Xline HYB

Simple to use, designed to grow

Designed for those who want to approach the world of UV LED printing, the Xline Hybrid is compact, intuitive, and versatile. The hybrid system allows for dynamic workflows, seamlessly transitioning between both rigid and flexible materials.

Equipped with localized vacuums, materials such as vinyl, banners, PVC, foam boards, and composites are all compatible with the Xline Hybrid. Photo printing up to 2400 DPI with a 5 PI droplet size expands the range of applications from wide format signage to detailed displays. The Xline Hybrid is able to maintain this definition and clarity even on irregular surfaces up to 2 inches.

Automatic material height detection and high-speed bidirectional printing further streamline operations, reducing setup time and increasing productivity. Engineered with a robust industrial design and equipped with the latest printing technology, the Xline Hybrid delivers the quality-price ratio and ease of use needed for those who want to start or expand in UV printing.

Blazing Speeds, Unmatched Productivity

Reach production rates of up to 700 ft²/h without compromising on quality. The Xline KC keeps up with demanding schedules, delivering speed and precision in perfect harmony.

16 Configurable Print Heads

Featuring the innovative “Just Add Heads” design, the Xline platform allows users to scale print capabilities as their business grows—delivering a future-ready solution without compromising performance or efficiency.

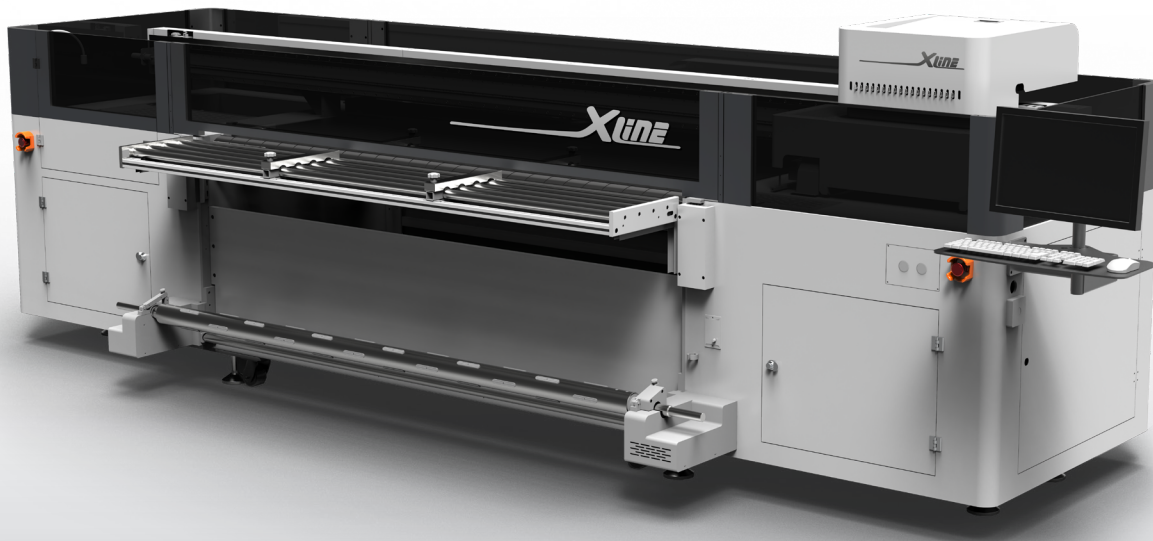

Flexible, Hybrid Technology

Expand your offerings beyond one media type. Direct printing to both rigid and roll media on a single machine makes this the ideal printing solution for startups and growing businesses.

Operational Simplicity

The Xline Hybrid delivers powerful production with intuitive single-operator control and streamlined operational simplicity that keeps your workflow moving effortlessly.

Machine Size	173 x 66 x 57 inches
Machine Weight	2866 lbs
Print Head	Ricoh Gen 6
Max Printhead Quantity	16
Drop Volume	5 Pl
Ink Set	CMYK + White + Lc + Lm + Varnish
Ink Type	UV -LED
Drying System	LED
Max Print Width	83 inches
Print Resolution	2400 dpi
Speed	700 ft ² /h 22 Boards/Hour
