VitalKnowledge

Our real-time access reference libraries

Jason Green, Product Manager

October 16-18, 2019

What is VitalKnowledge?

What is it?

- VitalKnowledge includes:
 - ✓ Code Lookup
 - ✓ My Advisor
 - ✓ Library
 - ✓ Vital Alerts

What was VitalKnowledge designed to assist with?

- Continually changing complex reimbursement rules
- Increasing pressure to reduce A/R days
- Vague or missing reasons for denials/rejections
- Not having appropriate information required for claims research
- Inaccessible billing and coding rules for past dates of service

Who might use VitalKnowledge and when?

- ☐ CDM Manager/Coordinator
- ☐ Clinical Department Managers/Directors
- ☐ Coding Specialists
- ☐ Billing Specialists
- ☐ Financial Analysts
- ☐ Information Technology Experts
- ☐ Other

Billable Units Calculator (Main Screen)

Find allowed billable units across different doses, units and drug forms.

Makes complex conversions and lookups easy.

Billable Units Calculator (Drug Search)

Search by
Drug Name
Or
NDC Code

The screenshot displays the VitalWare Code Search application. On the left, the 'Code Validate' tab is active, showing a table for entering drug information. The 'Code Search' tab is also visible. The 'Search Options' panel on the right includes fields for 'Entity Selection' (set to VitalWare), 'Date Search' (From: 08/16/2019, To: End Date), 'Data Sets' (set to NDC/Pharmacy), and 'Search Text' (set to Vyxeos). The 'Term Results' table on the right lists three results for Vyxeos, including NDC codes and descriptions. The 'Code Search' button at the bottom left is highlighted.

Code Validate

Enter the total amount of drug administered and the amount of each drug administered. Please note that combination drugs and the TOTAL amount of both drugs administered of two active ingredients, daunorubicin and cytarabine. If a single vial is administered, 144 mg (44 mg plus 100 mg) calculate the billable units for this combination drug.

Billable Units Calculator (Key Fields)

Search for or enter the drug code/NDC, dose administered, units, any dose wasted, quantity, drug form and DOS and we will calculate the billable units.

HCPCS	Dose Administered	Unit	Dose Wasted	Unit	Quantity	Drug Form	DOS
J9153	100	mg	10	mg	1	Vial	08/16/2019
J8597	10	mg	0	mg	1	Tablet/Capsule	08/16/2019
							mm/dd/yyyy
							mm/dd/yyyy
							mm/dd/yyyy

All unit conversions and valid wasted doses will be applied.

Billable Units Calculator (Results)

Click Validate and you will be able to see each code and its calculated billable units, any wasted units, the primary drug name, and long description.

HCP	CS	Dose Administered	Unit	Dose Wasted	Unit	Quantity	Drug Form
J9153		100	mg	10	mg	1	Vial
J8597		10	mg	0	mg	1	Tablet/Capsule

We also have a notes field that our content team will enter related helpful information in.

The Office of Audit Services (OAS) OAS conducts audits of HHS programs and operations through its own resources or by overseeing audit work done by others. Audits examine the performance of HHS programs and/or its grantees and contractors in carrying out their respective responsibilities and are intended to provide independent assessments of HHS programs and operations. These assessments help reduce waste, abuse, and mismanagement and promote the economy, efficiency, and effectiveness of programs and operations throughout HHS.
