AUDITOR'S
OFFICE

Dear Thurston County Voter:

I am proud to bring you the 2006 General Election Local Voters' Pamphlet. This year our office has made improvements in access to voting and information in elections. From the addition of ballot drop boxes that are open 24-hours a day to machines that enable people with special needs to vote secretly and independently, Thurston County voters have more options to cast a ballot in 2006.

The response to our ballot drop boxes in the Primary Election was outstanding. One in five voters used ballot drop boxes to return their ballots. The boxes will be open 24-hours a day during the General Election voting period beginning Wednesday, October 18 to November 7, election night, at 8:00 p.m. For a list of locations, please see page 14 of this pamphlet.

Voters also responded well to our new AutoMARK voting devices, which assist voters in marking their ballots. The voter brings the ballot that was received in the mail to one of the locations listed on page 2 or to a staffed drop box site listed on page 14. Once there, the voter may use the device to magnify the print on their ballot with a touch screen or listen to the contents of the ballot through headphones. The AutoMARK enables the voter to make choices, confirm those choices, and verify the voted ballot.

While any voter may use the device to vote, there are powerful implications for voters with special needs. Once the ballot is marked, it can be re-inserted into the machine so the voter can verify how the ballot was marked. This process allows many voters to vote secretly and independently for the first time in their lives. Please see page 2 for more information about this exciting technology.

We want you to be an informed voter, so we updated the look of the pamphlet to provide you more information in an easier to read format. I encourage you to take time to read them. Ballots will begin arriving on October 21, 2006.

Sincerely,

Kim Wyman

You must bring your ballot to vote!

What is AutoMARK™?

The AutoMARK is a voting assistance machine that enables voters who cannot otherwise read or mark their ballot to vote independently and secretly. Voters with visual impairments, cognitive or learning disabilities, illiteracy, or mobility impairments can use the machine to have their ballot read to them, magnify the print on the ballot, display the ballot in high contrast, and mark their ballot.

Welcome to Thurston County’s Email Ballot Program

The Thurston County Auditor’s Office remains committed to maximizing access to voting for all citizens. To this end, we offer our email ballot program.

How does an email ballot work? The ballot and instructions are received as Word documents via email. The voter prints out and votes his or her ballot, and mails it to the Auditor’s Office along with an original signature. We cannot accept electronic ballots and signatures.

When are email ballots sent? Email ballots are sent to the voter approximately 30 – 45 days prior to the election. In addition, a regular ballot is mailed via air mail (for overseas citizens) or regular mail (for individuals who are out of state but within the United States). Only one ballot is counted for each eligible voter.

Where can I receive my email ballot? Anywhere in the world, provided you have internet access, a printer, and an internet email address. We recommend you do not use a military address, as military email addresses often block email containing attachments.

County Assessor

POSITION DESCRIPTION

The assessor's primary duty is to determine, annually, the fair market value of all real and personal property for use as the basis upon which to calculate property taxes. State law requires that real property be inspected once every six years. For each year between physical inspections, property values are adjusted using appropriate statistical data. Personal property listings are provided each year by business owners for use in determining personal property values. The assessor is also responsible for property value exemption and reduction programs.

The amount of tax levied against the assessed property value is determined by a combination of factors including the State Constitution, the State Legislature, budgetary decisions by the Board of County Commissioners and other taxing jurisdictions, such as cities, schools, and fire districts, and by voter approved special levies.

Patricia Costello - Democrat

I am honored to serve as your County Assessor. The Assessor's office has an outstanding, customer-oriented staff. I am committed to continue the fair, accurate and uniform assessment of property in Thurston County. Customer service will remain paramount to the success of the office.

In 2004 we received the prestigious International Association of Assessing Officers' Public Information Program Award and in 2006 we have been nominated for their Distinguished Assessment Jurisdiction Award.

As your Assessor, I pledge to provide staff with the tools, the training, and the technology to meet the increased demands resulting from the growth in Thurston County. I will continue to meet with property owners about property values and the exemptions to which they are entitled and assure that taxpayers are treated fairly.

Please be assured that the integrity of the Assessor's office is in good hands. I would appreciate your vote to continue our exceptional work.

County Sheriff

POSITION DESCRIPTION

The basic duties of sheriff fall into four categories: law enforcement; jail facilities management; civil and legal processing; and emergency operations. Law enforcement responsibilities consist of arresting and detaining alleged law violators, keeping the peace, and enforcing the legal controls relating to pollution, hunting, firearms, fireworks, traffic, and watercraft activities.

The sheriff also maintains and operates county jail facilities; serves court orders, summons, and subpoenas; conducts the forced sales of all property and foreclosures; and assists in disaster emergencies (i.e., floods, earthquakes, etc.) and in search and rescue operations.

I have led community fights against sexual assaults, domestic violence, identity theft and methamphetamine labs. As your Sheriff I will add more deputies by downsizing management; modernize our response to crime through technology; implement proven treatment programs that reduce crime; and create more jail space for offenders who pose the greatest threat.

As Sheriff I will continue to build community partnerships that improve our safety. It is my honor to serve and protect the citizens of Thurston County. Thank you for voting and for your continued support. www.DanKimballforSheriff.com

Public Utility District Commissioner - District No. 1

POSITION DESCRIPTION

The Thurston Public Utility District (PUD) has three elected commissioners, serving six year terms. The PUD provides utility services and water planning to the customers of the approximately 150 water systems it currently owns and operates, including citizens in Thurston, Pierce, Lewis, Grays Harbor, and Mason counties.

The PUD is empowered to develop and operate any facilities necessary for the distribution of its utility services. In addition, the PUD can levy taxes against property within the district to raise funds. The PUD sets rates for the utility services of its customers. This commission meets the second and fourth Tuesdays of every month.

Joseph W. "Bud" Kerr - Nonpartisan

Bud is a leader who was elected to the Public Utilities Commission fourteen years ago. His top priority is an ample supply of safe clean drinking water at a reasonable price. He constantly strives to reduce electrical rates for Washington residents. He served as a member of the State Public Utility Association Water Committee and its Board of Directors.

Bud and his wife Pauline and their two sons have lived in Thurston County since 1979. His education includes a Bachelor's and Masters Degree. He is a graduate of Air Command Staff College and The Air War College.

During his military career as a pilot and commander he was awarded two Silver Stars, two Distinguished Flying Crosses and the Bronze Star. He retired as a colonel. I've served our people for twenty seven years in the military and twelve years on the utility commission. I hope I have earned your vote.

(360) 807-2009

Paul J. Pickett - Nonpartisan

When I was first elected six years ago, Thurston PUD owned one water system, which the PUD didn't even operate. Today Thurston PUD owns and operates about 150 water systems serving almost 3,000 customers, and is also actively helping with regional water planning.

How did the PUD make such amazing progress? It started with my vision of a PUD actively helping to provide residents with pure, dependable water in their homes. Under my leadership Thurston PUD adopted a business plan, hired its first staff, rented its first office, and expanded operations.

As an engineer with over 20 years experience in water resources, I'm uniquely qualified to serve you as Commissioner. I can help Thurston PUD improve the quality and efficiency of its operations and work cooperatively with local governments to solve water problems. I'd like your vote so I can continue this work.

Fire Protection District No. 5 - Black Lake

Proposition No. 1 - LEVY LID LIFT

The Board of Fire Commissioners of Thurston County Fire Protection District No. 5 adopted Resolution No. 06-01, concerning a proposition to increase the regular property tax rate. This proposition would authorize the District to increase its regular property tax levy rate to \$1.50 per one thousand dollars of assessed value to be levied in 2006 and collected in 2007 as provided in Resolution No. 06-01.

Should this proposition be:

☐ Approved

☐ Rejected

Statement For:

Let us Help You! Restore our funding...

Black Lake Fire Department generates 98% of its revenue from a tax levy based on the assessed value of the property in our district. The area covered by the district has seen unusually rapid growth, but the district services have been unable to keep up with the growth due to the 1% limitation established by Initiative 747.

Increased manning is at stake...

Our department has three career firefighter positions. Because of budget constraints, two of these positions are currently filled with temporary employees. While our volunteers will continue to be the backbone of our service, the fire district's goal is to assure the citizens of our community that we will maintain a minimum manning of at least one career firefighter on duty for emergency response.

What the money will be used for...

The current rate is \$1.35/per thousand assessed value. The restored levy rate would be \$1.50/per thousand assessed value. This is an increase of \$.15 or \$30.00 a year for a home valued at \$200,000. Funds generated from the "lid lift" will be used to hire at least two firefighters and thereby increase career staffing as well as provide necessary upgrades to our emergency equipment and improve response capabilities.

Continue your support...

Your district needs your help! We need to count on your support. Help us restore funding to the legal level and you will benefit from additional manning and upgraded equipment in your district. We *will* be there for you when you need us.

*Voters' Pamphlet Statement prepared by: Mike Patti,
Committee Chairman.*

Statement Against:

No one could be found to write a statement against the Fire Protection District No. 5 - Black Lake Proposition No. 1 - Levy Lid Lift.

Explanatory Statement:

Thurston County Fire Protection District No. 5, your Black Lake Fire Department, has placed a proposition on the November 7, 2006 ballot to authorize the property tax levy rate to return to \$1.50 per \$1,000 of assessed valuation. The proposition is presented to voters pursuant to Initiative 747, which otherwise limits property tax revenue to 101% of the previous year's revenue, regardless of the statutorily authorized dollar rate limitation of \$1.50.

This proposition meets the requirements of Initiative 747, which was enacted by the voters of the State of Washington in November of 2001, mandating that any increase in property tax revenue of more than 1% over the previous year be approved by the voters.

*Explanatory Statement prepared by Kinnon Williams,
Attorney for Black Lake Fire Department.*

Tanglewilde Park and Recreation District No. 1

Proposition No. 1 - REGULAR PROPERTY TAX LEVY

Shall the Tanglewilde Parks and Recreation District be authorized to impose regular property tax levies of \$0.45 or less per thousand dollars of assessed valuation for each of six consecutive years?

☐ Yes

☐ No

Statement For:

Tanglewilde’s Unique Parks and Pool are a Neighborhood Tradition.

Since 1963, the property owners of Tanglewilde have operated parks and a swimming pool where all ages can enjoy safe and wholesome recreation in our community. *A Parks and Recreation District consisting only of Tanglewilde residents was created, leaving property owners responsible for operational costs.*

The District Commissioners have voted to run a six year levy, *saving property owners money* by decreasing the rate over the term. In addition, biannual election costs would be eliminated.

This levy will result in a tax of \$0.45 per thousand dollars of assessed valuation to provide not more than \$51,000 in the first year. The total will not exceed the statutory maximum (currently 1%) in each of the next five years. The levy will run from 2007 until 2012.

Vote yes for our Parks and Pool Levy, and keep the tradition alive for the children and residents of our community.

Statement submitted by Bob Coker & Clarice Kish.

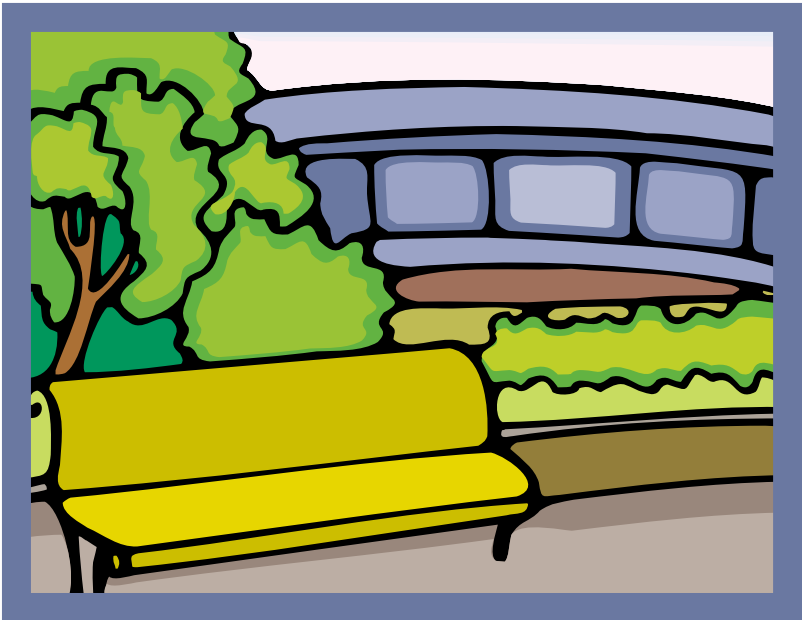

Statement Against:

No one could be found to write a statement against the Tanglewilde Park and Recreation District - Property Tax Levy.

Explanatory Statement:

The Tanglewilde Parks and Recreation District has placed a levy on the November 7, 2006 ballot that would authorize a six-year levy for the district at a rate not to exceed \$0.45 per thousand dollars of assessed property value. This would allow the district to collect approximately \$51,000 per year for each of the next six years. The district tax levy provides the funds for the maintenance and operations of the three parks and pool within Tanglewilde. Using \$210,000 as the average home value in the district, the total tax levy at \$0.45 per thousand dollars of assessed property value would be \$94.50.

Explanatory Statement approved by David Klumpp, Chief Civil Deputy, Thurston County Prosecuting Attorney’s Office.
