Profile

With years of experience in my local theater, I've been working on honing my craft. My love for singing, dancing, piano, and the arts, has always been a core part of who I am. Acting allows me to tap into all those creative outlets, making it the perfect medium for self-expression. Throughout my years of experience in theater, I have come to realize that no role in a story is ever to be diminished. It's through those added layers of a story, where authenticity and human connection are created and a story comes to life. I'm excited about the opportunity to share my passions with others in the hopes to inspire and encourage.
