The Thurston County Coroner's Office

The Thurston County Coroner's Office investigates sudden, violent, unexpected, and suspicious deaths that occur in Thurston County. Deputy Coroners are medicolegal death investigators and respond to death scenes at any hour and anywhere within the boundaries of Thurston County. The Coroner's Office determines cause and manner of death after a complete investigation and postmortem examination, if required. In addition, the Coroner's Office provides cause and manner of death for the death certificate. Complete findings of the death investigation are distributed to families and law enforcement agencies as appropriate.

The main duties of the Coroner's Office are to determine the cause and manner of death. The cause of death is the disease process or injury that resulted in death. There are thousands of diseases and injuries that may result in death. The manner of death is a classification in which a determination is made regarding whether the death resulted from natural causes, homicide, suicide, or accident. On occasion, the manner of death is classified as undetermined.

Information collected during the investigation helps clarify the circumstances, such as the sequence of events prior to death. Evidence collected during an investigation and/or postmortem examination may help lead to the arrest or successful conviction of a suspect in a homicide case. Because deaths occur around the clock, Deputy Coroner Investigators are available 24 hours a day, 365 days per year.

With the skill and experience of the medicolegal death investigators and board-certified forensic pathologists, the quality of death investigations in Thurston County are among the best in the State. The death scene investigation reports by the Deputy Coroners are very thorough and supply comprehensive information to the pathologists.

Our Coroner and Deputy Coroners also extend their duties to the living by answering questions and addressing concerns regarding deaths within the county. Deputy Coroners are frequently in contact with family members of a deceased and assist them by providing appropriate answers regarding the circumstances of the death and directing next steps in making final arrangements for their loved one.

We extend our sincere gratitude to the Thurston County Board of Commissioners for their support of the Coroner's Office and the services we provide to the citizens of Thurston County.

Thurston County Coroner's Office Staff

Ladd Tremaine, MD
Forensic Pathologist

Types of Deaths Reportable to the Coroner's Office

The Revised Code of Washington (RCW) 68.50.010 mandates that specific types of death be referred to the Coroner

for investigation (see list below). These deaths include sudden and unexpected deaths, accidental deaths, and violent deaths. The Coroner has the authority under the law to order an autopsy at any time it is deemed necessary to determine or confirm the cause and manner of death.

Deaths Reportable to the Coroner:

- Violent deaths (e.g., strangulation, gunshot, stabbing, poisoning, etc.)
- Accidental deaths (e.g., falls, drowning, motor vehicle collisions, burns, overdose, etc.)
- Death of a prisoner (e.g., deaths in any county or city jail while imprisoned or in custody)
- Suspicious Circumstances (e.g., Unidentified bodies or events surrounding death)
- Deaths caused by unnatural or unlawful means
- Sudden and Unexpected deaths (e.g., all deaths during a surgical procedure, anesthesia-related, unexpected natural death, occupational-related deaths)
- Death due to a violent contagious disease or suspected violent contagious disease
- Death of a mother due to an abortion
- Unexpected infant deaths
- Without medical attendance; In cases of chronic illness, the attending physician may sign the death certificate
- When a decedent is not claimed by relatives or friends

The Coroner would determine if an autopsy is needed for any of the reportable deaths listed above.

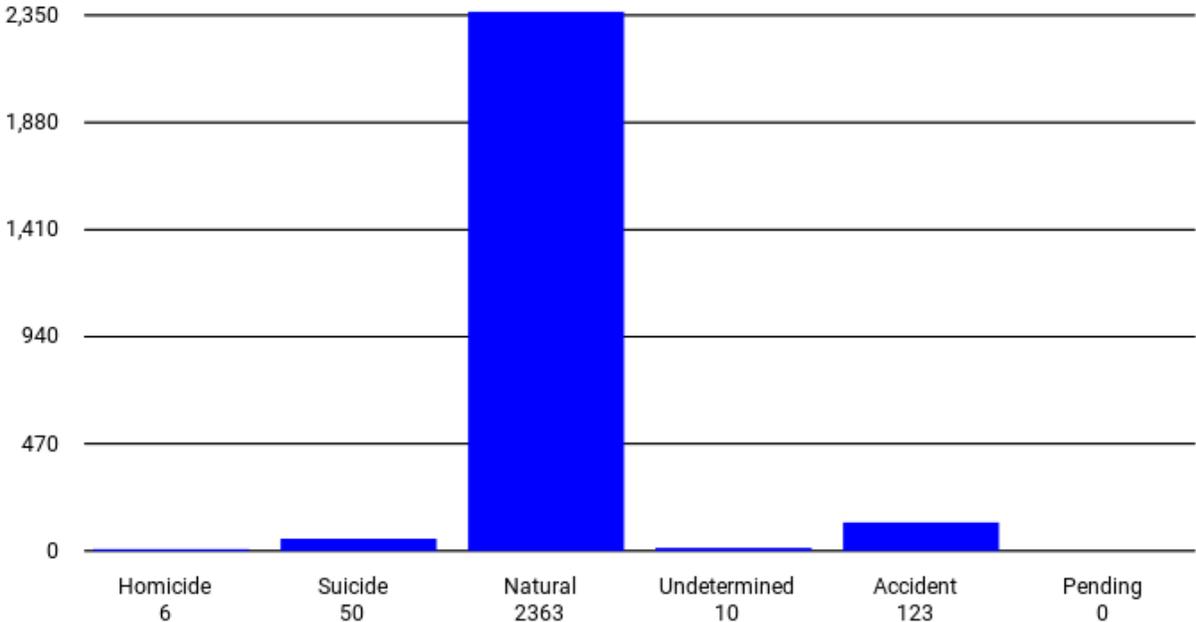

Thurston County Coroner's Office Information on County Deaths

2019 Population (approximate)	269,536
Deaths Reported to the Coroner	2553
Number of jurisdiction assumed deaths	317
Number of scene responses	222
Number of jurisdiction declined deaths	2236
