Updated 10/29/2026

HAZARDOUS AND EXTREME WEATHER EVENTS

Thurston County may declare a Hazardous Weather Event, often referred to as a "code blue" for extreme weather and freezing temperatures.

The declaration releases funds set aside for cold and hazardous weather response.

For 2026-2027 hazardous weather response:

- OlyMAP is authorized to support people living outdoors with supplies and survival gear.
- InterFaith Works is authorized to set up overnight shelter at Sergio's Place when there is staff capacity to do so.

Sign up to recieve email alerts for hazardous and extreme weather declarations.

Or contact your nearest homeless service organization for the information.
