The methodology being utilized includes unit quantities that will be applied to the Schedule of Unit Prices supplied by the Bidder. After the bid opening, the Port will verify mathematical accuracy with respect to the extensions of unit bid prices and the total bid price. On the contrary, the actual work provided under this Contract (if any) may vary substantially from the unit quantities assigned by the Port for purposes of determining the basis of award, and the winning Bidder shall not be entitled to any adjustment in its unit prices as a result of any variation, no matter how significant, between actual unit quantities and those used for purposes of determining the basis of award.
