THE NORTHWEST SEAPORT ALLIANCE
Request for Qualifications (RFQ) # 071873
Washington United Terminal Shore Power

The Northwest Seaport Alliance (NWSA) is soliciting Statements of Qualification (SOQ) from highly qualified firms interested in providing engineering, design (including preliminary design, plans, specifications, and cost estimating), permitting, bidding and construction support services for the installation of shore power systems at the Washington United Terminal. **The Port may apply for federal funding for various phases of the Washington United Terminal Shore Power. Therefore, the contract that results from the RFQ and various work packages will be subject to the Federal Terms and Conditions of each grant. See “Attachment D” for the generic Federal Terms and Conditions, which may be updated per each grant.**

A. BACKGROUND

The NWSA is an operating partnership of the ports of Seattle and Tacoma. Combined, the ports are the fourth-largest container gateway in the U.S. Regional marine cargo facilities also are a major center for bulk, breakbulk, project/heavy-lift cargoes, automobiles and trucks.

The NWSA is governed by the two ports as equal Managing Members, with each Managing Member consisting of the five commissioners in each port. Each port's commissioners are elected at large by the citizens of their respective counties.

As part of the Northwest Ports Clean Air Strategy, the NWSA embraced an aspirational goal to install shore power at its major international container terminals. Based on commercial criteria and potential emission reductions, the Washington United Terminal (WUT) is the next terminal in line for shore power after T-5, Husky, and T-18.

The Washington United Terminal wharf was originally constructed in 1997 with an extension constructed in 2009. As part of the extension in 2009, 15KV switchgear at Substation #4 as well as conduit and a connection vault on the pier extension were installed with future ship to shore capabilities in mind.

The first phase of this project would be to develop a basis of design and cost estimate for a shore power system for two vessel berths at Washington United Terminal. Developing a basis of design will provide a complete understanding of the scope and cost of the project, which will be critical for future grant applications and incorporating the project into the CIP in future years.

Subsequent phases would develop the project through primary design and into construction.

To learn more about The Northwest Seaport Alliance, visit www.nwseaportalliance.com.

The NWSA anticipates awarding (1) professional service agreement for providing engineering design services in support of the construction and installation of ship-to-shore power capabilities for the Washington United Terminal. The selection will be based on the most qualified team that includes all key members whether from the prime consultant firm or subconsultants for all necessary project services and enter into negotiations with the intent to issue a

professional service contract based upon the information provided herein. Following successful negotiation of rates and fees, the NWSA will execute the contract for the duration of the project.

Attachment A to the RFQ contains the Instructions and Information for responding to the solicitation.

The NWSA Standard Terms and Conditions are included as Attachment B to this solicitation. By submitting an SOQ, the Consultant represents that it has carefully read and agrees to be bound by the NWSA Standard Terms and Conditions. Identify during the question submittal and response period, any sections you consider onerous, clarify why you consider these sections onerous, propose alternative language, and describe why it is in the NWSA's best interests to adopt the alternative language. Taking exceptions to these terms and conditions or conditioning your proposal on terms and conditions other than the NWSA will render your proposal non-responsive.

Federal grant requirements are attached as ATTACHMENT C.

EPA general terms and conditions are attached as ATTACHMENT D.

* By submitting an SOQ, the Consultant represents that it has carefully read all attachments. As applicable, proposers shall identify propose alternate wording, if any, to these documents as an appendix to their submitted proposal.

In the event that the Consultant does not respond within the appropriate time with a corrective action plan, the Port will provide the Consultant with a written Show Cause Notice; notifying the Consultant of their requirement to notify the Port in writing within seven (7) calendar days of any reason the Port should not terminate this Agreement. At the expiration of the seven (7) calendar day period the Port may commence termination

 - iii. No increase in total price or period of performance shall result from breach of this Agreement; and
 - iv. Nothing herein shall be deemed to affect or waive any other rights of the Port.

- i. If the Port terminates this Agreement for default, the Port shall determine the amount of Services satisfactorily performed to the date of termination and the amount owing to the Consultant using the criteria set forth below; provided, that (a) no amount shall be allowed for anticipated profit on unperformed Services or other work and (b) any payment due to the Consultant at the time of termination may be adjusted to the extent of any additional costs the Port incurs because of the Consultant's default. In such event, the Port shall consider the actual costs incurred by the Consultant in performing this Agreement to the date of termination, the amount of Services originally required which was satisfactorily completed to the date of termination, whether the Services are in a form or of a type which is usable and suitable to the Port at the

date of termination, the cost to the Port of completing the Services itself or of employing another firm to complete it and the inconvenience and time which may be required to do so, and other factors which affect the value to the Port of the Services performed to the date of termination. Under no circumstances shall payments made under this provision exceed the Total Price set forth in this Agreement. This provision shall not preclude the Port from filing claims and/or commencing litigation to secure compensation for damages incurred beyond that covered by withheld payments.

- ii. Upon receipt of a termination notice the Consultant shall at no additional cost to the Port:
 - 1. Promptly discontinue all Services (unless the notice directs otherwise);
 - 2.
