1 Project and Report Information

This Phase 1 Environmental Assessment Report (Report) describes the methods and findings of a Phase 1 Environmental Site Assessment (Phase 1) conducted by Anchor QEA, LLC, on behalf of the Port of Tacoma (Port). The subject property (Property) is a 0.95-acre property located in Tacoma, Washington, at 426 East 11th Street in Tacoma. The Property is shown in Figure 1 and is described further in Section 2.

1.1 Client Information

Anchor QEA conducted this Phase 1 under contract with the Port. The Port is considered the User, as defined by ASTM International (ASTM) Standards 1527-21.

1.2 Report Purpose

Anchor QEA conducted a Phase 1 of the Property to support the Port's due diligence for acquisition of the Property. The Port intends to acquire the Property as a bona fide prospective purchaser. Acquisition of the Property is proposed in parallel with the Port's ongoing area-wide master planning effort for properties surrounding the Wheeler Osgood Waterway, including, but not limited to, the Port's Parcel 94 and 92 properties located south and west of the Property.

The purpose of the Phase 1 is to review the Property history and available information to identify potential Recognized Environmental Conditions (RECs). An REC is a finding indicating that contamination from hazardous substances or petroleum products may exist on the subject Property either from past or present use of the subject Property or nearby properties. The Phase 1 is the first step in the environmental due diligence process.

This Phase 1 was conducted in coordination with a Phase 2 Environmental Assessment (Phase 2) of the Property. That Phase 2 conducted soil and groundwater testing to assess whether any of the RECs identified in this Report has resulted in confirmed soil or groundwater contamination at the Property. Findings of the Phase 2 are discussed in Section 7.2 of this Report.

1.3 Scope of Work

The Phase 1 was performed in accordance with 40 Code of Federal Regulations (CFR) Part 312, "Innocent Landowners, Standards for Conducting All Appropriate Inquiries," using the methods described in ASTM standard E1527-21.

The scope of the Phase 1 included the following:

- Site reconnaissance, including visual on-site inspection of the Property
- An interview with Kristina Younger, a representative of the current owner of the Property

- A review of historical maps, aerial photographs, historical photographs, and other historical records
- A review of federal, state, and Tribal environmental records concerning waste management practices, underground storage tank (UST) records, and/or documentation of historical releases at the Property
- Identification of other commonly known or reasonably ascertainable information about the Property
- An evaluation of potential RECs
- Where RECs were identified, these were evaluated as part of the parallel Phase 2, the findings of which are discussed in this Report

The Phase 1 Work Plan is attached as Appendix A. Anchor QEA has prepared this Report using information that is reasonably ascertainable; that is, information that is practically reviewable, publicly available, and obtainable from its source within reasonable time and cost constraints. This Report conforms to the requirements of ASTM E1527-21.

Phase 2 findings are summarized in this Report. Refer to the Phase 2 report (Anchor QEA 2023a) for more detailed information regarding that work. No other business environmental risk issues (non-ASTM method issues such as asbestos, lead paint, wetlands, indoor air quality) were addressed during this study.

1.4 User-Imposed Limitations

The User did not impose limitations on Anchor QEA that affected our ability to complete this Phase 1.

2 Property Information and Physical Setting

This section describes the Property and its physical setting and available information about groundwater and local soils.

2.1 Property Description

Tax lot information was obtained from the Pierce County tax assessor's office. That information was obtained at https://snohomishcountywa.gov/5167/Assessor. This information was accessed on September 1, 2023.

Property Address:	426 East 11th Street (the Property is accessed from East 11th Place, which parallels East 11th street)
Tax Lots and Reported Size:	Pierce County Parcel Numbers: 895000-1100 (0.67 acres) and 895000-1110 (0.27 acres)
Township, Range, and Section:	Township 29 North, Range 03 East, Section 04, Northwest Quarter
Current Use:	Industrial

A site vicinity map is included as Figure 1 and the current conditions of the Property and vicinity are shown in the photograph on the cover of this Report.

2.2 Owner and Current Site Use

The current owner and manager of the Property is 426 East 11th Street LLC.

Since approximately 2007 the Property has been used for storage of vehicles and heavy equipment by industrial tenants. As described in Sections 4 and 6, the Property has been used most recently by Ness Crane and Equipment and NTR Logistics. The current tenant is Ness Crane, which uses it for storage of mobile cranes and vehicles.

2.3 Topography and Site Features

The Property is located in the Tacoma Tideflats Industrial Area of Tacoma. A limited survey was conducted of the Phase 2 soil and groundwater testing locations (Anchor QEA 2023b). That survey showed an average ground surface elevation of 19 feet above mean lower low water at the six text locations (Figure 1).

The Property is vacant except for a chain-link fence surrounding the Property. There are no structures or stormwater catch basins on the Property.

A marked underground petroleum pipeline operated by the Olympic Pipeline Company is located in the right-of-way in front of the Property (along East 11th Place).

2.4 Groundwater Well/Borehole Records

The Washington State Department of Ecology's (Ecology's) well-query online log database provides logs for water wells, monitoring wells, and geotechnical borings, along with decommissioned well reports and other records. This database was reviewed by Anchor QEA in July 2023.

The Property is reportedly served by municipal water from the City of Tacoma (City). No wells were identified on the Property. However, one deep water supply well was located on the adjacent Parcel 94 property to the south.

There Parcel 94 water supply well is reportedly 640 feet deep and is located in the central southern portion of Parcel 94. The well completion log (attached in Appendix F) indicates that it was installed in April of 1941 on behalf of Northwest Door Company. A stratigraphic log indicates the borehole was advanced through approximately 186 feet of alluvial deposits, 392 feet of "hardpan" (assumed to be glacial deposits), 34 feet of a water-bearing coarse sand and gravel, and 28 feet of finer clay and sand mixtures. The well includes a 12-inch casing from 0 to 157 feet, a 10-inch casing from 157 to 285 feet, and an 8-inch casing from 285 to 620 feet (perforated between 580 and 600 feet) and a "9-inch diameter open hole" boring from 620 to 640 feet. The well completion log indicates that the well is artesian and capable of producing in excess of 300 gallons per minute.

As part of the Phase 2 completed on the Property in parallel with this Report, six temporary soil borings were drilled and sampled. The boring logs from those temporary borings are included in Appendix. F. Observations from the borings are described in Section 2.5 below.

Based on topography and the findings of hydrogeologic studies at adjacent properties (Section 2.5), the direction of groundwater flow is expected to be generally west and southwest towards the Foss Waterway. Groundwater elevations at the Property are described in Section 2.5 below.

2.5 Soils and Geology

The Property is situated in the Commencement Bay Tideflats area. Native stratigraphy in this area is heavily influenced by the Puyallup River delta and consists of variable layers of alluvial silt, sand, and clay deposits overlying older glacial deposits.

With the dredging and creation of the Foss Waterway in the early 1900s, dredged material was placed behind bulkheads along the shore of Parcel 94, creating a fill layer at the surface consisting primarily of fine to medium sand and silty sand with occasional shell debris. The 1877 shoreline as

shown on Figure 2 illustrates the approximate location of the pre-development shoreline, prior to placement of hydraulic fill from waterway development.

Geologic and hydrogeologic conditions in the adjacent Parcel 94 property were initially assessed as part of the 2005 Landau Phase 2 site assessment performed on behalf of the Port. That work included drilling 16 temporary soil borings using a direct-push drill rig. The borings were installed to depths between 8 and 12 feet below ground surface (bgs).

Soil conditions encountered in most areas of Parcel 94 included sandy hydraulic fill with occasional non-indigenous anthropogenic debris. The debris was most abundant in the southeastern corner of Parcel 94, the area that was filled and developed early, prior to hydraulic fill placed in the early 1900s. In that area the debris included fragments of glass, brick, ceramic and metal. A deeper soil horizon consisting of silty native soils was encountered at varying depths from approximately 4 feet to greater than 12 feet below ground surface. This silty soil layer represented the pre-development tideflat deposit.

Groundwater was encountered during Parcel 94 drilling activities in the hydraulic fill layer located above the native tideflat deposit. The depths to water averaged 8 to 10 feet bgs, but groundwater was present at shallower depths in some areas of Parcel 94. These shallower groundwater areas indicated the presence of perched water in some areas where the silty tideflat deposit was shallower.

No permanent shallow wells have been installed at Parcel 94. However, groundwater studies are available from environmental testing performed during cleanup of the adjacent Petrich property located further west (Pacific Crest 2016). Those studies identified similar stratigraphy as at Parcel 94, with sandy hydraulic fill soils overlying native sediments with a similar silt layer at the interface between fill and native soils. Shallow groundwater in permanent wells at the Petrich property range in depths from 6 to 12 feet bgs with groundwater flowing west, towards the Foss Waterway.

Based on the existing studies described above, it is generally expected that groundwater flows to the west or west-southwest toward the Foss Waterway. Groundwater elevations are expected to be subject to both seasonal and tidal influences, with tidal influences greatest within 100 to 200 feet of the shoreline.

The findings of the Phase 2 on the Property and parallel work performed within Parcel 94 were consistent with these geologic and hydrogeologic observations as developed from the prior studies described above. Sandy hydraulic fill soils were present throughout the Property. The elevations at which the underlying native tideflat was encountered are shown in Figure 2. Anthropogenic debris was limited in the fill material, consisting of scattered historical debris (nails, brackets, ceramics) at the interface between the hydraulic fill and the native tideflat layer. Groundwater was present within the hydraulic fill material.

3 Regulatory Records Review

This section summarizes available records for the Property and vicinity.

3.1 Governmental Record Sources

Governmental records for the Property were obtained through public sources as described below:

- **Ecology Online Records:** Available online records from Ecology were searched, including the following:
  - **What's in My Neighborhood:** Ecology maintains an online, searchable database of properties with recognized environmental contamination concerns or environmental compliance obligations. The database is accessible at the following internet address: https://apps.ecology.wa.gov/neighborhood/. The database did not list any records for the Property or the properties in the vicinity.
  - **Groundwater Well Database:** As described in Section 2.4, groundwater well records in the vicinity were reviewed using Ecology's online database. Refer to that section of this Report for additional information.
  - **Regulated UST Database:** As described in Section 3.2, UST records in the vicinity were reviewed using Ecology's online database. Refer to that section of the Report for additional information.
- **Port-Provided Records:** The Port provided the following records for the Property:
  - Preliminary title report for the Property (Appendix G)
  - Property survey from 2007 including Parcel 94 and vicinity
- **Pierce County Records:** Snohomish County records were accessed to document the Property location and land use as described in Section 2.1.
- **U.S. Environmental Protection Agency (EPA) UST Finder Database:** The EPA UST Finder database was accessed to document the status of USTs on or near the Property. Findings are discussed further in Section 3.2.

3.2 Environmental Database Search

A search of EPA and state database listings was performed by a commercial database search provider (EnviroSite; a copy of the database search report is included in Appendix H). The purpose of that search was to identify potential, suspected, or known sources of contamination on or in the vicinity of the Property. Various agency listings were searched for different approximate minimum search distances from the subject Property as established in the ASTM method. Listings included publicly available databases of environmental liens, activity and use limitations, and easements and equitable servitudes, if recorded or filed.

The Property is not listed as a contaminated site in the database search results. However, a release report from June 2018 was noted. That report referenced the dumping of oil and other materials (waste oil and potentially glycerin) in the rear of the Property by NTR Logistics. No follow-up actions were described.

The regulatory database report contained in Appendix H lists references to nearby properties within a mile of the Property. None of these properties appear likely to have affected environmental conditions at the Property. The closest database listings, those within a half a mile, are summarized below:

- **Commencement Bay Nearshore Tideflats Site:** The Foss and Wheeler Osgood waterways are part of the Commencement Bay Nearshore Tideflats Superfund site.
  - Post-remediation monitoring was completed in 2008 for the Foss and Wheeler Osgood Waterways, and no requirements for further action were defined. The City remains the lead party for ongoing monitoring activities within the two waterways.
  - Cleanup of the Foss and Wheeler Osgood waterways was completed in 2006. This work was led by the City of Tacoma (City) under a 2003 Consent Decree (CD C03-5117RJB).
  - The Port contributed to that work through a cash and real estate settlement with the City. The Port's involvement in the Foss waterway cleanup was related to its ownership of a different property located toward the head of the Foss, not anything to do with the Property.
  - The Property in not part of any Superfund-related action areas, nor was it identified in any of the related source control work led by Ecology and EPA.
- **Tacoma Marine Repair (1106 St. Paul Ave):** This adjacent, upgradient property was operated as a service station from some time in the 1950s. The database search showed that five underground storage tanks dating from the 1950s and 1960s have were closed in place. The tanks included leaded gasoline, diesel and waste oil.
- **Woodworth Turck Yard (1114 St. Paul Ave):** This site is located immediately south of the former service station (Figure 1) on St. Paul Avenue. The site was initially part of the Wheeler Osgood Sash and Door operations and has been used as a truck shop. The site underwent a cleanup related to underground petroleum storage tanks. The site was granted a No Further Action letter by Ecology. The site is located approximately 100 feet southeast of the Property, in a cross-gradient direction.
- **Parcel 94 / Former Wattles Company:** The Parcel 94 property is owned by the Port. It is located in an adjacent and downgradient location to the Property.
  - Parcel 94 is not currently listed as a contaminated site by Ecology.
  - In-water areas of the Wheeler Osgood Waterway within the property boundary were part of the active cleanup of the Foss and Wheeler Osgood waterways (see above). The

former property owner (Wattles Company) entered into a settlement for cleanup of the Foss and Wheeler Osgood waterways related to its ownership of portions of the Wheeler Osgood waterway.

  - Source control activities were performed in the 1990s to remove soil contamination from a sump located in the upland areas of the property. That work was performed under Agreed address Order numbers DE93TC-S318 and DE93TC-S317 by the property owner (Wattles Company) and a former tenant (Western Steel Fabricators). That cleanup work was determined to be complete by Ecology.
  - Some soil and groundwater contamination was recently identified at Parcel 94 in baseline studies performed on behalf of the Port (Anchor QEA, 2023b). As Parcel 94 is located downgradient from the Property and no groundwater contamination was defined in adjacent areas of Parcel 94, there is no reason to believe that conditions at Parcel 94 affected soil or groundwater quality on the Property.

- **Petrich Marine Dock (1118 to 1120 East D Street):** This site underwent cleanup to address areas of contamination with heavy metals, chlorinated solvents, carcinogenic PAHs (cPAHs) and petroleum contamination associated with historical manufacturing and industrial operations. Cleanup work included source removals, capping, institutional controls and natural attenuation. A No Further Action letter was issued in June of 2019 by Ecology. The site is located approximately 400 feet downgradient from the Property.
- **Woodworth Heavy Duty Shop (1200 East D Street):** This nearby site underwent a cleanup related to underground petroleum storage tanks. The site has received a No Further Action letter. The site is located immediately south of the Petrich Property, about 400 feet west (downgradient) of the Property.
- **Tacoma Fire Station No. 6:** The Tacoma Fire Station 6 property is listed as a cleanup site with Ecology for contamination relating to underground diesel storage tanks. The site received a No Further Action letter. It is located approximately 300 feet to the north, on the other side of the 11th Street bridge.
- **East F Street Substation:** The F-street substation is listed as a contaminated site with Ecology due to the presence of petroleum, solvent, heavy metals and PAH contamination. The substation is located approximately 300 feet to the north, on the other side of the 11th Street bridge. The Site is managed by Tacoma Power and is awaiting cleanup.
- **Gulf Marine Inc:** The Gulf Marine site underwent cleanup related to underground gasoline storage tanks. The site received a No Further Action letter from Ecology. The site is located approximately 300 feet to the north, on the other side of the 11th Street bridge.
- **Olympic Chemical Corp:** The Olympic Chemical site includes an above-ground tank farm for petroleum hydrocarbons. The site underwent cleanup associated with soil and groundwater petroleum contamination. Arsenic contamination was also detected. Past cleanup actions

included operation of a product recovery trench, containment and groundwater monitoring. Ecology conducted a site hazard assessment in 2009.

4 Historical Records Review

This section provides a listing of historical records reviewed for the Property and includes a concise summary of the Property history.

4.1 Historical Sources Reviewed

Historical records reviewed as part of this Report are attached as appendices. These include standard historical records sources (historical maps and aerial photographs), other historical photographs, searches of historical City directories, results of a title search, and information developed through interviews (see Section 6).

No data failures were encountered. The historical objectives in ASTM E1527-21 were achieved.

4.2 Previous Environmental Assessments

No previous Phase 1 or Phase 2 ESAs were identified for the Property.

Environmental testing reports were identified for the adjacent Parcel 94 property and for the Petrich property located farther to the west. These reports provided useful information regarding soil and groundwater conditions in the vicinity (Sections 2.4 and 2.5), but did not contain any environmental data for the Property.

4.3 Summary of Property History

The history of Property and vicinity have been documented in historical photographs (Appendices B and C), historical maps (Appendix D), historical city directories (Appendix E), and interviews with the current owner (Section 6 and Appendix I)

4.3.1 History of the Property

Prior to settlement of the Pacific Northwest, the Property was located near the mouth of the Puyallup River in an area heavily used by the Puyallup Tribe. The southern branch of the river flowed through what is now the Wheeler Osgood Waterway into what is now the Foss Waterway.

The Property and most of the adjacent Parcel 94 property (currently owned by the Port of Tacoma) consisted originally of intertidal or shallow subtidal tideflat areas. To the south and east of the Property was a former island that is colloquially referred to as “the Boot” for its characteristic boot shape (see Figure 2; also the 1877 map of the Tacoma tideflats in Appendix D).

The Northern Pacific Railroad established a rail line between Tacoma and the Puyallup and Sumner areas in 1873. That rail line crossed over the Foss Waterway to the south of what is now the Wheeler Osgood Waterway. Other than the rail line, the tideflats in the vicinity of the Property remained

vacant through the mid-1880s. An 1880 photograph of the Property and vicinity is included in Appendix B.

The Foss Waterway (formerly City Waterway) was dredged initially by the Tacoma Land Company in 1889 (Morgan 1982). Placement locations for the dredge materials are not well documented. A larger dredging event was conducted between 1902 and 1905 (PRWC 2014). During this later dredging event, wooden bulkheads were constructed along the sides of the Foss and Wheeler Osgood Waterways. Hydraulic fill from waterway dredging activities was placed throughout the undeveloped portions of the area to create upland for future development. The Property, most of Parcel 94 and the other properties in the vicinity were filled to roughly their current grades during this second larger dredging event.

The condition of the Property and vicinity after completion of the hydraulic fill activity is visible in the photograph from 1910 in Appendix C and in historical maps from 1912 and 1926 in Appendix D.

The first recorded development of the Property was in approximately 1910. Buildings constructed on the site included small shops, tool sheds, and a larger two-story wooden building located in the northeastern corner of the Property. These buildings were initially constructed for the Richardson & Elmer Lumber Company, a manufacturer of sashes, doors, and lumber. The buildings were listed on a historical Sanborn map as vacant in 1912. The buildings were listed on a 1926 map as being occupied in 1926 by the City Millwork Company. The building is visible in a historical photo from 1927 (Appendix C) and an aerial photograph from 1931.

The Property was acquired by affiliates of the current owners in 1936 (Section 6). Hampton Lumber Company established a lumber storage yard on the Property in 1938. In 1941 a new wood-framed, two-story industrial building was constructed in 1941, occupying the eastern two-thirds of the Property's northern tax parcel. An aerial photograph from 1941 is included in Appendix B showing the original Hampton Lumber Company building footprint.

The Hampton Lumber Company building was expanded in 1948 to the west, butting up against E Street. A 1948 photograph (Appendix C) and an aerial photograph from 1957 shows the built-out condition of the Hampton Lumber Company building. The building was used by the Hampton Lumber Company as a retail warehouse for lumber products until it was destroyed by fire in November of 1965 (Section 6). Hampton moved its operations following the fire.

Other than a perimeter fence, no structures have been constructed on the Property since 1965. Aerial photographs between 1968 and 1990 (Appendix B) show the Property being used for lumber storage. Interviews with the Property owner indicated that the Property was used for storage of finished lumber for the adjacent Wattles Company and for Lindal Cedar Homes during 1980s and 1990s. The Property owner also recalled that the Wattles Company conducted wood treating (most

likely the application of sap stain preventative) of finished lumber in the northern portion of Parcel 94, near the Property (Section 6).

The Property appeared vacant in an aerial photograph from 2006. Aerial photographs from 2009 through 2019 show the Property used for vehicle and heavy equipment storage. Interviews with the Property owner indicated that the Property was leased to Ness Campbell Cranes and later to NTR Logistics for equipment and vehicle storage.

NTR Logistics was an over-size freight hauler specializing in the hauling of wind turbines and large equipment. NTR Logistics relocated operations to other Port-owned property along Port of Tacoma Road in 2018 (Section 6). As noted in Section 3.2, there was a release report to Ecology relating to discharges by NTR Logistics of waste oil and/or glycerin on the Property in June 2018. No follow-up actions were reported.

4.3.2 History of Adjacent Properties

In 1888, a large lumber mill was constructed to the northeast of the Property on portions of "the Boot" (Morgan 1982). The mill was operated as the St. Paul and Tacoma Lumber Company, an affiliate of the Northern Pacific Railroad.

In 1889, the Wheeler Osgood lumber mill and sash and door factory was founded (Morgan 1982). The mill made wooden sashes, windows, and doors and became a significant business and local employer over the next several decades (McClary 2009). It was constructed to the east and southeast of the Property on the "heel of the Boot." Photographs from 1894 (Appendix C) and maps from 1896 (Appendix D) document the early mill features. Most of the mill was located to the east of F Street, but a number of small lumber sheds were constructed on the southeastern corner of Parcel 94 in the 1890s. The mill was destroyed by fire in 1902 and promptly rebuilt.

When the Foss Waterway was dredged in the early 1900s, both Parcel 94 and the properties in the vicinity were bulkheaded and filled with hydraulic dredge materials from the waterway. The northern portion of Parcel 94 (between D Street and F Street) was then developed. A three-story industrial building was constructed just west of the Property housing the operations of the Washington Parlor Furniture Company. Operations immediately south of that included the Tacoma Wood Pipe Company and the Noll Welty Lumber Company. The Washington Parlor Furniture Company remained active through 1926, but by then the operations to the south were replaced by the Pacific Lumber and Millwork Company (see 1926 map in Appendix D).

The properties to the northwest of Parcel 94 were initially developed for industrial uses during this same time period. The Petrich property was initially developed for use by the Vermont Marble Company (see 1912 and 1926 maps in Appendix D). The Woodworth property was used initially for

operation of the Peters Sand & Gravel Company (see 1926 map in Appendix D). The southern portion of Parcel 94 remained largely vacant until the 1940s.

In the 1940s, Parcel 94 was developed for manufacturing of plywood veneer by the Northwest Door Company. The north-central portion (just south of 11th street) was used for planing operations. The three-story industrial building formerly used for furniture manufacturing remained present, but other buildings had been constructed to enclose virtually all of the Property between D Street and E Street to the south. The western portion of Parcel 94 was used for wood chip (also known as "hog fuel") storage and barge loading, and a log dump was located along the shoreline of the Wheeler Osgood Waterway.

Between the 1920s and the 1950s, the eastern portion of Parcel 94 (between E Street and F Street) continued to be used by the Wheeler Osgood sash and door operations (see 1948 photo in Appendix C and the 1950 map in Appendix D). Lumber sheds and planing operations were located in the southeastern portion of Parcel 94. The areas to the north were used for other mill support operations including a machine shop and lumber storage. One building in this area (Figure 2) was variously described as a garage (1926 map in Appendix D) or a pipe and electric shop (1950 map in Appendix D).

By the 1950s the properties located northwest of Parcel 94 had been fully developed for industrial use. During 1950 (1950 map in Appendix D) the Petrich property was occupied by the Western Boat Building Company, and later in 1965 by Marine Iron Works, Inc. (1965 map in Appendix D). The Woodworth property, initially used for operation of the Peters Sand & Gravel Company (1926 map in Appendix D), had been converted to the Woodworth Company asphalt plant (1950 and 1965 maps in Appendix D).

By 1950 a gasoline service station was constructed to the northeast of the Property, at the intersection of East F Street and St. Paul Avenue (1950 map in Appendix D). Maps from 1965 show a new service station building on the same property. That building is visible in aerial photographs from at least 1957 (Appendix B) and remains present on that property. The former service station is currently occupied by Tacoma Marine Repair, a boat repair company.

Wheeler Osgood mill operations reportedly terminated in 1951 (McClary 2009). The main Wheeler Osgood mill east of F Street was destroyed by a large fire on July 18, 1959, but the fire did not appear to have affected the Parcel 94 property.

By 1965, the Northwest Door Company had been acquired by the St Regis Paper Company (1965 map in Appendix D) and had expanded operations throughout Parcel 94, including the area between E Street and F Street (the area formerly occupied by Wheeler Osgood support operations). The western portion of Parcel 94 remained used for hog fuel storage, but a small office building, still

present today, had been constructed there by 1968. The buildings in the central portion of Parcel 94 remained the same as in 1950. Additional buildings had been constructed in the eastern portion of Parcel 94, including additional planing and storage buildings, a butane tank, and a dry kiln. The former garage building was used at this time for plywood and glue storage. The lumber storage buildings formerly located in the southeastern portion of Parcel 94 were removed sometime between 1972 and 1974.

By 1983 Parcel 94 had been acquired by the Wattles Company. The Wattles Company managed the Property for storage and warehousing, and leased portions of the Property to other commercial and industrial businesses. The complex of buildings between D Street, E Street, 11th Street, 12th Street, were removed between 1980 and 1990 (Appendix B). Other buildings at Parcel 94 remained the same between the 1970s, 1980s, and 1990s. As of 1988, the Property listing for 1203 East D Street listed 22 different individual addresses (Appendix E), with some spaces vacant and other areas occupied by a variety of businesses including the Wattles Company. At that time, Western Steel Fabricators was listed in the portion of Parcel 94 designated as 1207 East D Street and both Sound Environmental Inc. Filtration Equipment and Marine Floats were listed in the portion of Parcel 94 designated as 1208 East D Street.

The cleanup of the Foss and Wheeler Osgood waterways was completed in 2006. This work was led by the City under a 2003 Consent Decree (CD C03-5117RJB). The Port contributed to that work through a cash and real estate settlement with the City. Post-remediation monitoring was completed in 2008.

The Port acquired Parcel 94 from the Wattles Company in January of 2007. The purchase was conducted following completion of a Phase 1 ESA (Landau 2003), a building condition assessment (Washington Engineering 2003), a Phase 2 ESA (Landau 2005) and follow-up testing by the seller's consultant (EMS 2005, 2007). By 2009, all of the buildings had been demolished and removed from Parcel 94, with the exception of the small office building in the western portion of the Property that remains present today.

Since 2009, Parcel 94 has remained undeveloped except for the existing office building. Portions of Parcel 94 have been leased by the Port to a series of tenants including Marine Floats and Sky City Trucking. Marine floats operated from the western portion of the Property until at least 2019, using the ramp and floats located within the Wheeler Osgood Waterway to assemble marina float structures. Sky City Trucking, LLC, has used the office building and the western portion of Parcel 94 for trucking company operations. No vehicle maintenance activities or hazardous materials handling are conducted on Parcel 94 by Sky City Trucking.

Parcel 94 is currently under evaluation by the Port of Tacoma for development of a Maritime Center, including a Maritime Skills Center and a new Port administration building. Environmental and cultural resource baseline studies were recently completed in support of that work.

No environmental liens, use limitations, or associated easements were noted on the title search.

5 Property Reconnaissance

Results of the Property reconnaissance conducted by Anchor QEA are described in this section.

5.1 Property Reconnaissance Methods

Matthew Davis of Anchor QEA conducted the Property reconnaissance during mid-July 2023. The reconnaissance was supplemented with additional observations made during completion of Phase 2 soil and groundwater testing in late July 2023.

5.2 Observed Property Conditions

The Property currently consists of a gravel parking area surrounded by a chain-link fence.

There are no structures or storm drainage features on the Property. Stormwater infiltrates into the gravel surface.

5.3 Conditions at Adjoining Properties

The Property is bordered on the north by East 11th Place and the footings of the East 11th Street bridge.

East F Street and an old rail spur are located to the east. The property farther east (1106 St. Paul Avenue East, Figure 1) is a former service station. That property is currently occupied by a boat maintenance company, Tacoma Marine Repair.

The Port's Parcel 94 property is located immediately to the south and west of the Property. Parcel 94 is currently vacant, except for a small 2-story office building built in the 1960s (Section 4.3). That office is located approximately 400 feet southwest of the Property. The Wheeler Osgood Waterway is located to the south of Parcel 94.

To the west, beyond Parcel 94, are located the Petrich and Woodworth properties. These properties border the Foss Waterway. The Petrich property is the site of a previous environmental cleanup as noted in Section 5. The Petrich property is located approximately 400 feet to the west of the Property.

6 Interviews

Anchor QEA conducted a telephone interview with Kristina Younger. A written summary of the interview is contained in Appendix I. Elements of the interview have been included in the summary of Property history (Section 4.3).

Kristina's father was born in 1938, 2 years after her family acquired the Property. The Property was used in 1938 to establish a retail lumber yard for Hampton Lumber Company. No lumber manufacturing was conducted on site at that time. It was only used for retail sales and storage.

Hampton constructed a two-story industrial building in 1941. The building was later expanded in 1948. The building was destroyed by fire on November 6, 1965. After the fire Hampton moved its operations. Hampton remains a going concern with multiple operations in Oregon.

No structures were constructed on the Property since the Hampton building burned down. The Property has been leased to different entities for storage of lumber and vehicles.

Wattles Company owned the adjacent Parcel 94 property between the 1970s and 2007. Both the Wattles Company and Lindal Cedar Homes used the Property for storage of lumber. Ms. Younger was aware that Wattles Company treated finished lumber on Parcel 94, including some of the wood that was ultimately stored on the Property. She recalled that Lindal Cedar Homes used the Property for lumber storage in the 1980s and 1990s.

After 2007 the Property has been leased to different entities for storage of vehicles and heavy equipment. Recent tenants included Ness Campbell Cranes and NTR Logistics. NTR Logistics is an over-size freight hauler for wind turbines and other large equipment.

Ms. Younger was not aware of any petroleum storage tanks or other hazardous materials having been stored at the Property. Nor was she aware of any spills or other hazardous materials incidents.

Ms. Younger did not have any prior environmental assessment reports or information for the Property.

7 Findings and Recommendations

This section summaries Anchor QEA's findings and recommendations regarding apparent environmental conditions at the Property based on the information reviewed and documented in this Phase 1.

7.1 Findings

Based on the information reviewed by Anchor QEA and summarized in this Phase 1, several RECs were identified at the Property that warrant further evaluation. These RECs include the following:

- **Placement of Fill Material at the Property:** The Property was developed through the placement of fill materials in the late 1800s and early 1900s. Most of the fill is understood to have been derived from the early dredging of the Foss Waterway between approximately 1902 and 1905 at a time when industrial contamination was not likely to be present (the dredging included predominantly native sediments generated during deepening and widening of the waterway). But other fill materials may have been placed prior to or subsequent to the hydraulic fill placement. Soil testing is warranted to document the quality of the fill materials.
- **Potential Impacts to Surface Soils from Past Industrial Uses:** Numerous past on-site industrial uses have been conducted that may have impacted surface soil quality. These include 1) historical lumber and wood products manufacturing between approximately 1910 and 1936, 2) destruction by fire of the Hampton Lumber Company building in 1965, 3) storage of finished lumber within the Property between the late 1960s and 2006, including wood that may have been treated with sap stain preventatives, and 4) the potential drippage of oils from the storage and operation of vehicles and heavy equipment on the Property by past tenants of the current owners.
- **Presence of Former Gasoline Service Station on Adjacent Upgradient Property:** The Tacoma Marine Repair property located to the east (upgradient) is the location of a historical gasoline service station. There is no record of a cleanup having been completed at the property, as the former storage tanks were abandoned in place. If petroleum hydrocarbons were released at this neighboring property, those could migrate onto and impact subsurface soil and groundwater quality on the Property.

7.2 Recommendations and Phase 2 Findings

As part of the Port's due diligence efforts, Anchor QEA recommended completion of a Phase 2 Environmental Assessment at the Property. The Phase 2 included testing of soil and groundwater at the locations shown in Figure 1 to follow up on each of the RECs identified in Section 7.1. Results of that work are summarized in detail in a separate Phase 2 report (Anchor QEA 2023a).

Results of the Phase 2 testing confirmed 1) the presence of groundwater contamination in one localized area of the Property, and 2) the presence of contamination in surface soils throughout the Property:

- **Groundwater Contamination – Arsenic (1 of 3 locations):** Arsenic contamination was detected in groundwater contamination at 1 of 3 tested locations. The contamination was detected at one location along the upgradient edge of the Property. No contamination was detected at other locations in the Phase 2 (Anchor QEA 2023a), nor at nearby locations within the Parcel 94 property to the south (Anchor QEA 2023b). Results indicate that the contamination is extremely localized. The specific cause of the arsenic groundwater contamination at boring 96 was not determined.
- **Surface Soil Contamination – Arsenic, dioxin/furans, oil hydrocarbons and cPAH:** Each of the surface soils tested from the Property included cleanup level exceedances for at least two of these four contaminants (arsenic, dioxin/furans, oil hydrocarbons, and cPAH). The type and concentration of the contamination varied by location. No contamination was detected in any of the subsurface soils tested. Of the four contaminants present in surface soils, three of the contaminants (arsenic, dioxin/furans and cPAH compounds) were detected at concentrations above cleanup levels for unrestricted land use, but below cleanup levels for industrial land uses. Oil-range hydrocarbons exceeded Model Toxics Control Act (MTCA) Method A cleanup levels for residential and industrial soils. The development of site-specific cleanup levels using total petroleum hydrocarbons fractionation analysis was not conducted. Potential causes of the observed contamination include the following:
  - The arsenic in soil at one location may be the result of past industrial uses.
  - The dioxin/furans are most likely the result of stormwater runoff from finished lumber stored on the Property and treated with a pentachlorophenol-based sap stain preventative.
  - Oil hydrocarbons in soil are likely the result of drippage from heavy equipment and vehicles stored on the Property.
  - The cPAH compounds in soil may have resulted from either the oil drippage or from the fire that destroyed the Hampton Lumber Company building in 1965.

Based on the detection of groundwater contamination, the Property will need to be reported to Ecology as a contaminated site. Further work will be required to investigate and clean up the surface soils and groundwater at Property to comply with requirements of Washington's MTCA regulations. The type and the extent of cleanup will vary depending on future land uses. It is likely that a greater degree of cleanup will be required if the Property and/or vicinity are developed for non-industrial land uses.

We recommend that if the Port acquires the Property, it does so in compliance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) procedures for bona fide prospective purchasers. These provisions are described in Section 101(40)(B) of CERCLA.

8 Signatures

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the All Appropriate Inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Mark Larsen — Date

Anchor QEA Principal Scientist

9 Assumptions and Limitations

Anchor QEA has prepared the Phase 1 ESA on behalf of the Port of Tacoma consistent with the methods defined in ASTME1527-21. No significant limitations were imposed on our work, and no significant data gaps limited our ability to complete this Phase 1.

The work was performed in a manner that is commensurate with accepted procedures and practices in the environmental industry. The qualifications of the individual that prepared this Report are listed in Appendix J. The Anchor QEA investigator reviewed sources that are publicly available, available within a reasonable time and cost, and reasonably ascertainable and considered practically reviewable, as defined under the ASTM standards.

The conclusions and recommendations presented in this Report represent Anchor QEA's best professional judgment regarding environmental conditions at the subject Property. These conclusions and recommendations are based on Anchor QEA's review of the information presented in this Report and the parallel Phase 2. Further, our conclusions and recommendations are based on state and federal regulations and policies as they exist at the time that this Report was prepared.

The findings and conclusions of this Report are not scientific certainties but are based on professional judgment concerning the significance of the data gathered during the course of the Phase 1. The conclusions in this Report are not to be considered a legal opinion or advice as to the Client's duty concerning due diligence and All Appropriate Inquiry relating to potential liabilities in leasing, owning, or purchasing real estate.

It should be recognized that no effort can precisely define all environmental problems or eliminate all risks, and a certain degree of risk exists with any level of effort.

Tacoma, Washington 98401-1837

Re: Scope of Work and Cost Estimate – Due Diligence Assessments for Property at 426 E 11th Street – On-Call Environmental Support Services, Professional Services Agreement No. 071786 – Task Order TBD

Dear Rob,

This letter provides Anchor QEA's proposed scope of work and estimated costs for due diligence support for the Port's potential acquisition of the property located at 426 East 11th Street (the Property) in Tacoma. Specifically, this scope of work includes development of a Phase 1 Environmental Site Assessment (ESA), completion of soil, groundwater and cultural resource testing and development of a Phase 2 ESA report.

The Property includes two tax parcels (895000-1100 and 895000-1110) that total approximately 0.94 acres, and is currently owned by 426 11th St, LLC. The Property is occupied by NTP Logistics, Inc. and is used for crane and heavy equipment storage. There are no occupied structures at the Property.

We understand the Port is negotiating a potential purchase and sale agreement for the Property. That agreement includes a feasibility period during which the Port must complete its due diligence efforts. Anchor QEA's work will be performed during that feasibility period and in compliance with a Port access agreement.

We also understand that the Port is currently working with the Puyallup Tribe of Indians (Tribe) on soil, groundwater and cultural resource testing at the adjacent Parcel 94 property. The Port and the Tribe have defined specific protocols to address the Tribe's cultural resource concerns for work in that area. This scope of work assumes that the Port and Anchor QEA will apply the same cultural resource requirements to the completion of the soil and groundwater testing program, and that the work will be performed in the same timeframes as the Port's ongoing work at Parcel 94.

Task 1: Phase 1 ESA

Under Task 1, Anchor QEA will complete a Phase 1 ESA for the Property meeting the requirements of ASTM E-1527-21. That work will document the history of the Property and the surrounding area, survey available information regarding environmental conditions, document current conditions at the

Property and identify any recognized environmental conditions that indicate a potential release of hazardous substances to soil or groundwater. This work will include the following elements:

- Historical review of the Property and vicinity
- Search of environmental databases and review of records for the Property and vicinity
- Completion of a site inspection
- Interviews with the current owner of the Property and the current tenant
- Compilation and review of other information required by ASTM methods
- Development of a Phase 1 ESA report meeting ASTM requirements

Completion of the Phase 1 ESA report will be expedited to comply with the Port's schedule requirements for the acquisition and for coordinating Phase 2 ESA and cultural resource testing (see Task 2 below).

Task 2: Phase 2 ESA and Cultural Resource Testing

Under Task 2, Anchor QEA will install six soil borings on approximately 30-meter centers and will collect samples of soil and groundwater for environmental testing. Given the Tribe's stated concerns regarding potential cultural resources to be present in the vicinity of Parcel 94, the work will incorporate the same drilling practices and cultural resource monitoring as have been applied at Parcel 94. Work to be performed includes the following:

- A map of the planned soil borings and a short narrative describing the work will be provided to assist the Port in securing site access for the work.
- All testing will be performed in accordance with a site-specific health and safety plan.
- Drilling will be performed using a 6-inch diameter sonic drilling rig to support cultural resource monitoring of encountered soils.
- All soil samples will be screened for the presence of contamination using visual, olfactory and Photo-Ionization Detector (PID) methods.
- All drilling and soil sample collection will be monitored by an archaeologist from Willamette CRA, the same firm conducting archaeological monitoring at the adjacent Parcel 94 property:
  - All work will be completed in accordance with the Inadvertent Discovery Plan used by the Puyallup Tribe.
  - Soil cores will be visually surveyed by the archaeologist, and samples of the native soil horizon will be sieved for closer inspection for potential artifacts.
  - Willamette CRA will prepare a short narrative documenting the presence/absence of artifacts from the six soil borings.
- Analytical testing of soil and groundwater will be conducted from 3 of the 6 borings:
  - Two soil samples (surface and water table soils) will be collected from each of the three analytical testing borings. An archive sample of deeper native silty soils will also be archived from each of these borings.

  - The six planned soil analytical samples will be tested for VOCs, SVOCs, heavy metals, NW-TPHgx, NWTPHdx, and PCBs. Up to 3 soil samples will be analyzed for dioxin/furan compounds.
  - Three groundwater samples will be collected from the same three borings using a temporary well screen.
  - Groundwater samples will be analyzed for VOCs, heavy metals and NW-TPHgx and NWTPHdx. Heavy metals testing will include methods to address potential salinity interference. NWTPHdx testing will be performed both with and without silica gel cleanup.
- Soil samples will be archived from the remaining 3 soil borings for contingent analysis in the event that further testing is required.
- Environmental testing will be completed at Eurofins labs using methods approved for use in the State of Washington.
- Analytical data will be subject to a Level 2 data validation prior to use in reporting.
- Results of soil and groundwater testing will be compiled in a Phase 2 ESA Report. Chemical testing data will be compared to applicable MTCA soil and groundwater cleanup levels.

Estimated Costs

Estimated costs are summarized by task in Table 1. The entire budget is a not-to-exceed amount billed on a time-and-materials basis under the existing Professional Services Agreement No. 071786 with the Port. If the assumptions defined in this scope of work change, Anchor QEA will discuss and obtain approval prior to exceeding these estimated costs.

Table 1 summarizes the estimated costs for this scope of work for 2023 based on our 2023 Port Rates (Attachment A). A detailed cost estimate is included as Attachment B.

Table 1
Cost Estimate

Task Number	Task Description	Anchor QEA Labor		Subcontractors, Equipment, Materials, and Expenses	Task Total
		Hours	Cost		
1	Phase 1 ESA	33	[redacted]	[redacted]	[redacted]
2	Phase 2 ESA and Cultural Resource Testing	108	[redacted]	[redacted]	[redacted]
	Totals	**141**	[redacted]	[redacted]	[redacted]

Assumptions

The cost estimate in Table 1 for is based on the following assumptions:

- The Phase 1 ESA will be completed in approximately 2 weeks from authorization, depending on availability of the seller for interviews and the availability of the site for an on-site inspection.
- The Phase 1 ESA will be completed in accordance with E-1527-21 requirements.
- The Phase 2 ESA will be performed consistent with a site access agreement to be developed by the Port with the Property seller. We have assumed that the site owner and/or tenant will arrange for movement of on-site heavy equipment as necessary to reach planned boring locations.
- Phase 2 ESA testing will be conducted using the same cultural resource monitoring protocols developed by the Port and the Puyallup Tribe for work at the adjacent Parcel 94 property.
- The work will comply with the requirements of the Inadvertent Discovery Plan maintained by the Puyallup Tribe.
- Phase 2 ESA sampling will be conducted in July along-side the Port's ongoing work at Parcel 94. This will facilitate required coordination with the Puyallup Tribe regarding cultural resource issues.
- Soil boring locations and elevations will be surveyed, and all soil borings will be logged.
- Planned analytical testing will be performed in soil and groundwater from three of six soil borings. Soils from the remaining three borings will be screened and archived, but not tested initially. If further testing is required, this would be conducted on archived soil samples under a scope amendment.
- Drill cuttings and purge waters will be contained and tested prior to arranging for off-site disposal.
- All laboratory data will be subject to a Level 2 data validation review.
- A Phase 2 ESA report will be prepared comparing analytical testing results to applicable MTCA Method A and Method B soil and groundwater cleanup levels.
- Environmental data will be managed electronically, suitable for upload to Ecology's EIM database following completion of the work.

Sincerely,

Niklas Bacher, LG
Senior Managing Geologist

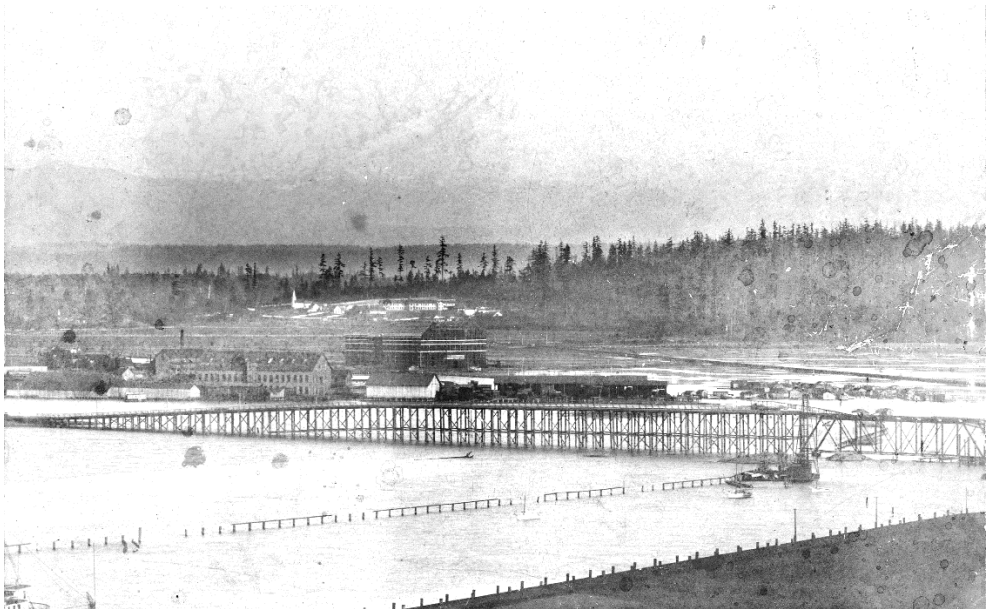
Appendix C
Other Historical Photographs

HISTORICAL PHOTOGRAPHS OF 426 EAST 11TH STREET AND VICINITY

Photograph 1 (1880): View of former mouth of Puyallup River from downtown Tacoma prior to waterway dredging and tideland filling. The island known as "the Boot" is visible in the rear center of the photo. The Property was located in the submerged tidelands just offshore of the Boot.

Photograph 2 (1894): View of the Wheeler Osgood Mill buildings originally constructed on the lower edge of "the Boot". The Property was located in the submerged tidelands just offshore of the Boot.

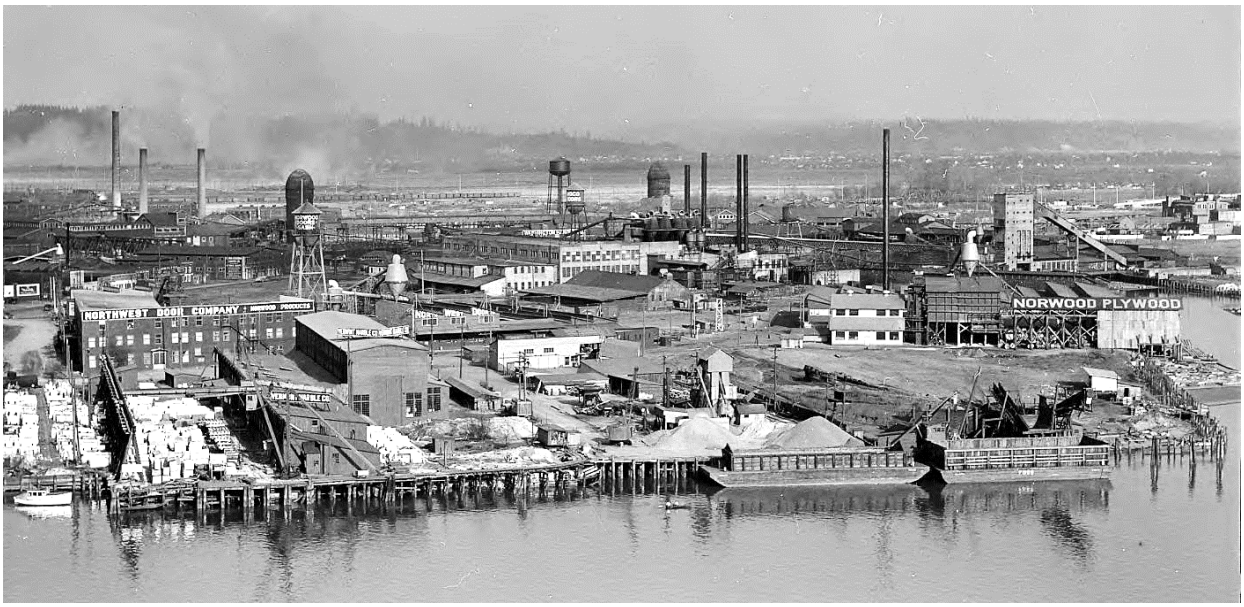


Photograph 3 (undated, circa 1900): High tide view from downtown Tacoma facing southeast toward "the Boot". Buildings of the Wheeler Osgood Mill are visible on "the Boot" in the center of the photograph. The Property and the central and western portions of Parcel 94 have not yet been filled. Photograph from the Northwest Room at The Tacoma Public Library, image number "General Photograph Collection GM-001."

Photograph 4 (1910): View of the 11th street bridge and the filled condition of Parcel 94 and the vicinity after dredging of the Foss Waterway. property. Buildings associated with furniture manufacturing and millwork operations are present in the northern portion of Parcel 94. A wooden bulkhead is visible along the west and south portions of the property. The Wheeler Osgood mill buildings are visible in the southeastern portion of Parcel 94 and to the east of F-street. The Petrich property to the northwest of Parcel 94 is in use by the Vermont Marble Company at this time.

Photograph 5 (1927): View north along East F-Street toward the Property from the roof of the Wheeler Osgood mill buildings. The 2-story wooden building and other structures associated with operations of City Millworks Company are visible on the Property in the upper left portion of the photograph.

Photograph 6 (1930): View facing southeast toward the Washington Parlor Furniture Company building located immediately west of the Property.



Photograph 7 (1938): View from Downtown Tacoma across the Foss Waterway (formerly City Waterway). Northwest Door Company and associated Norwood Plywood operations are active on Parcel 94. The Peters Sand & Gravel Company and the Vermont Marble Company remain active on off-site properties to the northwest. Photograph from the Northwest Room at The Tacoma Public Library, image number "Richards Studio D7226-1."

Photograph 8 (1948): The fully built-out Hampton Lumber Company building is visible on the Property in the upper rear portion of the photo. Norwood Plywood and Door operations are present throughout Parcel 94. The eastern portion of Parcel 94 is occupied by support operations for the main Wheeler Osgood sash and door factory located east of F-Street. From the Northwest Room at The Tacoma public Library, image number "Richards Studio D35790-7."

Photograph 9 (1969): View from downtown Tacoma toward Parcel 94 and the Property. The Property is vacant at this time, following the fire in 1965 that burned down the Hampton Lumber Company building. Operations of the Plywood mill on Parcel 94 are visible. At this time the Petrich property northwest of Parcel 94 was used by Marine Iron Works Inc. and the Woodworth property was used by Woodworth & Company for operation of an asphalt plant.

Property Archives

City Directory Report

Envirosite's Standard City Directory Report is a screening tool designed to assist in historical use determination of a subject property and adjacent properties. It includes a search of Property Archives digital datasets and national book collections including the Library of Congress and/or the Allen County Public Library at five year intervals or the closest available intervals.

RESEARCH SUMMARY:

The following research sources were consulted in the preparation of this report:

SOURCE:	***YEAR:***
Property Archives	2018, 2015, 2011, 2007, 2002, 1998, 1993
Tacoma City Directory	1988, 1983, 1978, 1973, 1968, 1965, 1960

Property Archives is a proprietary and comprehensive dataset of over 1.5 billion commercial, industrial and residential records, business names and uses and occupant records for every city and town in the United States, from recent years to the early 1990s. Property Archives dataset is wholly owned and operated by Property Archives, LLC

This report was prepared by Property Archives, LLC for Envirosite Corporation

ALTA COMMITMENT FOR TITLE INSURANCE

issued by agent:

CHICAGO TITLE
COMPANY OF WASHINGTON
NATIONAL COMMERCIAL SERVICES

Commitment Number:

232052-TC

NOTICE

IMPORTANT - READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, Chicago Title Insurance Company, a Florida corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Amount of Insurance and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within one hundred eighty (180) days after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

SCHEDULE B, PART I - Requirements

All of the following Requirements must be met:

1. The Proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.

2. Pay the agreed amount for the estate or interest to be insured.

3. Pay the premiums, fees, and charges for the Policy to the Company.

4. Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records.

5. Additional requirements and/or exceptions may be added as details of the transaction are disclosed to, or become known by the Company.

6. Furnish recording instructions with the documents to be recorded in this transaction. Said instructions must address each requirement made herein, list any endorsements to be issued with the policy and specify the recording order of any documents furnished.

   The Company reserves the right to add additional items or make further requirements after review of the requested instructions prior to recording the documents or issuing any requested endorsement.

   The Company also reserves the right to charge any applicable additional fees for any endorsement requested.

7. If the Seller or Borrower intends to sign documents required to insure the transaction utilizing a remote online notary, please notify the Company immediately as additional underwriting requirements will need to be satisfied.

8. Payment of the real estate excise tax, if required.

   The Land is situated within the boundaries of local taxing authority of the City of Tacoma.

   The rate of real estate excise tax for properties which are not formally classified and specially valued as timberland or agricultural land is:

   State portion: 1.10% on any portion of the sales price of $525,000 or less;
   1.28% on any portion of the sales price above $525,000, up to $1,525,000;
   2.75% on any portion of the sales price above $1,525,000, up to $3,025,000;
   3.00% on any portion of the sales price above $3,025,000;

   The rate of excise for properties formally classified as timberland or agriculture land will be 1.28% for the State portion on the entire sales price.

   Local portion: 0.50% on the entire sales price.

   An additional $5.00 State Technology Fee must be included in all excise tax payments.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

AMERICAN LAND TITLE ASSOCIATION

SCHEDULE B, PART I - Requirements
(continued)

If the transaction is exempt, an additional $5.00 Affidavit Processing Fee is required.

Any conveyance document must be accompanied by the official Washington State Excise Tax Affidavit, which can be found online HERE <https://dor.wa.gov/get-form-or-publication/forms-subject/real-estate-excise-tax>. The applicable excise tax must be paid and the affidavit approved at the time of the recording of the conveyance documents. (NOTE: Real Estate Excise Tax Affidavits must be printed as legal size forms).

9. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the entity named below.

   Limited Liability Company: 426 11th Street, L.L.C.

   a. A copy of its operating agreement, if any, and any and all amendments, supplements and/or modifications thereto, certified by the appropriate manager or member.

   b. If a domestic Limited Liability Company, a copy of its Articles of Organization and all amendment thereto with the appropriate filing stamps.

   c. If the Limited Liability Company is member-managed a full and complete current list of members certified by the appropriate manager or member.

   d. A current dated certificate of good standing from the proper governmental authority of the state in which the entity was created

   e. If less than all members, or managers, as appropriate, will be executing the closing documents, furnish evidence of the authority of those signing.

   The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

10. Any instrument to be executed by Port of Tacoma must be in accordance with statute. Satisfactory evidence of authority must be submitted.

    The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

11. The Proposed Policy Amount(s) must be increased to the full value of the estate or interest being insured, and any additional premium must be paid at that time. An Owner's policy should reflect the purchase price or full value of the Land. A Loan Policy should reflect the loan amount or value of the property as collateral. Proposed Policy Amount(s) will be revised and premiums charged consistent therewith when the final amounts are approved.

12. For each policy to be issued as identified in Schedule A, Item 2; the Company shall not be liable under this commitment until it receives a designation for a Proposed Insured, acceptable to the Company. As provided in Commitment Condition 4, the Company may amend this commitment to add, among other things, additional exceptions or requirements after the designation of the Proposed Insured.

13. The application for title insurance was placed by reference to only a street address or tax identification number. The proposed Insured must confirm that the legal description in this report covers the parcel(s) of Land requested

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

SCHEDULE B, PART I - Requirements
(continued)

to be insured. If the legal description is incorrect, the proposed Insured must notify the Company and/or the settlement company in order to prevent errors and to be certain that the legal description for the intended parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.

END OF REQUIREMENTS

NOTES

The following matters will not be listed as Special Exceptions in Schedule B of the policy. There will be no coverage for loss arising by reason of the matters listed below because these matters are either excepted or excluded from coverage or are not matters covered under the insuring provisions of the policy.

Note A: Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

Note B: Note: FOR INFORMATIONAL PURPOSES ONLY:

The following may be used as an abbreviated legal description on the documents to be recorded, per Amended RCW 65.04.045. Said abbreviated legal description is not a substitute for a complete legal description within the body of the document:

PTN OF SE OF NE OF SE OF SEC 22 - T20N - R2E, W.M.
Tax Account No.: 895000-1100 and 895000-1110

Note C: Note: The Public Records indicate that the address of the improvement located on said Land is as follows:

426 E 11th St
Tacoma, WA 98421

Note D: Note: This map/plat is being furnished as an aid in locating the herein described Land in relation to adjoining streets, natural boundaries and other land. Except to the extent a policy of title insurance is expressly modified by endorsement, if any, the Company does not insure dimensions, distances or acreage shown thereon.

END OF NOTES

END OF SCHEDULE B, PART I

This page is only a part of a 2021 ALTA® Commitment for Title Insurance issued by Chicago Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

SCHEDULE B, PART II - Exceptions

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This Commitment and the Policy treat any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document will be excepted from coverage.

The Policy will not insure against loss or damage resulting from the terms and conditions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

GENERAL EXCEPTIONS

A. Rights or claims of parties in possession, or claiming possession, not shown by the Public Records.

B. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land.

C. Easements, prescriptive rights, rights-of-way, liens or encumbrances, or claims thereof, not shown by the Public Records.

D. Any lien, or right to a lien, for contributions to employee benefit funds, or for state workers' compensation, or for services, labor, or material heretofore or hereafter furnished, all as imposed by law, and not shown by the Public Records.

E. Taxes or special assessments which are not yet payable or which are not shown as existing liens by the Public Records.

F. Any lien for service, installation, connection, maintenance, tap, capacity, or construction or similar charges for sewer, water, electricity, natural gas or other utilities, or for garbage collection and disposal not shown by the Public Records.

G. Unpatented mining claims, and all rights relating thereto.

H. Reservations and exceptions in United States Patents or in Acts authorizing the issuance thereof.

I. Indian tribal codes or regulations, Indian treaty or aboriginal rights, including easements or equitable servitudes.

J. Water rights, claims or title to water.

K. Any defect, lien, encumbrance, adverse claim, or other matter that appears for the first time in the Public Records or is created, attaches, or is disclosed between the Commitment Date and the date on which all of the Schedule B, Part I—Requirements are met.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

SCHEDULE B, PART II - Exceptions
(continued)

SPECIAL EXCEPTIONS

1. Covenants, conditions, restrictions, recitals, reservations, easements, easement provisions, encroachments, dedications, building setback lines, notes, statements, and other matters, if any, but omitting any covenants or restrictions, if any, including but not limited to those based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, or source of income, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth on Survey:

   Recording No: 200307315010

2. Covenants, conditions, restrictions, recitals, reservations, easements, easement provisions, encroachments, dedications, building setback lines, notes, statements, and other matters, if any, but omitting any covenants or restrictions, if any, including but not limited to those based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, or source of income, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth on Survey:

   Recording No: 200608115002

3. General and special taxes and charges, payable February 15, delinquent if first half unpaid on May 1, second half delinquent if unpaid on November 1 of the tax year (amounts do not include interest and penalties):

Year:	2023
Tax Account No.:	895000-1110
Levy Code:	005
Assessed Value-Land:	$227,900.00
Assessed Value-Improvements:	$0.00
General and Special Taxes:	
Billed:	$2,371.60
Paid:	$0.00
Unpaid:	$2,371.60
Affects:	Parcel A

5. Additional tap or connection charges for sewer facilities levied by the City of Tacoma, notice thereof is given by the filing of map:

Recording Date:	November 1, 1978
Recording No.:	2864651
Corrected by Instrument – Recording No:	2881434
Amended by Instrument – Recording No.:	8012010130

Inquiry should be made with City of Tacoma, Department of Public Works for the amount due.

6. The search did not disclose any open mortgages or deeds of trust of record, therefore the Company reserves the right to require further evidence to confirm that the property is unencumbered, and further reserves the right to make additional requirements or add additional items or exceptions upon receipt of the requested evidence.

7. Any unrecorded leaseholds, right of vendors and holders of security interests on personal property installed upon the Land and rights of tenants to remove trade fixtures at the expiration of the terms.

END OF SCHEDULE B, PART II

This page is only a part of a 2021 ALTA® Commitment for Title Insurance issued by Chicago Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

COMMITMENT CONDITIONS

1. DEFINITIONS

a. "Discriminatory Covenant": Any covenant, condition, restriction, or limitation that is unenforceable under applicable law because it illegally discriminates against a class of individuals based on personal characteristics such as race, color, religion, sex, sexual orientation, gender identity, familial status, disability, national origin, or other legally protected class.

b. "Knowledge" or "Known": Actual knowledge or actual notice, but not constructive notice imparted by the Public Records.

c. "Land": The land described in Item 5 of Schedule A and improvements located on that land that by State law constitute real property. The term "Land" does not include any property beyond that described in Schedule A, nor any right, title, interest, estate, or easement in any abutting street, road, avenue, alley, lane, right-of-way, body of water, or waterway, but does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.

d. "Mortgage": A mortgage, deed of trust, trust deed, security deed, or other real property security instrument, including one evidenced by electronic means authorized by law.

e. "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.

f. "Proposed Amount of Insurance": Each dollar amount specified in Schedule A as the Proposed Amount of Insurance of each Policy to be issued pursuant to this Commitment.

g. "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.

h. "Public Records": The recording or filing system established under State statutes in effect at the Commitment Date under which a document must be recorded or filed to impart constructive notice of matters relating to the Title to a purchaser for value without Knowledge. The term "Public Records" does not include any other recording or filing system, including any pertaining to environmental remediation or protection, planning, permitting, zoning, licensing, building, health, public safety, or national security matters.

i. "State": The state or commonwealth of the United States within whose exterior boundaries the Land is located. The term "State" also includes the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, and Guam.

j. "Title": The estate or interest in the Land identified in Item 3 of Schedule A.

2. If all of the Schedule B, Part I-Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:

a. the Notice;

b. the Commitment to Issue Policy;

c. the Commitment Conditions;

d. Schedule A;

e. Schedule B, Part I-Requirements; and

f. Schedule B, Part II-Exceptions; and

g. a counter-signature by the Company or its issuing agent that may be in electronic form.

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company is not liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

a. The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:

i. comply with the Schedule B, Part I-Requirements;

ii. eliminate, with the Company's written consent, any Schedule B, Part II-Exceptions; or

iii. acquire the Title or create the Mortgage covered by this Commitment.

b. The Company is not liable under Commitment Condition 5.a. if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.

c. The Company is only liable under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.

d. The Company's liability does not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Condition 5.a. or the Proposed Amount of Insurance.

This page is only a part of a 2021 ALTA® Commitment for Title Insurance issued by Chicago Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

AMERICAN LAND TITLE ASSOCIATION

(continued)

e. The Company is not liable for the content of the Transaction Identification Data, if any.

f. The Company is not obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I-Requirements have been met to the satisfaction of the Company.

g. The Company's liability is further limited by the terms and provisions of the Policy to be issued to the Proposed Insured.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT; CHOICE OF LAW AND CHOICE OF FORUM

a. Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.

b. Any claim must be based in contract under the State law of the State where the Land is located and is restricted to the terms and provisions of this Commitment. Any litigation or other proceeding brought by the Proposed Insured against the Company must be filed only in a State or federal court having jurisdiction.

c. This Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.

d. The deletion or modification of any Schedule B, Part II-Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.

e. Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.

f. When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT IS ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for closing, settlement, escrow, or any other purpose.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. CLAIMS PROCEDURES

This Commitment incorporates by reference all Conditions for making a claim in the Policy to be issued to the Proposed Insured. Commitment Condition 9 does not modify the limitations of liability in Commitment Conditions 5 and 6.

10. CLASS ACTION

ALL CLAIMS AND DISPUTES ARISING OUT OF OR RELATING TO THIS COMMITMENT, INCLUDING ANY SERVICE OR OTHER MATTER IN CONNECTION WITH ISSUING THIS COMMITMENT, ANY BREACH OF A COMMITMENT PROVISION, OR ANY OTHER CLAIM OR DISPUTE ARISING OUT OF OR RELATING TO THE TRANSACTION GIVING RISE TO THIS COMMITMENT, MUST BE BROUGHT IN AN INDIVIDUAL CAPACITY. NO PARTY MAY SERVE AS PLAINTIFF, CLASS MEMBER, OR PARTICIPANT IN ANY CLASS OR REPRESENTATIVE PROCEEDING. ANY POLICY ISSUED PURSUANT TO THIS COMMITMENT WILL CONTAIN A CLASS ACTION CONDITION.

11. ARBITRATION - INTENTIONALLY DELETED

END OF CONDITIONS

This page is only a part of a 2021 ALTA® Commitment for Title Insurance issued by Chicago Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

AMERICAN LAND TITLE ASSOCIATION

RECORDING REQUIREMENTS

Effective January 1, 1997, document format and content requirements have been imposed by Washington Law. Failure to comply with the following requirements may result in rejection of the document by the county recorder or imposition of a $50.00 surcharge.

First page or cover sheet:

3" top margin containing nothing except the return address.

1" side and bottom margins containing no markings or seals.

Title(s) of documents.

Recording no. of any assigned, released or referenced document(s).

Grantors names (and page no. where additional names can be found).

Grantees names (and page no. where additional names can be found).

Abbreviated legal description (Lot, Block, Plat Name or Section, Township, Range and Quarter, Quarter Section for unplatted). Said abbreviated legal description is not a substitute for a complete legal description which must also appear in the body of the document.

Assessor's tax parcel number(s).

Return address (in top 3" margin).

**A cover sheet can be attached containing the above format and data if the first page does not contain all required data.

Additional Pages:

1" top, side and bottom margins containing no markings or seals.

All Pages:

No stapled or taped attachments. Each attachment must be a separate page. All notary and other pressure seals must be smudged for visibility. Font size of 8 points or larger.

WIRE SAFE™ | Inquire before you wire!

WIRE FRAUD ALERT

This Notice is not intended to provide legal or professional advice.
If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the number of relevant parties to the transaction as soon as an escrow account is opened.** DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

FIDELITY NATIONAL FINANCIAL
PRIVACY NOTICE

Effective January 1, 2023

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.* Social Security Number, driver's license, passport, or other government ID number);
- financial account information (*e.g.* loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to affiliated or nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;
- to affiliated or nonaffiliated third parties with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

For Nevada Residents: We are providing this notice pursuant to state law. You may be placed on our internal Do Not Call List by calling FNF Privacy at (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. For further information concerning Nevada's telephone solicitation law, you may contact: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: aginquiries@ag.state.nv.us.

For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

For Virginia Residents: For additional information about your Virginia privacy rights, please email privacy@fnf.com or call (888) 714-2710.

Information From Children

The FNF Websites are not intended or designed to attract persons under the age of eighteen (18). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

Accessing and Correcting Information; Contact Us

If you have questions or would like to correct your Personal Information, visit FNF's Privacy Inquiry Website or contact us by phone at (888) 714-2710, by email at privacy@fnf.com, or by mail to:

HORIZONTAL DATUM

CITY OF TACOMA DATUM BASED ON TIES TO PUBLISHED CITY OF TACOMA CONTROL POINTS.

NOTES

1. EQUIPMENT USED: TOPCON QS AND CARLSON CR2+ ROBOTIC TOTAL STATION AND TOPCON GR3 RTK/GPS
2. THE PURPOSE OF THIS SURVEY IS TO IDENTIFY ENCUMBRANCES OF RECORD AFFECTING THE SUBJECT PARCEL. THE FIELD WORK WAS LIMITED TO LOCATING CONTROLLING SURVEY MONUMENTS. NO EXTERIOR OCCUPATION EVIDENCE WAS COLLECTED AS PART OF THIS SURVEY.
3. THIS SURVEY WAS PERFORMED BY FIELD TRAVERSE WITH THE FINAL RESULTS MEETING OR EXCEEDING THE CURRENT TRAVERSE AND RELATIVE POSITIONAL ACCURACY STANDARDS CONTAINED IN W.A.C. 332-130-085 AND W.A.C. 332-130-090. THE RELATIVE POSITIONAL ACCURACY OF THE POSITIONS LOCATED HEREON MEETS OR EXCEEDS 2 CM (0.07 FT.) PLUS 50 PARTS PER MILLION BETWEEN ANY TWO TESTED POSITIONS. ALL MEASUREMENTS WERE MADE WITH A TOPCON QS AND CARLSON CR2+ ROBOTIC TOTAL STATION IN ACCORDANCE WITH THE EQUIPMENT MANUFACTURER'S SPECIFICATIONS.
4. FIELD WORK PERFORMED IN JULY 2023, UNDER SITTS & HILL JOB NUMBER 20186.
5. SITTS & HILL ENGINEERS, INC. HAS RELIED UPON TITLE INFORMATION NOTED IN COMMITMENT FOR TITLE INSURANCE PREPARED BY STEWART TITLE GUARANTY COMPANY, COMMITMENT NUMBER 23000200340, DATED APRIL 17, 2023. IN PREPARATION OF THIS SURVEY, SITTS AND HILL ENGINEERS, INC. HAS CONDUCTED NO INDEPENDENT TITLE SEARCH NOR IS SITTS AND HILL ENGINEERS, INC. AWARE OF ANY TITLE ISSUES AFFECTING THE SURVEYED PROPERTY OTHER THAN THOSE SHOWN ON THE MAP AND/OR DISCLOSED BY SAID TITLE COMPANY'S ORDER. SITTS & HILL ENGINEERS, INC. HAS RELIED WHOLLY ON SAID TITLE COMPANY'S REPORT AND THEREFORE QUALIFIES THE MAP'S ACCURACY AND COMPLETENESS TO THAT EXTENT.
6. THE HISTORICAL LOCATION OF THE CITY WATERWAY WAS HELD FOR THE BOUNDARY DETERMINATION OF THE SUBJECT PARCELS. SAID LOCATION OF THE CITY WATERWAY (FOSS WATERWAY) IS USED IN COURSES DESCRIBED WITHIN THE PROPERTY LEGAL DESCRIPTIONS, AND USE OF THE CURRENT WATERWAY LOCATION WOULD NOT AGREE WITH PROPERTY OCCUPATION IN THIS AREA. THE CURRENT WATERWAY LOCATION WAS ALTERED BY THAT RECORD OF SURVEY PREPARED BY THE DEPARTMENT OF NATURAL RESOURCES, RECORDED UNDER AUDITOR'S FILE NUMBER 200305275001. BASED ON THAT SURVEY, THE NEW EAST LINE OF THE CITY WATERWAY LIES WEST OF THE HISTORICAL LOCATION.

NOTES

1. HORIZONTAL DATUM IS IDENTICAL TO THAT CERTAIN ALTA/ACSM LAND TITLE SURVEY, PREPARED BY SITTS AND HILL ENGINEERS DATED JUNE 26, 2003 AS PROVIDED BY THE PORT OF TACOMA.

2. BASIS OF BEARINGS: NORTH 23°30'01 WEST BETWEEN TWO ENCASED MONUMENTS IN CENTER OF EAST D STREET. SEE MAP FOR LOCATIONS.

3. VERTICAL DATUM: MLLW BASED ON PORT OF TACOMA SURVEY CONTROL MAP BY HUITT–ZOLLARS DATED NOVEMBER 4TH, 2002.

4. FIELD WORK PERFORMED IN JANUARY, FEBRUARY, MARCH AND APRIL OF 2007 USING LIECA 1103 AND TRIMBLE GPS EQUIPMENT.

5. ALL MONUMENTS AND PROPERTY CORNERS SHOWN ON THIS SURVEY WERE FOUND IN JANUARY 2007.

6. THE CENTERLINE OF THE 20–FOOT WIDE EASEMENT FOR SPUR TRACK WAS BASED UPON AN AS–BUILT LOCATION OF THE EXISTING RAIL LINE.

LEGEND

- FOUND SURFACE MONUMENT AS DESCRIBED
- FOUND ENCASED MONUMENT AS DESCRIBED
- FOUND REBAR AND CAP AS DESCRIBED

SHEET INDEX

LEGAL DESCRIPTION

PARCEL A
THE NORTH 237.05 FEET OF BLOCK 39, MAP OF TACOMA TIDELANDS AS SURVEYED AND PLATTED BY THE BOARD OF THE TIDE LAND APPRAISERS FOR PIERCE COUNTY, ACCORDING TO PLAT FILED FOR RECORD SEPTEMBER 14, 1895, IN THE OFFICE OF THE COUNTY AUDITOR, AND THAT PORTION OF BLOCK 40 OF SAID MAP OF TACOMA TIDELANDS, DESCRIBED AS FOLLOWS:

BEGINNING AT THE NORTHWEST CORNER OF SAID BLOCK 40; THENCE SOUTH 08°46'53" EAST 237.05 FEET ALONG THE WEST LINE OF SAID BLOCK; THENCE NORTH 81°14' EAST 193.56 FEET PARALLEL WITH SOUTH 11TH STREET; THENCE NORTH 24°51' WEST 246.71 FEET TO THE SOUTH LINE OF SOUTH 11TH STREET; THENCE SOUTH 81°14' WEST 125.23 FEET ALONG THE SOUTH LINE OF SOUTH 11TH STREET TO THE POINT OF BEGINNING. EXCEPT THAT PORTION OF ANY LYING WITHIN THE BOUNDARIES OF THAT CERTAIN PUBLIC RIGHT OF WAY CONVEYED TO THE CITY OF TACOMA BY DEED RECORDED JANUARY 3, 1930 UNDER RECORDING NO. 976504.

SITUATE IN THE CITY OF TACOMA, COUNTY OF PIERCE, STATE OF WASHINGTON.

PARCEL B
BEGINNING AT THE INTERSECTION OF THE SOUTHERLY LINE OF SOUTH 11TH STREET AND THE EASTERLY LINE OF CITY WATERWAY AS BOTH ARE SHOWN ON SUPPLEMENTAL PLAT 5A OF TACOMA TIDE LANDS ON FILE IN THE OFFICE OF THE AUDITOR OF PIERCE COUNTY, THENCE ON SAID EASTERLY LINE OF CITY WATERWAY SOUTH 08°46'53" EAST 237.05 FEET TO THE TRUE POINT OF BEGINNING FOR THIS DESCRIPTION; THENCE CONTINUING ON SAID LINE OF CITY WATERWAY SOUTH 08°46'53" EAST 44.12 FEET; THENCE SOUTH 02°38'08" EAST 106.50 FEET; THENCE LEAVING SAID LINE OF WATERWAY AND RUNNING PARALLEL WITH SAID SOUTHERLY LINE OF SOUTH 11TH STREET NORTH 81°14' EAST 402.312 FEET; THENCE ON A CURVE TO THE RIGHT HAVING A RADIUS OF 401.92 FEET A DISTANCE OF 158.94 FEET THROUGH AN ARC OF 22°39'30"; THENCE NORTH 24°51'32" WEST 188.39 FEET TO THE SOUTHEASTERLY CORNER OF TRACT DEEDED TO VERMONT MARBLE COMPANY ON APRIL 2, 1924; THENCE ON THE SOUTHERLY LINE OF SAID TRACT SOUTH 81°14' WEST 493.563 FEET TO THE TRUE POINT OF BEGINNING.

SITUATE IN THE CITY OF TACOMA, COUNTY OF PIERCE, STATE OF WASHINGTON.

PARCEL C
BEGINNING AT A POINT ON THE SOUTH LINE OF SOUTH 11TH STREET IN THE CITY OF TACOMA, 1039.72 FEET EASTERLY OF ITS POINT OF INTERSECTION WITH THE EAST LINE OF THE CITY WATERWAY; THENCE WESTERLY ALONG SAID SOUTH LINE OF SOUTH 11TH STREET 247.82 FEET; THENCE SOUTHEASTERLY ON A LINE FORMING AN ANGLE OF 73°54'02" WITH SAID SOUTH LINE 158.4 FEET; THENCE NORTHEASTERLY AT RIGHT ANGLE 236.66 FEET; THENCE NORTHWESTERLY 89.69 FEET TO THE POINT OF BEGINNING;

TOGETHER WITH THAT PORTION OF VACATED EAST 11TH STREET ABUTTING SAID PREMISES AND ATTACHED THERETO BY OPERATION OF LAW, AS VACATED BY CITY OF TACOMA ORDINANCE NO. 21230 AND RECORDED UNDER RECORDING NUMBER 2789313.

SITUATE IN THE CITY OF TACOMA, COUNTY OF PIERCE, STATE OF WASHINGTON.

PARCEL D
COMMENCING AT A POINT ON THE SOUTH LINE OF EAST 11TH STREET (FORMERLY SOUTH 11TH STREET), 791.9 FEET EASTERLY OF ITS POINT OF INTERSECTION WITH THE EAST LINE OF THE CITY WATERWAY; THENCE SOUTHEASTERLY ON A LINE HEREINAFTER REFERRED TO AS LINE "A", FORMING AN ANGLE OF 73°54'02" TO THE RIGHT WITH SAID SOUTH STREET LINE, 208.4 FEET TO THE TRUE POINT OF BEGINNING; THENCE NORTHWESTERLY RETRACING SAID LAST NAMED LINE "A" 50 FEET; THENCE NORTHEASTERLY AT RIGHT ANGLES 236.66 FEET; THENCE SOUTHEASTERLY ON A ANGLE OF 90°55'11" TO THE RIGHT, 50.02 FEET; THENCE SOUTHWESTERLY ON A STRAIGHT LINE 235.86 FEET, MORE OR LESS, TO THE TRUE POINT OF BEGINNING.

PARCEL E
COMMENCING AT THE SOUTHWEST CORNER OF GOVERNMENT LOT 8; THENCE NORTH 40°25'50" EAST 295.42 FEET TO THE POINT OF BEGINNING; THENCE ON A CURVE TO THE RIGHT HAVING A RADIUS OF 286.28 FEET THROUGH A CENTRAL ANGLE OF 53°08'48" 202.90 FEET; THENCE SOUTH 23°56'26" EAST TO A POINT ON THE SOUTHWEST BOUNDARY OF LOT 8; THENCE SOUTH 78°45'29" EAST TO THE EASTERLY BOUNDARY OF THE NORTHERN PACIFIC RAILROAD OPERATING PROPERTY; THENCE NORTH 23°56'16" WEST 495.2 FEET, MORE OR LESS, TO THE WESTERLY BOUNDARY OF LOT 8; THENCE SOUTH 40°25'50" WEST 165.01 FEET TO THE POINT OF BEGINNING.

EXCEPT THEREFROM THAT PORTION THEREOF LYING WITHIN THE BOUNDARIES OF THAT CERTAIN TRACT OF LAND CONVEYED TO STUART D. WATTLES ET UX ETAL, BY DEED RECORDED UNDER RECORDING NO. 2771306 AND SUBSEQUENTLY CONVEYED TO THE PORT OF TACOMA BY DEED RECORDED UNDER RECORDING NO. 200701180922.

SITUATE IN THE CITY OF TACOMA, COUNTY OF PIERCE, STATE OF WASHINGTON.

PARCEL A DEED 200701180922
THOSE PORTIONS OF BLOCK 40 AND 40A AS SHOWN ON SUPPLEMENTAL SHEET 5A OF MAP OF TACOMA TIDELANDS, AS SURVEYED AND PLATTED BY THE BOARD OF TIDELAND APPRAISERS FOR PIERCE COUNTY, ACCORDING TO THE PLAT THEREOF RECORDED SEPTEMBER 14, 1895 IN THE OFFICE OF THE COUNTY AUDITOR, AND OF SECTION 4, TOWNSHIP 20 NORTH, RANGE 3 EAST OF THE WILLAMETTE MERIDIAN, DESCRIBED AS FOLLOWS:

COMMENCING AT A POINT ON THE EAST LINE OF THE CITY WATERWAY 689.02 FEET SOUTHERLY MEASURED ALONG THE EAST LINE OF CITY WATERWAY FROM ITS INTERSECTION WITH THE SOUTH LINE OF EAST 11TH STREET (FORMERLY SOUTH 11TH STREET); THENCE NORTH 02°38'08" WEST ALONG SAID EAST LINE 301.35 FEET; THENCE PARALLEL WITH THE SOUTH LINE OF SAID EAST 11TH STREET NORTH 81°14' EAST 402.312 FEET; THENCE ON A CURVE TO THE RIGHT HAVING A RADIUS OF 401.92 FEET A DISTANCE OF 203.11 FEET TO THE EASTERLY LINE OF A TRACT OF LAND CONVEYED TO THE PUGET SOUND IRON & STEEL WORKS BY DEED RECORDED UNDER RECORDING NUMBER 296522 AND THE TRUE POINT OF BEGINNING; THENCE ON SAID EASTERLY LINE SOUTH 24°51'32" EAST 112.453 FEET TO A LINE PARALLEL WITH AND DISTANCE 375 FEET NORTHERLY, MEASURED AT RIGHT ANGLES FROM THE CENTERLINE OF WHEELER–OSGOOD WATERWAY; THENCE SOUTH 77°05'14" EAST ALONG SAID PARALLEL LINE A DISTANCE OF 546.07 FEET TO A POINT OF CURVE; THENCE ALONG A CURVE TO THE RIGHT, HAVING A RADIUS OF 286.28 FEET, THROUGH A CENTRAL ANGLE OF 53°08'48" A DISTANCE OF 265.55 FEET; THENCE NORTH 23°56'26" WEST TO A POINT ON SAID SOUTH LINE OF EAST 11TH STREET 1039.72 FEET EASTERLY OF SAID EAST LINE OF CITY WATERWAY; THENCE WESTERLY ON SAID SOUTH LINE OF EAST 11TH STREET 580.884 FEET; THENCE SOUTH 24°51'32" EAST ALONG SAID EASTERLY LINE OF THE PUGET SOUND IRON & STEEL WORKS TRACT TO THE POINT OF BEGINNING;

TOGETHER WITH THAT PORTION OF VACATED EAST 11TH STREET ADJOINING OR ABUTTING THEREON, WHICH UPON VACATION ATTACHED TO SAID PREMISES BY OPERATION OF LAW, AS VACATED BY THE CITY OF TACOMA ORDINANCE NO. 21230 AND RECORDED UNDER RECORDING NUMBER 2789313;

EXCEPT THE FOLLOWING DESCRIBED PROPERTY:

BEGINNING AT A POINT ON THE SOUTH LINE OF SOUTH 11TH STREET IN THE CITY OF TACOMA, 1039.72 FEET EASTERLY OF ITS POINT OF INTERSECTION WITH THE EAST LINE OF THE CITY WATERWAY; THENCE WESTERLY ALONG SAID SOUTH LINE OF SOUTH 11TH STREET 247.82 FEET; THENCE SOUTHEASTERLY ON A LINE FORMING AN ANGLE OF 73°54'02" WITH SAID SOUTH LINE 158.4 FEET; THENCE NORTHEASTERLY AT RIGHT ANGLE 236.66 FEET; THENCE NORTHWESTERLY 89.69 FEET TO THE POINT OF BEGINNING;

ALSO EXCEPT THE FOLLOWING DESCRIBED PROPERTY:

COMMENCING AT A POINT ON THE SOUTH LINE OF EAST 11TH STREET (FORMERLY SOUTH 11TH STREET), 791.9 FEET EASTERLY OF ITS POINT OF INTERSECTION WITH THE EAST LINE OF THE CITY WATERWAY; THENCE SOUTHEASTERLY ON A LINE HEREINAFTER REFERRED TO AS LINE "A", FORMING AN ANGLE OF 73°54'02" TO THE RIGHT WITH SAID SOUTH STREET LINE, 208.4 FEET TO THE TRUE POINT OF BEGINNING; THENCE NORTHWESTERLY RETRACING SAID LAST NAMED LINE "A" 50 FEET; THENCE NORTHEASTERLY AT RIGHT ANGLES 236.66 FEET; THENCE SOUTHEASTERLY ON AN ANGEL OF 90°55'11" TO THE RIGHT, 50.02 FEET; THENCE SOUTHWESTERLY ON A STRAIGHT LINE 235.86 FEET, MORE OR LESS, TO THE TRUE POINT OF BEGINNING.

PARCEL B DEED 200701180922
THOSE PORTIONS OF BLOCK 39, 40, 40A, 50, 50A AND 50B, AS SHOWN ON SUPPLEMENTAL SHEET 5A OF MAP OF TACOMA TIDELANDS, AS SURVEYED AND PLATTED BY THE BOARD OF TIDELAND APPRAISERS FOR PIERCE COUNTY, ACCORDING TO THE PLAT THEREOF RECORDED SEPTEMBER 14, 1895 IN THE OFFICE OF THE COUNTY AUDITOR, AND OF SECTION 4, TOWNSHIP 20 NORTH, RANGE 3 EAST OF THE WILLAMETTE MERIDIAN, DESCRIBED AS FOLLOWS:

BEGINNING AT A POINT ON THE EAST LINE OF THE CITY WATERWAY 689.02 FEET SOUTHERLY MEASURED ALONG SAID EAST LINE OF CITY WATERWAY, FROM ITS INTERSECTION WITH THE SOUTH LINE OF SAID EAST 11TH STREET (FORMERLY SOUTH 11TH STREET); THENCE NORTH 02°38'08" WEST ALONG SAID EAST LINE, 301.35 FEET; THENCE PARALLEL WITH THE SOUTH LINE OF SAID EAST 11TH STREET, NORTH 81°14' EAST 402.312 FEET; THENCE ON A CURVE TO THE RIGHT HAVING A RADIUS OF 401.92 FEET, A DISTANCE OF 203.11 FEET TO THE EASTERLY LINE OF A TRACT OF LAND CONVEYED TO THE PUGET SOUND IRON & STEEL WORKS BY DEED RECORDED UNDER RECORDING NUMBER 296522; THENCE ON SAID EASTERLY LINE SOUTH 24°51'32" EAST 112.453 FEET TO A LINE PARALLEL WITH AND DISTANT 375 FEET NORTHERLY, MEASURED AT RIGHT ANGLES FROM THE CENTERLINE OF WHEELER–OSGOOD WATERWAY; THENCE SOUTH 77°05'14" EAST ALONG SAID PARALLEL LINE A DISTANCE OF 546.07 FEET TO A POINT OF CURVE; THENCE ALONG A CURVE TO THE RIGHT, HAVING A RADIUS OF 286.28 FEET, THROUGH A CENTRAL ANGLE OF 53°08'48" A DISTANCE OF 265.55 FEET; THENCE SOUTH 23°56'26" EAST 4.95 FEET; THENCE SOUTH 23°56'26" EAST TO A POINT IN THE MOST SOUTHERLY LINE OF THE EASTERLY END OF SAID WHEELER–OSGOOD WATERWAY, AS DESCRIBED IN DEED EXECUTED BY THE NORTHERN PACIFIC RAILWAY COMPANY, RECORDED UNDER RECORDING NUMBER 1799168; THENCE SOUTHWESTERLY ALONG SAID MOST SOUTHERLY LINE TO ITS INTERSECTION WITH THE CENTERLINE TO ITS INTERSECTION WITH OSGOOD WATERWAY; THENCE WESTERLY ALONG SAID CENTERLINE TO ITS INTERSECTION WITH THE EXTENDED EASTERLY LINE OF SAID TRACT CONVEYED TO THE PUGET SOUND IRON & STEEL WORKS. THENCE NORTH 77°05'09" WEST 851.374 FEET TO THE POINT OF BEGINNING.

ALL SITUATE IN THE CITY OF TACOMA, COUNTY OF PIERCE, STATE OF WASHINGTON.

NOTES

1. HORIZONTAL DATUM IS IDENTICAL TO THAT CERTAIN ALTA/ACSM LAND TITLE SURVEY, PREPARED BY SITTS AND HILL ENGINEERS DATED JUNE 26, 2003 AS PROVIDED BY THE PORT OF TACOMA.

2. BASIS OF BEARINGS: NORTH 23°30'01 WEST BETWEEN TWO ENCASED MONUMENTS IN CENTER OF EAST D STREET. SEE MAP FOR LOCATIONS.

3. VERTICAL DATUM: MLLW BASED ON PORT OF TACOMA SURVEY CONTROL MAP BY HUITT–ZOLLARS DATED NOVEMBER 4TH, 2002.

4. FIELD WORK PERFORMED IN JANUARY, FEBRUARY, MARCH AND APRIL OF 2007 USING LIECA 1103 AND TRIMBLE GPS EQUIPMENT.

5. ALL MONUMENTS AND PROPERTY CORNERS SHOWN ON THIS SURVEY WERE FOUND IN JANUARY 2007.

6. THE CENTERLINE OF THE 20–FOOT WIDE EASEMENT FOR SPUR TRACK WAS BASED UPON AN AS–BUILT LOCATION OF THE EXISTING RAIL LINE.

LEGAL DESCRIPTION

PARCEL A

THOSE PORTIONS OF BLOCKS 40 AND 40A AS SHOWN ON SUPPLEMENTAL SHEET 5 A OF MAP OF TACOMA TIDELANDS, AS SURVEYED AND PLATTED BY THE BOARD OF TIDELAND APPRAISERS FOR PIERCE COUNTY, ACCORDING TO PLAT FILED FOR RECORD SEPTEMBER 14, 1895, IN THE OFFICE OF THE COUNTY AUDITOR, AND SECTION 4, TOWNSHIP 20 NORTH, RANGE 3 EAST, W.M., IN PIERCE COUNTY, WASHINGTON, DESCRIBED AS FOLLOWS:

COMMENCING AT A POINT ON THE EAST LINE OF THE CITY WATERWAY 689.02 FEET SOUTHERLY MEASURED ALONG THE EAST LINE OF CITY WATERWAY, FROM ITS INTERSECTION WITH THE SOUTH LINE OF EAST 11TH STREET (FORMERLY SOUTH 11TH STREET);

THENCE NORTH 2°38'08" WEST ALONG SAID EAST LINE 301.35 FEET;

THENCE PARALLEL WITH THE SOUTH LINE OF SAID EAST 11TH STREET NORTH 81°14' EAST 402.312 FEET;

THENCE ON A CURVE TO THE RIGHT, HAVING A RADIUS OF 401.92 FEET A DISTANCE OF 203.11 FEET TO THE EASTERLY LINE OF A TRACT OF LAND CONVEYED TO THE PUGET SOUND IRON AND STEEL WORKS BY DEED RECORDED UNDER RECORDING NO. 296522 AND THE TRUE POINT OF BEGINNING;

THENCE ON SAID EASTERLY LINE SOUTH 24°51'32" EAST 112.453 FEET TO A LINE PARALLEL WITH AND DISTANCE 375 FEET NORTHERLY, MEASURED AT RIGHT ANGLES FROM THE CENTER LINE OF WHEELER–OSGOOD WATERWAY;

THENCE SOUTH 77°05'14" EAST ALONG SAID PARALLEL LINE A DISTANCE OF 546.07 FEET TO A POINT OF CURVE;

THENCE ALONG A CURVE TO THE RIGHT, HAVING A RADIUS OF 286.28 FEET, THROUGH AN ANGLE OF 53°08'48" A DISTANCE OF 265.55 FEET;

THENCE NORTH 23°56'26" WEST TO A POINT ON SAID SOUTH LINE OF EAST 11TH STREET 1039.72 FEET EASTERLY OF SAID EAST LINE OF CITY WATERWAY;

THENCE WESTERLY ON SAID SOUTH LINE OF EAST 11TH STREET 580.884 FEET:

THENCE SOUTH 24°51'32" EAST ALONG SAID EASTERLY LINE OF THE PUGET SOUND IRON AND STEEL WORKS TRACT TO THE POINT OF BEGINNING;

TOGETHER WITH THAT PORTION OF VACATED EAST 11TH STREET ADJOINING OR ABUTTING THEREON, WHICH UPON VACATION, ATTACHED TO SAID PREMISES BY OPERATION OF LAW, AS VACATED BY CITY OF TACOMA ORDINANCE NO. 21230 RECORDED UNDER RECORDING NO. 2789313;

EXCEPT THE FOLLOWING DESCRIBED PROPERTY:

BEGINNING AT A POINT ON THE SOUTH LINE OF SOUTH 11TH STREET IN THE CITY OF TACOMA, 1039.72 FEET EASTERLY OF ITS POINT OF INTERSECTION WITH THE EAST LINE OF THE CITY WATERWAY;

THENCE WESTERLY ALONG SAID SOUTH LINE OF SOUTH 11TH STREET 247.82 FEET;

THENCE SOUTHEASTERLY ON A LINE FORMING AN ANGLE OF 7°54'02" WITH THE SAID SOUTH LINE 158.4 FEET;

THENCE NORTHEASTERLY AT RIGHT ANGLE 236.66 FEET;

THENCE NORTHWESTERLY 89.69 FEET TO THE POINT OF BEGINNING;

ALSO EXCEPT THE FOLLOWING DESCRIBED PROPERTY:

COMMENCING AT A POINT ON THE SOUTH LINE OF EAST 11TH STREET (FORMERLY SOUTH 11TH STREET), 791.9 FEET EASTERLY OF ITS POINT OF INTERSECTION WITH THE EAST LINE OF THE CITY WATERWAY;

THENCE SOUTHEASTERLY ON A LINE HEREINAFTER REFERRED TO A LINE "A", FORMING AN ANGLE OF 7°54'02" TO THE RIGHT WITH SAID SOUTH STREET LINE, 208.4 FEET TO THE TRUE POINT OF BEGINNING;

THENCE NORTHWESTERLY RETRACING SAID LAST NAMED LINE "A" 50 FEET;

THENCE NORTHEASTERLY AT RIGHT ANGLES 236.66 FEET;

THENCE SOUTHEASTERLY ON AN ANGLE OF 90°55'11" TO RIGHT, 50.02 FEET;

THENCE SOUTHWESTERLY ON A STRAIGHT LINE 235.86 FEET, MORE OR LESS, TO THE POINT OF BEGINNING.

PARCEL B

THOSE PORTIONS OF BLOCKS 39, 40, 40A, 50, 50A AND 50B AS SHOWN ON SUPPLEMENTAL SHEET 5A OF MAP OF TACOMA TIDELANDS, AS SURVEYED AND PLATTED BY THE BOARD OF TIDELAND APPRAISERS FOR PIERCE COUNTY, ACCORDING TO PLAT FILED FOR RECORD SEPTEMBER 14, 1895 IN THE OFFICE OF THE COUNTY AUDITOR, AND OF SECTION 4, TOWNSHIP 20 NORTH, RANGE 3 EAST, W.M., IN PIERCE COUNTY, WASHINGTON, DESCRIBED AS FOLLOWS:

BEGINNING AT A POINT ON THE EAST LINE OF THE CITY WATERWAY 689.02 FEET SOUTHERLY MEASURED ALONG SAID EAST LINE OF CITY WATERWAY, FROM ITS INTERSECTIONS WITH THE SOUTH LINE OF EAST 11TH STREET (FORMERLY SOUTH 11TH STREET);

THENCE NORTH 2°38'08" WEST ALONG SAID EAST LINE, 301.35 FEET;

THENCE PARALLEL WITH THE SOUTH LINE OF SAID EAST 11TH STREET, NORTH 81°14' EAST 402.312 FEET;

THENCE ON A CURVE TO THE RIGHT, HAVING A RADIUS OF 401.92 FEET, A DISTANCE OF 203.11 FEET TO THE EASTERLY LINE OF A TRACT OF LINE CONVEYED TO THE PUGET SOUND IRON AND STEEL WORKS BY DEED RECORDED UNDER RECORDING NO. 296522;

THENCE ON SAID EASTERLY LINE SOUTH 24°51'32" EAST 112.453 FEET TO A LINE PARALLEL WITH AND DISTANT 375 FEET NORTHERLY, MEASURED AT RIGHT ANGLES FROM THE CENTER LINE OF WHEELER–OSGOOD WATERWAY;

THENCE SOUTH 77°05'14" EAST ALONG SAID PARALLEL LINE A DISTANCE OF 546.07 FEET TO A POINT OF CURVE;

THENCE ALONG A CURVE TO THE RIGHT, HAVING A RADIUS OF 286.28 FEET, THROUGH AN ANGLE OF 53°08'48", A DISTANCE OF 265.55 FEET;

THENCE SOUTH 23°56'26" EAST 4.95 FEET;

THENCE SOUTH 23°56'26" EAST TO A POINT IN THE MOST SOUTHERLY LINE OF THE EASTERLY END OF SAID WHEELER–OSGOOD WATERWAY, AS DESCRIBED IN DEED EXECUTED BY THE NORTHERN PACIFIC RAILWAY COMPANY, RECORDED UNDER RECORDING NO. 1799168;

THENCE SOUTHWESTERLY ALONG SAID MOST SOUTHERLY LINE TO ITS INTERSECTION WITH THE CENTER LINE TO ITS INTERSECTION WITH OSGOOD WATERWAY;

THENCE WESTERLY ALONG SAID CENTERLINE TO ITS INTERSECTION WITH THE EXTENDED EASTERLY LINE OF SAID TRACT CONVEYED TO THE PUGET SOUND IRON AND STEEL WORKS;

THENCE NORTH 77°05'09" WEST 851.374 FEET TO THE POINT OF BEGINNING.

CERTIFICATION

THIS IS TO CERTIFY THAT THIS MAP OR PLAT AND THE SURVEY ON WHICH IT IS BASED WERE MADE IN ACCORDANCE WITH "MINIMUM STANDARD DETAIL REQUIREMENTS FOR ALTA/ACSM LAND TITLE SURVEYS," JOINTLY ESTABLISHED AND ADOPTED BY ALTA, ACSM AND NSPS IN 1999, AND INCLUDES ITEMS 1, 2, 4–11A,14–16 OF TABLE A THEREOF. PURSUANT TO THE ACCURACY STANDARDS AS ADOPTED BY ALTA, NSPS, AND ACSM AND IN EFFECT ON THE DATE OF THIS CERTIFICATION, UNDERSIGNED FURTHER CERTIFIES THAT PROPER FIELD PROCEDURES, INSTRUMENTATION AND ADEQUATE SURVEY PERSONNEL WERE EMPLOYED IN ORDER TO ACHIEVE RESULTS COMPARABLE TO THOSE OUTLINED IN THE "MINIMUM ANGLE, DISTANCE AND CLOSURE REQUIREMENTS FOR SURVEY MEASUREMENTS WHICH CONTROL LAND BOUNDARIES FOR ALTA/ACSM LAND TITLE SURVEYS."

Complaint/Proposed Order Actual Date:	N/R
Final Order Issued Actual Date :	2008-08-13
Final Order Name :	Thea Foss Settlement (Penalty & SEP)

Complaint Summary

Respondent/Defendant Name :	City of Tacoma
Named in Complaint :	Y
Named in Final Order :	Y

SEP Category : Environmental Restoration and Protection

SEP Description :

The City shall undertake an Environmental Project which will consist of stewardship, maintenance and monitoring activities related to certain natural resource habitat restoration projects that were developed by the City as part of the NRD Consent Decree, by other parties under separate settlement agreements or by the Commencement Bay Natural Resource Trustees using funds obtained in settlement agreements with other parties. The specific activities associated with the Environmental Project will consist solely of activities distinct from and in addition to any obligations the City may have under the NRD Consent Decree, applicable permits or other legal authority.

Source Description

Source Description : RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description :

ICIS provides a database that, when complete, will contain enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

Source Description

Source Description :

The Superfund Enterprise Management System (SEMS) integrates multiple legacy systems into a comprehensive tracking and reporting tool, providing data on the inventory of active and archived hazardous waste sites evaluated by the Superfund program. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL.

Source Description

Source Description : The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
OSHA-OIS
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description

Source Description :

RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Program Details

Program :	HAZWASTE
Program ID :	WAH000016121
Interaction Type :	Industrial SW GP
Interaction Type Description :	General permit issued to industries to regulate the discharge of contaminated stormwater to state waters.
Status :	Inactive
Start Date :	2001-12-20
End Date :	2007-06-19
SIC :	N/R
NAICS :	N/R

Program :	HAZWASTE
Program ID :	WAH000016121
Interaction Type :	Hazardous Waste Generator
Interaction Type Description :	Facilities that generate any quantity of a dangerous waste. They may be classified as SQG, MQG, or LQG depending on hazardous waste generated for a given month.
Status :	Inactive
Start Date :	2001-09-20
End Date :	2001-09-21
SIC :	3446 - Architectural and Ornamental Metal Work
NAICS :	N/R

Source Description

Source Description :

RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :	AIR contains compliance and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies. AFS contains compliance and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies. CEDRI is the EPA Compliance and Emissions Data Reporting Interface and combines data about emissions source tests, continuous emissions monitoring, and compliance and emissions reports.
Source Description :	ICIS provides a database that, when complete, will contain enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring. The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality. The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Program Details

Program :	HAZWASTE
Program ID :	WAR000005538
Interaction Type :	Industrial SW GP
Interaction Type Description :	General permit issued to industries to regulate the discharge of contaminated stormwater to state waters.
Status :	Inactive
Start Date :	2001-12-28
End Date :	2007-09-20
SIC :	N/R
NAICS :	N/R

Program :	HAZWASTE
Program ID :	WAR000005538
Interaction Type :	Hazardous Waste Planner
Interaction Type Description :	Under Chapter 173-307 WAC, facilities that report under Section 313 of the Emergency Planning/Community Right-To-Know Act (EPCRA), or that generate more than 2,640 pounds of hazardous waste per year, must prepare Pollution Prevention Plans.
Status :	Inactive

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.
TRIS is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description
Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Program Details

Program :	HAZWASTE
Interaction Type :	Emergency/Haz Chem Rpt TIER2
Interaction Type Description :	Businesses that store 10,000 pounds or more of a hazardous chemical or 500 pounds or less, depending on the chemical, of an extremely hazardous chemical on site at any one time must report annually. Reports are sent to the State Emergency Response Commission (represented by Ecology) Local Emergency Planning Committees, and local fire departments for emergency planning. (product, not waste)
Status :	Inactive

Source Description

Source Description :

RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Interaction Type : Haz Waste Management Activity

Interaction Type Description : Facilities that are required to have a RCRA Site ID# but who do not generate and/or manage hazardous waste (XQG generator status). This includes transporters, used oil recyclers, and dangerous waste fuel marketers and burners.

Status : Inactive
Start Date : 2009-12-31
End Date : 2010-12-31
SIC : N/R
NAICS : N/R

Program : HAZWASTE
Program ID : WAH000031250
Interaction Type : Hazardous Waste Generator

Interaction Type Description : Facilities that generate any quantity of a dangerous waste. They may be classified as SQG, MQG, or LQG depending on hazardous waste generated for a given month.

Status : Inactive
Start Date : 2007-06-15
End Date : 2009-12-31
SIC : N/R

Waste Activity Monitoring

Report Cycle :	2013
Hazardous Waste Page Number :	1
Hazardous Waste Sub-Page Number :	1
BR Form :	GM
Waste Description :	MARINE IRONE WORKS TANKER TRUCK (2,232 GALLONS)
Primary NAICS :	71393 - Marinas
Source Code :	G44 - State program or voluntary cleanup
Form Code :	W113 - Other aqueous waste or wastewaters (fluid but not sludge)
Management Method :	H141 - The site receiving this waste stored/bulked and transferred the waste with no treatment or recovery (H010-H129), fuel blending (H061), or disposal (H131-H135) at that receiving site.
Generation Tons :	9.3077565
Managed Tons :	0
Shipped Tons :	9.3077565
Received Tons :	0
Receiver ID :	WAD020257945
Receiver State :	WA
Shipper ID :	WAH000031250

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description
Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.

Program Details

Program :	HAZWASTE
Program ID :	WAH000033917
Interaction Type :	Haz Waste Transfer Facility

Interaction Type Description :

A site owned, leased or operated by a transporter of regulated hazardous waste shipments where any of the following occurs: 1) receives wastes from another transporter, 2) transfers wastes from one transport vehicle to another, 3) transfers waste from one container to another, and 4) stores waste within a vehicle or on property for 10 days or less. Examples include a parking lot, warehouse, truck terminal, barge or steamship loading/unloading facility, or railroad spur loading/unloading facility.

Status :	Inactive
Start Date :	2008-10-24
End Date :	2009-04-23

Source Description

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.

Source Description

Source Description :

RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Source Description
Source Description :

RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Interaction Type :	LUST Facility
Interaction Type Description :	A leaking underground tank cleanup site being cleaned up with Ecology oversight or review.
Status :	Inactive
Start Date :	1997-08-04
End Date :	1999-01-21
SIC :	N/R
NAICS :	N/R
Program :	TOXICS
Program ID :	5928
Interaction Type :	Voluntary Cleanup Sites
Interaction Type Description :	For a fee, Ecology staff will review an independent cleanup report(s) and provide a written decision about the adequacy of the cleanup actions taken and described in the report.
Status :	Inactive
Start Date :	1999-01-20
End Date :	1999-01-21
SIC :	N/R
NAICS :	N/R
Program :	TOXICS
Program ID :	5928
Interaction Type :	Underground Storage Tank
Interaction Type Description :	Any one or combination of tanks (including connecting underground pipes) that is used to contain regulated substances and has a tank volume of ten percent or more beneath the surface of the ground. This term does not include any of the exempt UST systems specified in WAC 173-360-110(2) or any piping connected thereto. See WAC 173-360
Status :	Active
Start Date :	1973-07-10
End Date :	N/R
SIC :	N/R

Source Description
Source Description : RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.

Source Description

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description
Source Description : RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Source Description

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.

Source Description

Source Description : RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Program Details

Program :	HAZWASTE
Program ID :	WAD009260035
Interaction Type :	Industrial SW GP
Interaction Type Description :	General permit issued to industries to regulate the discharge of contaminated stormwater to state waters.
Status :	Inactive
Start Date :	1994-06-07
End Date :	2014-06-24
SIC :	N/R
NAICS :	N/R

Program :	HAZWASTE
Program ID :	WAD009260035
Interaction Type :	Hazardous Waste Generator
Interaction Type Description :	Facilities that generate any quantity of a dangerous waste. They may be classified as SQG, MQG, or LQG depending on hazardous waste generated for a given month.
Status :	Inactive
Start Date :	1988-05-11
End Date :	1991-08-27
SIC :	9999 - NONCLASSIFIABLE ESTABLISHMENTS
NAICS :	N/R

Source Description
Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Source Description

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Program Details

Program :	TOXICS
Program ID :	1545
Interaction Type :	Underground Storage Tank
Interaction Type Description :	Any one or combination of tanks (including connecting underground pipes) that is used to contain regulated substances and has a tank volume of ten percent or more beneath the surface of the ground. This term does not include any of the exempt UST systems specified in WAC 173-360-110(2) or any piping connected thereto. See WAC 173-360
Status :	Inactive
Start Date :	2000-03-20
End Date :	2000-03-21
SIC :	2672 - COATED AND LAMINATED PAPER, NOT ELSEWHERE CLASSIFIED
NAICS :	N/R

Source Description

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.

Source Description

Source Description :	AIR contains compliance and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies. AFS contains compliance and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies.
Source Description :	ICIS provides a database that, when complete, will contain enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
TRIS is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description :

The Emission Inventory System (EIS) maintains an inventory of large stationary sources and voluntarily-reported smaller sources of air point pollution emitters. It contains information about facility sites and their physical location, emission units, emission processes, release points, control approaches, and regulations. Facility inventory data are kept separate from the emissions data and have stable identifiers to improve continuity from year to year and to help identify duplicate or missing facilities.

EPA ID: N/R

ALL SITES - WA ***(cont.)***

Interaction Type Description :	Facilities that generate any quantity of a dangerous waste. They may be classified as SQG, MQG, or LQG depending on hazardous waste generated for a given month.
Status :	Inactive
Start Date :	1989-02-13
End Date :	1998-12-31
SIC :	2431 - MILLWORK
NAICS :	N/R
Program :	HAZWASTE
Program ID :	WAD009258229
Interaction Type :	Hazardous Waste Generator
Interaction Type Description :	Facilities that generate any quantity of a dangerous waste. They may be classified as SQG, MQG, or LQG depending on hazardous waste generated for a given month.

Program Details

Program : N/R
Program ID : N/R
Interaction Type : Independent Cleanup

Interaction Type Description : Any remedial action without department oversight or approval and not under an order or decree.

Status : Active
Start Date : 1996-10-16
End Date : N/R
SIC : 5171 - PETROLEUM BULK STATIONS AND TERMINALS
NAICS : N/R

Program : N/R
Program ID : N/R
Interaction Type : Emergency/Haz Chem Rpt TIER2

Interaction Type Description : Businesses that store 10,000 pounds or more of a hazardous chemical or 500 pounds or less, depending on the chemical, of an extremely hazardous chemical on site at any one time must report annually. Reports are sent to the State Emergency Response Commission (represented by Ecology) Local Emergency Planning Committees, and local fire departments for emergency planning. (product, not waste)

Status : Active
Start Date : 1988-01-01
End Date : N/R
SIC : 5171 - PETROLEUM BULK STATIONS AND TERMINALS
NAICS : N/R

Program : N/R
Program ID : N/R
Interaction Type : State Cleanup Site

Interaction Type Description : A site is being cleaned up under state regulations. Regulations include Model Toxics Control Act or its predecessors.

Status : Active
Start Date : 2009-01-14
End Date : N/R

Description of Incident :	WATER TANK VALVE/LEAKED DUE TO REMAINING OPEN
Last Date in Agency List :	2015-12-23

Incident Response Summary

Date Time Received :	1993-07-28 16:02:00
Date Time Completed :	1993-07-28 16:07:00
Call Type :	Incident
Source :	UNAVAILABLE
Responsible Company :	OLYMPIC CHEMICAL CORP.
Responsible Org Type :	PRIVATE ENTERPRISE
Responsible City :	TACOMA
Responsible State :	WA
Responsible Zip :	98402

Incident Details Summary

Remedial Action :	SHUT OFF SUMP PUMP AND USED VAC PUMP
Medium :	SOIL//AREA UNKNOWN
Medium Description :	LAND
Body of Water :	N/R
Weather Conditions :	N/R
Water Temperature :	N/R
Water Supply Contaminated :	N/R
Waterway Closed :	N/R
Waterway Description :	N/R

Source Description

Source Description : RCRAInfo is EPA’s comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description :

ICIS provides a database that, when complete, will contain enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The RMP database stores the risk management plans reported by companies that handle, manufacture, use, or store certain flammable or toxic substances, as required under section 112(r) of the Clean Air Act (CAA).

Source Description :

The database that supports the Toxic Substances Control Act (TSCA) of 1976, which provides EPA with authority to require reporting, record-keeping and testing requirements, and restrictions relating to chemical substances and/or mixtures. Certain substances are generally excluded from TSCA, including, among others, food, drugs, cosmetics and pesticides. TSCA addresses the production, importation, use, and disposal of specific chemicals including polychlorinated biphenyls (PCBs), asbestos, radon and lead-based paint.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. Source Description

Source Description :

ICIS provides a database that, when complete, will contain enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description

Source Description :

ICIS provides a database that, when complete, will contain enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description :

AIR contains compliance and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies.

Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.

Source Description
Source Description :

RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Source Description

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Source Description

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description

Source Description :

The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Program Details

Program :	SPILLS
Program ID :	N/R
Interaction Type :	Class 4 Facility
Interaction Type Description :	Applies to marinas and other small fueling facilities that transfer oil to non-recreation vessels that have a fuel capacity of less than 10,500 gallons. Full definition can be found in Washington Administrative Code (WAC) 173-180-020.
Status :	Active
Start Date :	2006-10-26
End Date :	N/R
SIC :	N/R
NAICS :	N/R

Program :	SPILLS
Program ID :	N/R
Interaction Type :	Boatyard GP
Interaction Type Description :	General permit issued to boatyards to regulate discharges of pollutants to state waters from boatyard construction, maintenance and repair activities
Status :	Active
Start Date :	1993-11-05
End Date :	N/R
SIC :	N/R

Source Description :

The NPDES module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Source Description

Source Description :

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.

Source Description
Source Description : All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database.
OSHA-OIS
Source Description : RCRAInfo is EPA's comprehensive information system that supports the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984 through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA. RCRAInfo also supports generation of the National Hazardous Waste Biennial Report. All generators and treatment, storage, and disposal facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years to support creation of the Biennial Report.
The WA-FSIS provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.
