresponding interest payable in 2025. Further, the management intends to continue its advertising and marketing efforts and to continuously look for opportunities to raise equity capital, which will be used largely for operations and pay-off of notes payable to various lenders.

12. Equity

Details of the Company's capital stock as at December 31, 2024 and 2023 are as follows:

	No. of Shares	Amount
Preferred Stock - ₱1 par value		
Authorized	250,000,000	₱250,000,000
Issued and Outstanding	233,492,081	₱233,492,081
Common Stock - ₱1 par value		
Authorized, Issued, and Outstanding	6,400,000	₱6,400,000

Preferred stock is non-cumulative, non-participating, non-voting, and non-redeemable. The holders of preferred shares have the option to convert one preferred share to one common share subject to the approval of the preferred shareholders representing the majority of the issued and outstanding preferred shares, provided that no conversion of preferred stocks will reduce the ownership of Filipino citizens to less than the required percentage of the capital as provided by existing laws.

13. Operating Expenses

This account consists of:

	Note	2024	2023
Personnel costs		₱20,109,301	₱18,918,841
Marketing		6,604,747	4,764,308
Depreciation and amortization	8	5,148,052	5,155,540
Taxes and licenses		4,525,498	5,657,505
Utilities		2,366,339	3,436,434
Information and technology		2,130,061	2,669,489
Professional fees		1,991,249	2,405,360
Association dues		1,089,480	1,089,480
Processing fees		926,391	1,407,536
Supplies		808,675	904,943
Insurance		727,519	675,745
Outside services		579,951	101,326
Repairs and maintenance		241,572	275,817
Others		1,970,674	6,519,993
		₱49,219,509	₱53,982,317

Other operating expenses consist of transportation and travel, representation, penalties, and other expenses.

Personnel costs consist of:

	Note	2024	2023
Salaries and other employee benefits		₱19,874,420	₱18,764,250
Retirement benefits	15	234,881	154,591
		₱20,109,301	₱18,918,841

14. Related Party Transactions and Balances

The following table summarizes the related party balances and transactions of the Company:

Nature of Relationship	Nature of Transaction	Amount of Transaction		Outstanding Balance	
		2024	2023	2024	2023
Notes Payable (see Note 11)					
Entity under common control	Working capital advances	₱-	₱-	₱39,086,667	₱39,086,667
DOSRI	Working capital advances	-	10,200,000	12,000,000	13,000,000
				₱51,086,667	₱52,086,667
Accrued Interest					
Entity under common control	Interest on notes payable	₱3,126,933	₱3,126,933	₱946,667	₱9,699,733
DOSRI	Interest on notes payable	1,084,300	1,280,580	-	-
				₱946,667	₱9,699,733
Advances from a Related Party					
Shareholder	Working capital advances	₱-	₱-	₱2,487,367	₱2,839,769
Personnel Costs					
Key management personnel	Short-term employee benefits	₱2,583,516	₱3,285,681	₱-	₱-
	Retirement benefits	78,563	50,776	166,524	166,524
				₱166,524	₱166,524

Notes payable to related parties are due within 180 days and bear annual interest at rates ranging from 8.00% to 12.00%.

Advances from a related party are unsecured, unimpaired, noninterest-bearing, generally settled in cash, and payable on demand.

Revenue Regulations No. 34-2020

In 2024 and 2023, the Company did not meet the criteria prescribed in RR No. 34-2020 to file and submit the Related Party Transaction Form or the BIR Form 1709 together with the Annual Income Tax Return. Accordingly, the Company is not also required to prepare and submit a transfer pricing documentation as prescribed in the said regulation.

15. Retirement Benefits

The Company has an unfunded, noncontributory, defined benefits retirement plan covering substantially all of its regular qualified employees. The retirement benefits are based on a certain percentage of the final monthly basic salary for every year of credited service of the employees. The benefit obligation under the defined benefit retirement plan is determined using the projected unit credit method. The benefits to be received by the employees under the Company's defined benefit retirement plan meet the minimum mandated benefit under R.A. No. 7641, *The Retirement Pay Law*. The latest actuarial valuation report of the Company was as at December 31, 2024.

The components of retirement benefits included under "Personnel costs" account in the statements of comprehensive income are as follows (see Note 13):

	2024	2023
Current service costs	₱182,045	₱116,936
Interest costs	52,836	37,655
	₱234,881	₱154,591

Movements of the retirement liability recognized in the statements of financial position are as follows:

	2024	2023
Balance at beginning of year	₱863,330	₱513,705
Retirement benefits	234,881	154,591
Remeasurement losses recognized in OCI:		
Experience adjustments	172,952	63,240
Changes in financial assumptions	2,652	131,794
Balance at end of year	₱1,273,815	₱863,330

The principal assumptions used to determine the retirement liability are as follows:

	2024	2023
Discount rate	6.11%	6.12%
Salary increase rate	5.00%	5.00%

Sensitivity analysis on the retirement liability is as follows:

	Change in Assumption	Effect on Retirement Liability	
		2024	2023
Discount rate	+1.00%	(₱1,118,897)	(₱752,175)
	-1.00%	1,455,992	994,791
Salary increase rate	+1.00%	₱1,437,321	₱998,212
	-1.00%	(1,133,150)	(747,584)

The sensitivity analysis above has been determined based in a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring as at the end of the reporting period.

Movements of the cumulative remeasurement gains on retirement liability are as follows:

	2024		Net
	Cumulative Remeasurement Gains	Deferred Tax Liability (see Note 17)	
Balance at beginning of year	₱209,515	(₱52,380)	₱157,135
Remeasurement losses	(175,604)	43,901	(131,703)
Balance at end of year	₱33,911	(₱8,479)	₱25,432

	2023		Net
	Cumulative Remeasurement Gains	Deferred Tax Liability (see Note 17)	
Balance at beginning of year	₱404,549	(₱101,138)	₱303,411
Remeasurement losses	(195,034)	48,758	(146,276)
Balance at end of year	₱209,515	(₱52,380)	₱157,135

The maturity analysis of the undiscounted benefit payments as at December 31, 2024 is as follows:

Less than one year	₱-
More than one year to 10 years	1,973,635
More than 10 years to less than 20 years	3,499,890
More than 20 years	6,975,165
	₱12,448,690

The average duration of the retirement liability is 17.31 years as at December 31, 2024.

16. Lease

The Company, as a lessee, has a lease agreement for its new office location. The lease agreement covers its office space, outlet, and warehouse for a term of five years renewable under such terms and conditions unless sooner terminated by the Company.

Security deposits related to the lease agreement amounted to ₱1,376,130 and ₱1,323,564 as at December 31, 2024 and 2023, respectively (see Note 7).

The balance and movements of the ROU asset are as follows:

	Note	2024	2023
Cost			
Balance at beginning and end of year		₱18,947,062	₱18,947,062
Accumulated Depreciation			
Balance at beginning of year		5,684,118	1,894,706
Depreciation	8	3,789,413	3,789,412
Balance at end of year		9,473,531	5,684,118
		₱9,473,531	₱13,262,944

The balance and movements of the lease liability are as follows:

	Note	2024	2023
Balance at beginning of year		₱14,831,995	₱17,670,519
Accretion of interest	11	1,427,877	1,758,699
Payments		(4,827,085)	(4,597,223)
Balance at end of year		₱11,432,787	₱14,831,995

Lease liability is classified in the statements of financial position as follows:

	2024	2023
Current	₱4,012,174	₱3,379,047
Noncurrent	7,420,613	11,452,948
	₱11,432,787	₱14,831,995

The total cash outflows for leases in 2024 and 2023 amounted to ₱4,827,085 and ₱4,597,223, respectively.

Future minimum lease payments over the remaining term of the leases as at December 31, 2024 are as follows:

Within one year	₱5,068,439
More than one year but less than five years	8,047,692
	₱13,116,131

17. Income Taxes

The Company's income tax expense consists of:

	Note	2024	2023
Reported in Profit or Loss			
Current - MCIT		₱940,991	₱913,050
Deferred		1,182,467	3,802,029
		₱2,123,458	₱4,715,079
Reported in OCI			
Deferred tax benefit on remeasurement losses on retirement liability	15	₱43,901	₱48,758

The components of the Company's net deferred tax assets are as follows:

	2024	2023
Deferred tax assets:		
NOLCO	₱8,126,900	₱9,603,543
Lease liability	2,858,197	3,707,999
Excess MCIT over RCIT	2,508,802	2,019,273
Allowance for impairment losses on foreclosed assets	2,244,709	2,596,334
Retirement liability	318,454	215,832
	16,057,062	18,142,981
Deferred tax liability - ROU asset	2,368,383	3,315,736
	₱13,688,679	₱14,827,245

Details of the Company's NOLCO as at December 31, 2024 are as follows:

Year Incurred	Amount	Applied	Ending Balance	Year of Expiration
2021	₱18,761,191	₱-	₱18,761,191	2026
2020	19,652,979	5,906,570	13,746,409	2025
	₱38,414,170	₱5,906,570	₱32,507,600	

In accordance with Revenue Regulations (RR) No. 25-2020 which implements R.A. No. 11494, "Bayanihan to Recover as One Act", net operating losses for taxable years 2020 and 2021 are allowed to be carried over for the next five consecutive taxable years immediately following the year of such loss.

Details of the Company's excess of MCIT over RCIT as at December 31, 2024 are as follows:

Year Incurred	Amount	Incurred	Expired	Ending Balance	Year of Expiration
2024	₱-	₱940,991	₱-	₱940,991	2027
2023	913,050	-	-	913,050	2026
2022	654,761	-	-	654,761	2025
2021	451,462	-	451,462	-	2024
	₱2,019,273	₱940,991	₱451,462	₱2,508,802	

The reconciliation between the income tax expense based on statutory income tax rate and as presented in the statements of comprehensive income is as follows:

	2024	2023
Income tax expense at statutory income tax rate	₱565,800	₱2,439,337
Increase (decrease) in income tax resulting from tax effects of:		
Nondeductible expenses	1,108,886	1,539,584
Expired excess MCIT over RCIT	451,462	738,331
Interest income already subjected to final tax	(2,690)	(2,173)
Income tax expense at effective income tax rates	₱2,123,458	₱4,715,079

18. Financial Risk Management Objectives and Policies

The Company's financial instruments consist of cash, loans and other receivables (except nonfinancial assets), security deposits, accounts and other payables (excluding statutory payables), notes payable, advances from a related party, and lease liability.

The main financial risks arising from the Company's use of financial instruments include credit risk, liquidity risk, and interest rate risk. The BOD regularly reviews and approves the appropriate policies for managing these financial risks, as summarized below.

Credit Risk

The Company's exposure to credit risk arises from the failure of its counterparty in fulfilling its financial commitments to the Company under the prevailing contractual terms. Financial instruments that potentially subject the Company to credit risk consist primarily of loans receivable and other financial assets at amortized cost.

Generally, the Company manages its credit risk mainly through the application of transaction limits and close risk monitoring. It is the Company's policy to enter into transactions with a wide diversity of creditworthy counterparties to mitigate any significant concentration of credit risk. Further, the Company has regular internal control reviews to monitor the granting of credit and management of credit exposures.

The carrying amounts of loans receivable and other financial assets at amortized cost represent the Company's maximum credit exposure.

The aging per class of financial assets are as follows:

	2024					Total
	Neither Past Due nor Impaired	Past Due but not Impaired				
		30 Days	31 - 60 Days	61 - 90 Days	91 - 120 Days	
Cash in banks and other cash items	₱14,087,875	₱-	₱-	₱-	₱-	₱14,087,875
Loans receivable	28,644,841	7,598,813	8,419,120	148,460	-	44,811,234
Other receivables*	5,803,793	-	-	-	-	5,803,793
Security deposits	1,376,130	-	-	-	-	1,376,130
	₱49,912,639	₱7,598,813	₱8,419,120	₱148,460	₱-	₱66,079,032

*Excluding nonfinancial assets amounting to ₱4,297,850 as at December 31, 2024.

	2023					Total
	Neither Past Due nor Impaired	Past Due but not Impaired				
		30 Days	31 - 60 Days	61 - 90 Days	91 - 120 Days	
Cash in banks and other cash items	₱16,671,872	₱-	₱-	₱-	₱-	₱16,671,872
Loans receivable	34,428,932	11,317,503	8,424,171	7,556	-	54,178,162
Other receivables	1,831,366	-	-	-	-	1,831,366
Security deposits	1,323,564	-	-	-	-	1,323,564
	₱54,255,734	₱11,317,503	₱8,424,171	₱7,556	₱-	₱74,004,964

For loans receivable, the Company limits its exposure to credit risk by transacting mainly with recognized and creditworthy borrowers that have undergone its credit evaluation and approval process. Loans are granted by the Company based on the creditworthiness and payment history of borrowers. In addition, the Company continuously monitors defaults of borrowers identified individually, and incorporate this information into its credit risk controls.

The Company holds collaterals against loans receivable in the form of pledge. The fair values of pawned items related to loans receivable are as follows:

	Carrying Amount of Loans Receivable	Fair Value of Pawned Items
2024	₱44,811,234	₱73,673,292
2023	₱54,178,162	₱88,799,990

For other financial assets at amortized cost, the Company limits its exposure to credit risk by depositing its cash only with banks that have good credit standing and reputation in the local and international banking industry. In addition, other receivables and security deposits have relatively low risk of defaults as these are transacted with counterparties that have good credit standing and relatively low risk of default.

It is the Company's policy to measure ECL on the above instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL.

The table below presents the summary of the Company's exposure to credit risk by indicating whether the financial assets are subjected to 12-month ECL or lifetime ECL.

2024				
Financial Assets at Amortized Cost				
	12-month ECL (Stage 1)	Lifetime ECL - Not Credit impaired (Stage 2)	Lifetime ECL - Credit Impaired (Stage 3)	Total
Cash in banks and other cash items	₱14,087,875	₱-	₱-	₱14,087,875
Loans receivable	36,243,654	8,567,580	-	44,811,234
Other receivables*	5,803,793	-	-	5,803,793
Security deposits	1,376,130	-	-	1,376,130
	₱57,511,452	₱8,567,580	₱-	₱66,079,032

*Excluding nonfinancial assets amounting to ₱4,297,850 as at December 31, 2024.

2023				
Financial Assets at Amortized Cost				
	12-month ECL (Stage 1)	Lifetime ECL - Not Credit impaired (Stage 2)	Lifetime ECL - Credit Impaired (Stage 3)	Total
Cash in banks and other cash items	₱16,671,872	₱-	₱-	₱16,671,872
Loans receivable	45,746,435	8,431,727	-	54,178,162
Other receivables	1,831,366	-	-	1,831,366
Security deposits	1,323,564	-	-	1,323,564
	₱65,573,237	₱8,431,727	₱-	₱74,004,964

The table below shows the credit quality of the Company's financial assets based on its historical experience with the corresponding counterparties.

2024				
	Grade A	Grade B	Grade C	Total
Cash in banks and other cash items	₱14,087,875	₱-	₱-	₱14,087,875
Loans receivable	-	44,811,234	-	44,811,234
Other receivables*	-	5,803,793	-	5,803,793
Security deposits	-	1,376,130	-	1,376,130
	₱14,087,875	₱51,991,157	₱-	₱66,079,032

*Excluding nonfinancial assets amounting to ₱4,297,850 as at December 31, 2024.

	2023			
	Grade A	Grade B	Grade C	Total
Cash in banks and other cash items	₱16,671,872	₱-	₱-	₱16,671,872
Loans receivable	-	54,178,162	-	54,178,162
Other receivables	-	1,831,366	-	1,831,366
Security deposits	-	1,323,564	-	1,323,564
	₱16,671,872	₱57,333,092	₱-	₱74,004,964

Grade A receivables pertain to those accounts from counterparties that always pay on time or even before the maturity date. Grade B includes accounts that are collected on their due dates provided that they were reminded or followed up by the Company. Those accounts which are collected consistently beyond their due dates and require persistent effort from the Company are included under Grade C.

Liquidity Risk

Liquidity risk arises from the possibility that the Company may encounter difficulties in raising adequate funds to meet its financial commitments at a reasonable cost. The Company's objectives in effectively managing its liquidity are: (a) to ensure that adequate funding is available at all times; (b) to meet the commitments as they arise without incurring unnecessary costs; and (c) to be able to access funding when needed at the least possible cost.

To manage this exposure and to ensure sufficient liquidity levels, the Company closely monitors its collections and expenditures by preparing cash position reports that present actual and projected cash flows for the subsequent month.

The table below presents the maturity profile of the financial liabilities of the Company based on remaining contractual undiscounted obligations or on the estimated timing of net cash flows:

	2024			
	On Demand	Due within One Year	Due beyond One Year	Total
Accounts and other payables*	₱-	₱2,752,189	₱-	₱2,752,189
Advances from a related party	2,487,367	-	-	2,487,367
Notes payable**	-	65,153,600	-	65,153,600
Lease liabilities	-	5,068,439	8,047,692	13,116,131
	₱2,487,367	₱72,974,228	₱8,047,692	₱83,509,287

	2023			
	On Demand	Due within One Year	Due beyond One Year	Total
Accounts and other payables*	₱-	₱11,717,297	₱-	₱11,717,297
Advances from a related party	2,839,769	-	-	2,839,769
Notes payable**	-	69,573,600	-	69,573,600
Lease liabilities	-	4,827,085	13,116,131	17,943,216
	₱2,839,769	₱86,117,982	₱13,116,131	₱102,073,882

*Excluding statutory payables amounting to ₱1,383,057 and ₱2,128,072 as at December 31, 2024 and 2023, respectively.

**Inclusive of future interest payments.

Interest Rate Risk

Interest rate risk arises from the possibility that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company follows a prudent policy on managing its financial assets and liabilities so as to ensure that exposures to fluctuations in interest rate are kept within acceptable limits.

The Company regularly monitors interest rate movements and on the basis of current and projected economic and monetary data, decides on the best alternative to take.

As at December 31, 2024 and 2023, all interest-bearing financial instruments of the Company have fixed-interest rates. Accordingly, the Company's exposure to interest rate risk is minimal.

Capital Management

The primary objective of the Company's capital management is to ensure that it complies with externally-imposed capital requirements. The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities.

Regulatory Qualifying Capital

On December 23, 2016, BSP issued Circular No. 938, Amendments to the MORNBF - P Regulations. Under Circular No. 938, virtual pawnshop operators shall have a minimum paid-in capital of ₱50.0 million.

As at December 31, 2024 and 2023, the Company has complied with the minimum paid-in capital of ₱50.0 million.

**“STATEMENT OF MANAGEMENT’S RESPONSIBILITY
FOR ANNUAL INCOME TAX RETURN”**

The management of **PawnHero Pawnshop Philippines Inc.** (the Company) is responsible for all information and representations contained in the Annual Income Tax Return as at December 31, 2024. Management is likewise responsible for all information and representations contained in the financial statements accompanying the Annual Income Tax Return covering the same reporting period. Furthermore, the management is responsible for all information and representations contained in all the other tax returns filed for the reporting period, including, but not limited, to the value added tax, withholding tax returns, documentary stamp tax returns, and any and all other tax returns.

In this regard, the management affirms that the attached audited financial statements as at and for the year ended December 31, 2024 and the accompanying Annual Income Tax Return are in accordance with the books and records of the Company complete and correct in all material respects. Management likewise affirms that:

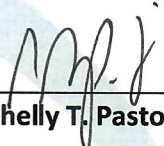

- (a) the Annual Income Tax Return has been prepared in accordance with the provisions of the National Internal Revenue Code, as amended, and pertinent tax regulations and other issuances of the Department of Finance and the Bureau of Internal Revenue;
- (b) any disparity of figures in the submitted reports arising from the preparation of financial statements pursuant to financial accounting standards (i.e. those applicable to Non-Publicly Accountable Entities) and the preparation of the income tax return pursuant to tax accounting rules has been reported as reconciling items and maintained in the Company’s books and records in accordance with the requirements of Revenue Regulations No. 8-2007 and other relevant issuances; and
- (c) the Company has filed all applicable tax returns, reports and statements required to be filed under Philippine tax laws for the reporting period, and all taxes and other impositions shown thereon to be due and payable have been paid for the reporting period, except those contested in good faith.
