# 1 Introduction

## 1.1 Introduction

Wake County, North Carolina (“The County”) is seeking proposals from non-profit organizations to develop partnerships and to leverage resources to address county-wide needs through support of capital investments to address critical community issues. Throughout this request for proposals (“RFP”), the “Proposer” refers to non-profit organizations that submit proposals as described within this RFP.

## 1.2 Overview

### 1.2.1 Community Capital Projects

In FY 2002, the Board of Commissioners established a Community Capital Projects account to support capital investments in projects that address critical community issues.

The Community Capital Projects account is intended to accomplish the following goals:

1. Develop an increased capacity in Wake County for partnerships between public, nonprofit and for-profit sectors;
2. Address critical countywide needs in a way that is financially sustainable and effective; and,
3. Encourage sustainable financial plans that address countywide problems.

Community capital projects are intended to be capital projects and not funding for recurring operating needs. A capital project is defined as expenditures for facilities or projects that generally cost \$100,000 or more and typically require longer than one year to complete. The County does not intend to fund recurring operational needs that may arise as a result of a funded community capital project.

To accomplish these goals, projects are reviewed and selected to receive funding through a competitive, analytical process.

The selection of particular projects for funding in a given year is based primarily on whether a proposer’s business plan meets the following criteria: provides a comprehensive analysis of an unmet need in the countywide community; provides an analysis of alternative strategies for addressing the need and recommends a project plan; researches or demonstrates a clear link between the project initiatives and resolution of the countywide problem; includes a mechanism to track and measure success; and, demonstrates a need for County capital investment for project success.

Projects at a minimum must meet the following criteria:

1. Be a capital project.
2. Demonstrates a mix of funding sources (whether public, public/private, or public/private/not-for-profit).
3. Relies on County funding for no more than 40 percent of total project funding (with a goal of having the County’s contribution less than 40 percent)
4. The amount requested from the County shall be no more than \$2 million.

5. Describes an annual operating plan in detail and demonstrates a self-sufficient operating budget

#### 1.2.2 FY 2022 Process

On June 14, 2021, the Board of Commissioners approved the process for selecting projects to receive Community Capital funding. An evaluation team of Wake County staff and community representatives will conduct a review process that will begin with the distribution of Request for Proposals. Proposals will be due to Wake County on October 5, 2021 at 3:00 pm. The evaluation committee will review submittals and later that month, proposers will present their project requests to the evaluation committee. It is anticipated that the Board of Commissioners will receive recommendations at the November 8, 2021 work session.

### 1.3 Funding Available

The FY2022 Community Capital process is expected to award up to \$4 million. The maximum amount an organization may receive for a community capital project will be \$2 million.

Actual payment will be contingent upon approval of funding by the Board of County Commissioners, entering into a binding contractual agreement, filing an annual status report with the County, and County staff approval that all terms and conditions of the agreement are in good standing. It is desired that funds are disbursed on a reimbursement basis and that other sources of funding for the approved Community Capital project are obtained.

### 1.4 General Proposal Requirements

When responding to this RFP, please follow all instructions carefully. Please submit proposal contents according to the outline specified and submit documents according to the instructions. Failure to follow these instructions will be considered a non-responsive proposal and may result in immediate elimination from further consideration.

- 1.4.2 Proposals will be received by Wake County Government at the time noted on the cover page of this document. At that point, Wake County will close the receipt of proposals and begin the evaluation process. The only information that will be released will be the names of the respondent(s).

Wake County, solely at its option, may disclose the name(s) of any organizations being considered or elevated during the process. **Proposers are not to contact any county staff or elected official other than the staff contact identified in Section 2.1 in reference to the process due to the nature of a competitive environment and to protect the integrity of the RFP process.** As information becomes available and is relevant for release, that information will be shared with respondents.
