

**Safety** is the number one priority at EVRAZ Portland for all employees, visitors, and contractors. We understand **Safety Begins with Training**. All contractors must enroll in a third-party Learning Management System (LMS) and must complete the online “Contractor Safety Orientation” safety course before working at EVRAZ Portland and retake the training annually. The individual training takes 45 minutes to 1 hour and consists of an online safety video and quiz of the content. Successful completion of the course and quiz is required to get credit for the training in the online system. Our training course is provided by Multimedia Training Systems. The MTS LMS, will also provide your employees with a variety of optional safety courses to expand their knowledge. The contractor safety orientation course must be completed prior to entering the EVRAZ Main Gate. EVRAZ Security staff at the Main Gate verifies the training in the online system and issues contractor hard hat stickers. The hard hat stickers are valid for that calendar year and must be worn while working onsite.
