

# Luxe Cabinet

## Instruction

### Setup instructions

1. Place the Exclusive Board on a table with the top facing down. Please place a clean blanket under it in order to avoid scratches to the wooden board.
2. Place this instruction on the underside of the board so that the instruction covers the complete board evenly.
3. Locate the four self-adhesive plastic foam mounts on the cut out areas.
4. Rotate the board and press it on the table so that the plastic foam mounts are evenly secured.
5. Now place the board on the Luxus Cabinet, adjust it so that the plastic foam mounts sit in the centre of the counterparts.

IMPORTANT: The board is now fixed laterally but can be removed at any time. If you wish to transport the system, please remove the board beforehand.

### Compatibility & operation

The Millennium Luxus Cabinet is provided for the operation of the following components:

1. Millennium Exclusive chessboard
2. Millennium M825 ChessVolt
3. Millennium M822 ChessLink

With this, the Exclusive Board becomes a full-featured E-board, which you can operate independent of the mains.

Using the outside switch you can switch the above-named components ON or OFF externally. The switch is illuminated as soon as the light is on the components are switched ON.

Note:

- See to it that the main switch of the ChessLink always remains ON.
- You absolutely require a ChessVolt in order to be able to use the electrical components of the system.

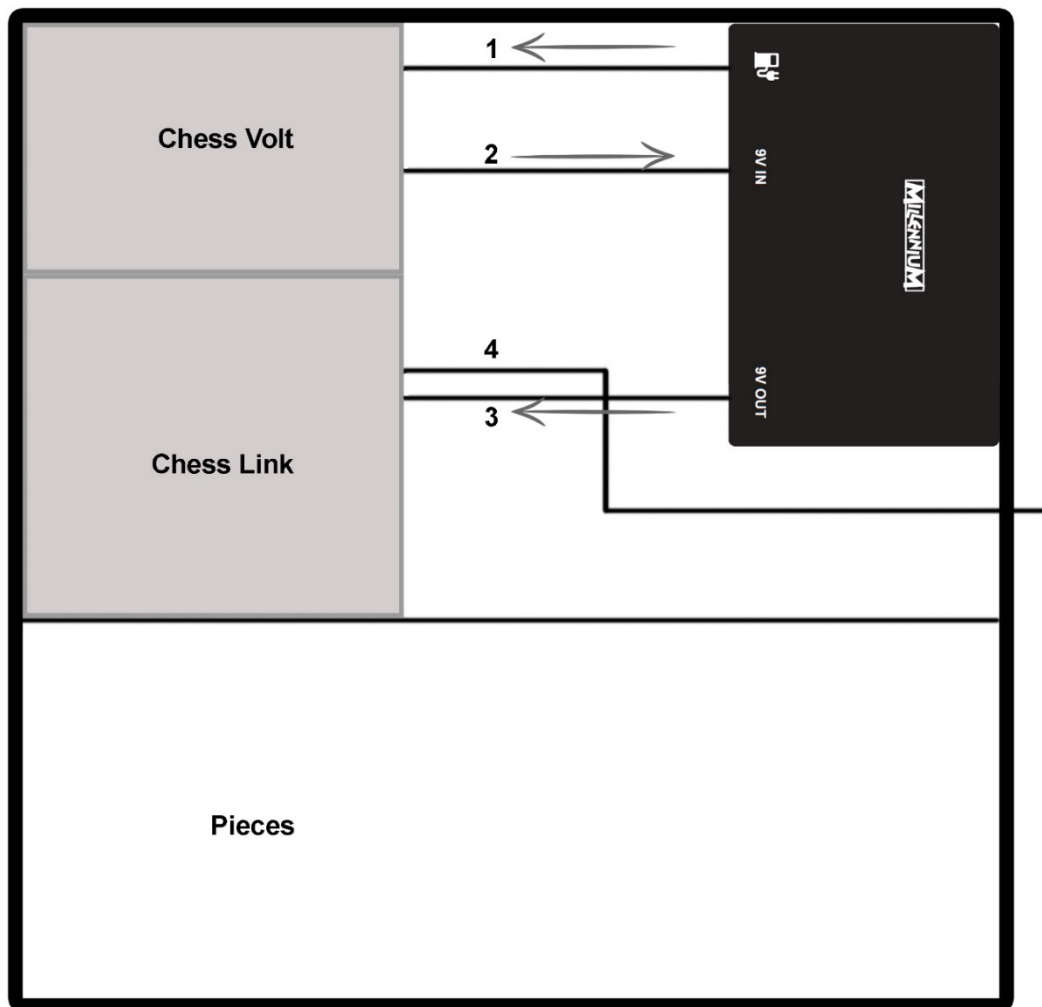

If you wish to connect the system to a chess computer module of type M823 or M820 proceed as follows:

1. Remove both connection cables (3 and 4) of the ChessLink in the drawer.
2. Lead power cable 3 out of the drawer and connect this to the chess computer module
3. Connect the chess computer module with the board as normal.

Now you can use the chess computer with the board as usual.

## Connect the electrical components

Please connect the device as follows:

Connect the system as follows:

1. Cable: Charging cable for the ChessVolt
2. Cable: Power supply from the ChessVolt for the Luxus Cabinet control module
3. Cable: Power supply from the ChessLink to the board
4. Cable: Data cable from the ChessLink to the board

Notes for the connection of the components:

1. You absolutely require a ChessVolt M825 in order to be able to use the electrical components of the system.
2. Switch ON the main switch of the ChessLink before assembly and always keep this switched ON
3. Use cable ties in order to stow the cable properly.
4. Feed the data cable through the drawer and box, before inserting the drawer into the box.

## Safety information, disposal and contact with the manufacturer

### Safety instructions

- Use exclusively original Millennium components as described in this manual, which are approved for the Millennium Exclusive 9V system.
- Please take note of the user manual for the necessary ancillary products M822 ChessLink and M825 ChessVolt.
- Switch OFF the system if you do not use it.
- Charge the inner ChessVolt regularly.
- Following the charging process disconnect the mains adaptor from the Luxus Cabinet,
- Use only the Millennium 9V mains adaptor which is supplied with this chess computer.

### Disposal

Dispose of packing materials in an environmentally friendly manner by using the relevant collection containers provided.

According to EC Directive 2012/19/EU, the device must be disposed of properly at the end of its service life. Suitable parts of the device will then be recycled, reducing environmental pollution. For more information, please contact your local waste disposal company or your municipal administration.
