What is the timeline to execute the contract?	See Attachment A of the RFP

For category A and B, do you expect it will be performed by different people or it can be performed by the same person?	Firms may submit proposals for either category or both.	B
Could you have a detailed description regarding other enterprise systems you have and their current relations with the GIS system? What is your plan for integration? Is there any system diagrams for us to look at so that we can provide more meaningful suggestions for enhancing the scope of services as required by "Work Approach"?
