#	Question	Answer	Question #
1	Will you release the levels claimed on each Performance Indicator? These scores are due to Green Marine by March 15. The amount of work involved in doing the verification can vary, depending on what levels the NWSA is claiming.	Yes they will be released by March 15, 2023	Q-001542
2	Also, on page 12 of the document there is a note for item #1 so I am not sure if that is supposed to say something else.	Please see addendum 01	Q-001542
3	Can you make the templates available in Word.	No	Q-001542
4	What investigative services are required and quantity for the project	<p>The NWSA is seeking the services of a certified Green Marine verifier to conduct an external verification of our 2022 Green Marine self-evaluation performance. The verifier will examine the NWSA's self-assessment and supporting documentation to ensure it meets the requirements of the Green Marine program criteria. The selected verifier must have proof of completed annual Green Marine verification.</p> <p>A more thorough overview of the Green Marine program details and member certification process can be found here: Certification Green Marine (green-marine.org)</p>	Email
5	There is a requirement for a redacted submission as well, taking out all reference to the company name. Should we eliminate the cover letter and resume? Should the redacted submission just include the qualifications and experience section? Also, should I remove my company name that portion (which includes qualifications and experience).	Please submit unredacted copies. Go off of the RFP document for submittal purposes.	Q-001582
