

# Compass Activity

I want to go on  
an adventure  
too!

Oak View is full of fun places to explore and learn about. Pull out your compass (or use a compass app on your phone) and follow the directions below to find some of Oak View's hidden treasures!

Start this activity in front of the Farm History Center.

Write down what you find  
in the boxes below!

To start your adventure, point your compass **West** and follow the path until you arrive at the Cotton Gin House. Turn due **North** to discover who keeps Oak View so green!

Turn **South-East** from the Cotton Gin House and follow the walkway past the cemetery. Once you reach the Main House head **South** to find a towering giant!

Set your compass due **East** and head straight. Follow the arrow on your compass until you find our fuzzy and feathered friends.

After saying "Hello" to Oak View's good friends, point your compass **North-East** and start walking. When you get to the road, stop and look both ways before continuing **East**. Stop when you find where we grow our sweet treats!

Now, turn **North-East** and follow the path between the trees. When you find the trail covered with leaves, follow it **North**. Once you pass our sparkling lake, continue **North-West** until you find a place to put on a show!

When you are ready to return to the Farm History Center, start heading **South-West**. Follow the path **South-East**, up up up until you pass through the veil of trees. Turn **South-West** once more and you will have completed our quest!

*Answer Key: Bee Hives, Beech Tree, Orchard, Fruit Orchard, Amphitheater*
