

COVID-19 Testing Locations

There are many locations in Thurston County offering COVID-19 testing. Some locations have drive-through or walk-up testing services while others offer appointments in their clinics. Since every location handles testing differently, **please call** ahead of time.

We encourage anyone seeking testing to contact their health care provider first. Many local providers are offering COVID-19 testing to their patients.

Who should be tested for COVID-19? Use the CDC Self-Checker tool: <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/coronavirus-self-checker.html>.

- People who have [symptoms of COVID-19](#).
- People who have come into close contact with someone with COVID-19 should get tested 3-5 days after exposure. People who have tested positive for COVID-19 within the past 30 days are recommended to test for COVID-19 only if they have symptoms.
- People who have been asked or referred to get testing by their healthcare provider, state, tribal, or local health department.

****Please note that individuals who have tested positive for COVID-19 within 90 days should use an antigen test when testing for COVID-19.*

While awaiting test results, stay home and away from others to prevent the spread of COVID-19 at your home and in the community. For more information about COVID-19 visit: www.thurstoncountywa.gov/phss/covid-19

For instructions on self-testing please use the Washington State Department of Health guidance: <https://doh.wa.gov/sites/default/files/2022-06/420-360-SARSCoV2SelfTesting.pdf>
