**Parcel rate +
Number of acres up to 5 x per acre rate +
Number of acres over 5 x per acre rate
-Repeat for each parcel owned-**

Example: parcel with 15.25 acres

Parcel rate	\$5.50 +
First 5 acres x \$0.50/ea	\$2.50 +
10.25 acres over the first 5 acres x \$0.19/ea	\$1.95 =

Total rate for 15.25 acres = \$9.95
