

# SSLive Training - Miami

Join the **SSLive** team at **DAS Audio HQ** for three days of free hands-on certified **SSLive** console training and mix workshops.

Our partners **DAS Audio** are hosting free **SSLive** console training days at their HQ in Miami. This three day event is your opportunity to experience first hand the impeccable sound and advanced workflow of **SSLive** consoles and become certified in **SSLive** console technology.

Each day offers a different course and you can ask to attend either or both training days. The Mixing Workshop is spread across two days due to the small groups you will be split into. Please select which day you are available via the 'Request A Place' form and an **SSLive** representative will contact you directly to confirm a time slot.
