#	Question	Answer	Question #
1	Other than the firm's business license, what other licenses or certifications is the Port looking for?	Please provide business license(s) for each firm proposed and any applicable certificates	Email
2	Does the port require any survey data (bathymetry/topography) to be collected as part of this scope of work?	No, we have recent bathymetric survey and we do not need to survey the items to be removed.	3672
3	We assume business certificates can be included in the Appendix; is this assumption correct?	Yes	3672
4	The standard T&C's do not specify a Limitation of Liability. Would the Port be open to agreeing one?	No	3672
5	Does the Port allow Umbrella insurance coverage so that required limits can be met?	As long as the coverage drops down to provide the required limits, an Umbrella is acceptable to the Port	3672
6	In response to 1. Qualifications & Experience item c) Include a list of three (3) recent non-Port contracts/projects: We interpreted this as not providing Port of Tacoma projects for these 3, but other Port work is acceptable. Would you please clarify?	Do not use Port projects as reference to this RFQ. Tell us what you have done on other similar projects elsewhere.	3676
