

THURSTON COUNTY COMMUNITY ORGANIZATIONS ACTIVE IN DISASTER

The Thurston COAD is a network focused on working collaboratively to enhance and strengthen preparedness education initiatives, response efforts, and support our community's recovery after disasters.

COAD currently meets every other month. We ask that members attend at least four meetings per year. Meetings are held both in-person and virtually.

COAD is made up of public, private, and non-governmental organizations. A list of our current members is on our website.
