

PLATINUM **QR** UV ROLL

High quality on every flexible media, without interruptions

The Platinum QR5 is the roll-to-roll UV LED solution of the PLATINUM line, designed to guarantee superior image quality, application flexibility and reliability on flexible media.

Designed to meet the needs of companies operating in the promotional, decorative and advertising sectors, QR5 is ideal for continuous production on PVC, vinyl, photographic paper, backlit film, fabrics and technical materials.

Thanks to a maximum resolution of 2880 dpi, the QR5 guarantees high clarity even for the finest details and the most sophisticated graphic designs. The use of UV LED technology allows for immediate drying times, lower heat emissions, and more efficient energy management.

Automatic material height detection and high-speed bidirectional printing further streamlines operations, reducing setup time and increasing productivity. Engineered with a robust industrial design and equipped with the latest printing technology, the Platinum QR5 delivers exceptional photo quality at maximum production output.

Blazing Speeds, Unmatched Productivity

Reach production rates of up to 1940 ft²/h without compromising on quality. The Platinum QR5 keeps up with demanding schedules, delivering speed and precision in perfect harmony.

16 Configurable Print Heads

Featuring the innovative “Just Add Heads” design, the QR5 platform allows users to scale print capabilities as their business grows—delivering a future-ready solution without compromising performance or efficiency.

Grand Format Printing Capabilities

Stretch your companies offerings to new limits and dive into grand format. Building banners, billboard signage, vehicle wraps and more are all capable with the QR5's 17.5 ft printing width.

Operational Simplicity

The Platinum QR5 delivers powerful production with intuitive single-operator control and streamlined operational simplicity that keeps your workflow moving effortlessly.
