

Signature 5 METER

Built for Uninterrupted Ultra-Wide Production

Built for large-scale roll-to-roll production, this 17.4 foot wide UV printer delivers exceptional performance across wide-format applications. With advanced UV LED curing technology, it ensures fast dry times, energy efficiency, and consistent high-quality results on flexible materials.

The Signature Series UV 5 Meter printer is the ultimate solution for professionals who demand excellence, delivering the power to print with precision and style. From signage to large-format advertising, soft signage to display solutions - print continuously on a wide range of flexible materials with vibrant colors and sharp detail. Designed for high-volume production, it delivers consistent quality at every stage.

Engineered for industrial environments and enhanced with smart automation, it ensures nonstop, high-efficiency production that is reliable, durable, and always ready to perform. More than just a printer, the Signature Series is your creative partner, helping you bring bold ideas to life and leave a lasting mark, one powerful print at a time.

Precision in Every Drop - 5 Picoliters

The ultra-fine 5 pL droplet size delivers sharper details, smoother gradients, and vibrant colors while optimizing ink distribution for enhanced efficiency.

Double-Sided Printing - Precision Alignment Technology

The system enables accurate double-sided printing on roll media. After printing the first side, the material can be reversed and an integrated camera registration system ensures precise alignment on the reverse side.

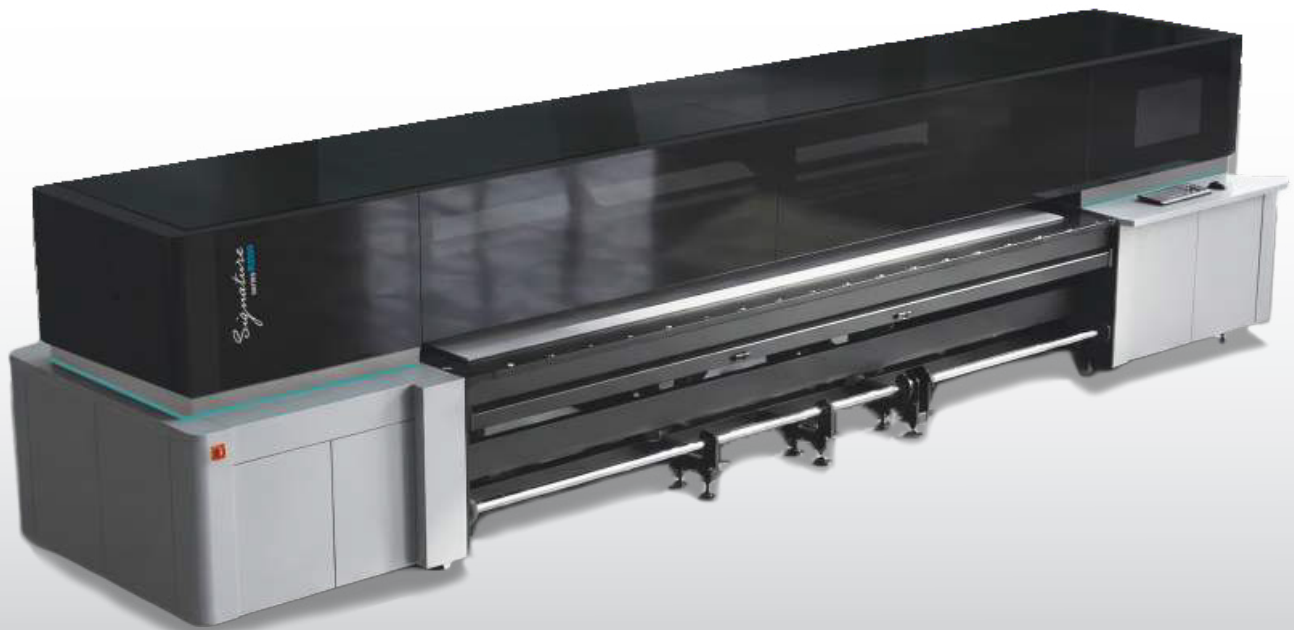

Exceptional Resolution - 2400 dpi Print Quality

With a print resolution of 2400 dpi, the Signature Series delivers stunningly sharp and vibrant colors, including on rigid surfaces. Every detail is captured with precision, setting a new standard in high-quality printing.

Advanced Multi-Roll System

The system allows flexible roll configuration based on your production needs. You can load a single 17.4' roll for full-width printing or use up to three smaller rolls simultaneously.

Machine Size	28.6 x 8 x 7 feet (343.7 x 95.7 x 82.7 inches)
Machine Weight	13670 lbs
