## POA Addresses the Issues of Our Time

- Elections, audits and uncovering a shaky, shady system
- Unity: nationally and locally. Uncovering a house divided
- Engagement versus apathy; standing to fight versus running scared, going into hiding.

Patriots of Arizona devoted a lot of pre-election programming to conservative candidates giving them opportunities to tell their stories and to educate our members on the policies having most concerned our Arizona electorate:

- **Nine separate examinations report massive election fraud** in Arizona while mainstream and social media propaganda tell the people otherwise and cause confusion.

- **Federal policy and local officials allow the flow of millions of unvetted illegals** into our country. This abdication of responsibility has resulted in skyrocketing criminal activities that include child and sex trafficking, sale of vital organs removed from living children and drug smuggling, particularly deadly fentanyl provided by Communist Chinese Party (CCP).
- **Rampant inflation and a collapsing economy** are fueled by Biden's destruction of America's energy independence and his imposing experimental job mandates and forcing false green deal initiatives.
- **After energy, government's next target for socialist control: transportation.** Biden signed an executive order to install "kill switches" on cars.

POA took a stand to fight for election protection and to demand legislation that will insure secure and honest elections.

- **Significant legislation is needed.**
- **Audits are necessary.**
- **Machines are the Trojan Horse .**
- **Security is more important than convenience .** It is the price of citizenship in a country that values liberty over tyranny and restrained government over "Big Brother" government.

For further information:

- Some of our 2022 candidates are still fighting in court to address massive fraud and voter disenfranchisement. To review candidates see them in Big Tent Event video below:

- **Summary of nine reports on Fraud and Corruption** that occurred during the Arizona 2020 election: [Machine Fraud Summary](#)
- **Chapter 1 in The Return by Dick Morris:** "What Really Happened in 2020, How the Democrats Do It" "The Democrats Won Because ... ." Mail in ballots, tabulating machines and hacked software.
- Blatant corruption in 2020 elections was **not addressed in 2022 midterm elections**. Result: more corruption and compromised elections with loss of key races, plus corruption at top of Republican National Party when party bosses did not fund Arizona candidates.
