### Does this request include federal, state, or private grants?

Grant Funded? None

Grantor and timeframe

### Does this request affect current positions or propose new positions?

HR Payroll e-mailed? No Position Impact None

Current position numbers affected

### What do you need and why? Include any unexpected and external requirements.

Statement of Need

Water and Sewer Utilities is requesting \$100K this biennium for the Grand Mound Water Infrastructure Improvement Program (CP #94519). This program provides funding to maintain, repair, and replace failing and aging infrastructure. While projects vary by year, they include: water meter replacements, reservoir maintenance, watermain assessment, watermain repair/replacement, fire hydrant repair/replacement, pumping system repair/replacement, and repair/replacement of other water system components.

### How will this change the performance of your office or department?

Statement of Need

The water system will experience less periodic disruptions in service to customers. In addition, the utility can plan for recurring costs such as meter replacements, and equipment replacements.

## Expenditure, FTE and revenue assumptions plus current budget level

### Assumptions

The requested amount for these bundled projects was determined from historical repair, replacement, and maintenance costs and projects planned for the biennium. The costs also reflect expected equipment replacements based on known service life.

### Current Budget Level

\$0

## What happens if this isn't funded? Are there other options?

### Impacts and Alternatives

The alternative is to be reactive to system failures (which would still result in capital expenditure). This could result in disruption to service, regulatory action, and a threat to public health.

## How does this request affect other offices and departments?

Impact to Other Departments                      None

Which Other Departments are Affected?

Operating Transfer Needed?                      No

Operating Transfer Coding and Amount
