This unit is factory programmed to bypass Alpine's video procedure.

NOTE: This unit is factory programmed to bypass Alpine's video procedure. No programming is neccessary unless the unit has been previously programmed. Keep switch to off position and wire according to the diagram, using only the wires below.

DO NOT CONNECT any additional sources to the BLUE or WHITE wire of the TR-7, as this will cause damage to the unit. These outputs are designed to only connect directly to the ALPINE unit.

WARNING! It is dangerous (and illegal in most states) for the driver to watch the TV/Video monitor while driving the vehicle. The driver may be distracted from looking ahead and an accident could occur. Install the TR-7 only in RV and Marine applications where there is no parking/hand brake to interface to. Do not install the TR-7 where the driver may be able to view the monitor when driving.
