What do you need and why? Include any unexpected and external requirements.

Statement of Need

The Stormwater Utility is requesting an increase of \$900K for the Meadows Subdivision Ponds Retrofit Project (CP #27W17) for a total project budget of \$1.818M. Since initial scoping efforts for this project, the team has identified the need for additional rehabilitation of conveyance pipes in the Meadows Subdivision. These additional improvements will capitalize on efficiencies while we have a contractor retrofitting the ponds (the original project scope). Funding for the project includes a \$580K+ Department of Ecology grant.

The Meadows subdivision and associated ponds were built in the mid-1980s to the stormwater flow control standards current at the time. These standards do not meet the current standards for flow control. This project will retrofit the existing Meadows Subdivision Pond 4C by regrading the site and replacing inlet and outlet structures to increase flow control performance. Additionally, the project will upgrade/rehab legacy conveyance pipes reaching the end of their serviceable life.

How will this change the performance of your office or department?

Statement of Need

This system ultimately discharges to Little McAllister Creek. This project improves stormwater run off to the system, especially during larger storm events. If the project is not completed, then high flows generated in larger storm events will continue to degrade Little McAllister Creek and McAllister Creek.

Expenditure, FTE and revenue assumptions plus current budget level

Assumptions

Cost increase was determined by calculating a price per lineal foot of rehabbed/replaced stormwater conveyance pipe multiplied by estimated linear feet of pipe.

Current Budget Level

\$918,000

What happens if this isn't funded? Are there other options?

Impacts and Alternatives

If this portion of the project scope is not funded, the County may retrofit ponds, only to have pipes fail down the road, which would require emergency repair work.

How does this request affect other offices and departments?

| Impact to | Other | Departments | None | |
