DECISION

Pursuant to its Order of Remand in PERB Decision No. 144 (11/4/80), directing that evidence be taken on the status of "regular" and "contract" part-time teachers, the Public Employment Relations Board (hereafter Board) has received a stipulation signed by both parties purporting to exclude those classifications from the unit of part-time faculty. The stipulation defines "regular" and "contract part-time employees" as those "who, although teaching only part-time are, nevertheless, guaranteed a position in each term, i.e., they are tenured or tenure-track part-time

instructors." However, the parties aver that there are no incumbents in these positions presently.

In light of this fact, the Board declines to accept the stipulation excluding these potential employees. Instead, we hereby amend the Order of PERB Decision No. 144 to reflect approval of the unit of certificated employees including part-time employees in classifications currently filled with incumbents of the District. The propriety of including or excluding "regular" or "contract" instructors is deferred to such time as such employees may be employed by the District and the question is raised by an appropriate petition.

ORDER

Upon the foregoing Decision, including PERB Decision and Order for Remand No. 144, and the entire record in this case, the Public Employment Relations Board ORDERS that:

A unit consisting of all part-time certificated employees in classifications currently filled with incumbents of the Mendocino Community College District, excluding those who are managerial, supervisory, or confidential employees is appropriate for negotiating in the Mendocino Community College District provided that an employee organization becomes the exclusive representative.
