

As of July 1, 2020

Some medications require a prior authorization for coverage under your pharmacy benefit plan. This program requires prescribers to submit clinical information to help guide members and prescribers toward cost-effective and clinically appropriate medications for their health condition.

This document shows medications for which your plan may require prior authorization.

This document does not guarantee coverage of your medications. Some plans have specific coverage requirements or exclusions. Please refer to your plan document or call our Member Support Team at 844-454-5201 and we would be happy to help!

Your benefit document defines actual benefits available and may exclude coverage for certain drugs listed here. Check your benefit information to verify coverage or view your personal benefit information on our website. This list may contain trademarks or registered trademarks of pharmaceutical manufacturers that are not affiliated with your health plan. This list can change or expand from time to time without prior notice. When we list brand-name drugs, programs can also apply to any available generic equivalents.
