

POPULATION CONTROL QUOTES

The world today has 6.8 billion people...that's headed up to about 9 billion. If we do a really great job on vaccines, health care, reproductive health services, we could lower that by perhaps 10 to 15 percent.

AZ QUOTES

A total population of 250-300 million people, a 95% decline from present levels, would be ideal.

Ted Turner

At the highest levels of the medical cartel, vaccines are a top priority because they cause a weakening of the immune system. I know that may be hard to accept, but its true. The medical cartel, at the highest level, is not out to help people, it is out to harm them, to weaken them. To kill them. At one point in my career, I had a long conversation with a man who occupied a high government position in an African nation. He told me that he was well aware of this. He told me that WHO is a front for these depopulation interests

Jon Rappoport

We are on the verge of a global transformation. All we need is the right major crisis.

David Rockefeller

In the event that I am reincarnated, I would like to return as a deadly virus, in order to contribute something to solve overpopulation.

Prince Philip

War and famine would not do. Instead, disease offered the most efficient and fastest way to kill the billions that must soon die if the population crisis is to be solved. AIDS is not an efficient killer because it is too slow. My favorite candidate for eliminating 90 percent of the world's population is airborne Ebola (Ebola Reston), because it is both highly lethal and it kills in days, instead of years. "We've got airborne diseases with 90 percent mortality in humans. Killing humans. Think about that. "You know, the bird flu's good, too. For everyone who survives, he will have to bury nine

Eric Pianka

Depopulation should be the highest priority of foreign policy towards the third world, because the US economy will require large and increasing amounts of minerals from abroad, especially from less developed countries

Henry A. Kissinger

The one thing man fears is the unknown. When presented with this scenario, individual rights will be willingly relinquished for the guarantee of their well-being granted to them by a World Government, a New World Order.

Henry A. Kissinger

In order to stabilize world population, we must eliminate 350,000 per day.

Jacques Yves Cousteau

Today, America would be outraged if U.N. troops entered Los Angeles to restore order. Tomorrow they will be grateful! This is especially true if they were told that there were an outside threat from beyond, whether real or promulgated, that threatened our very existence. It is then that all peoples of the world will plead to deliver them from this evil. The one thing every man fears is the unknown. When presented with this scenario, individual rights will be willingly relinquished for the guarantee of their well-being granted to them by the World Government

Henry A. Kissinger

There is a single theme behind all our work-we must reduce population levels. Either governments do it our way, through nice clean methods, or they will get the kinds of mess that we have in El Salvador, or in Iran or in Beirut. Population is a political problem. Once population is out of control, it requires authoritarian government, even fascism, to reduce it.

Thomas Ferguson

We must speak more clearly about sexuality, contraception, about abortion, about values that control population, because the ecological crisis, in short, is the population crisis. Cut the population by 90% and there aren't enough people left to do a great deal of ecological damage.

Mikhail Gorbachev

The drive of the Rockefellers and their allies is to create a one-world government combining super capitalism and Communism under the same tent, all under their control.... Do I mean conspiracy? Yes I do. I am convinced there is such a plot, international in scope, generations old in planning, and incredibly evil in intent.

Larry McDonald

One-fourth of humanity must be eliminated from the social body. We are in charge of God's selection process for planet Earth. He selects, we destroy. We are the riders of the pale horse, Death.

Barbara Marx Hubbard

No one will enter the New World Order unless he or she will make a pledge to worship Lucifer. No one will enter the New Age unless he will take a Luciferian Initiation

David Spangler

Adding a sterilant to drinking water or staple foods is a suggestion that seems to horrify people, most - than most proposals for involuntarily fertility control.

John Holdren

The common enemy of humanity is man. In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill. ...The real enemy then is humanity itself.

Aurelio Peccei

My three main goals would be to reduce human population to about 100 million worldwide, destroy the industrial infrastructure and see wilderness, with it's full complement of species, returning throughout the world.

David Foreman

Frankly I had thought that at the time Roe was decided, there was concern about population growth and particularly growth in populations that we don't want to have too many of.

Ruth Bader Ginsburg

"The Place of Women on the Court". Interview with Emily Bazelon, www.nytimes.com. July 7, 2009.

Another method (of depopulation) is disease infection through bio-weapons such as Ebola and AIDS, which are race targeting weapons. There is a weapon that can be put in a room where there are Black and White people, and it will kill only the Black and spare the White, because it is a genotype weapon that is designed for your genes, for your race, for your kind.

Louis Farrakhan

Whatever the price of the Chinese Revolution, it has obviously succeeded not only in producing more efficient and dedicated administration, but also in fostering high morale and community of purpose. The social experiment in China under Chairman Mao's leadership is one of the most important and successful in human history.

David Rockefeller

U.S. policy toward the third world should be one of depopulation

If a Black Death could be spread throughout the world once in every generation survivors could procreate freely without making the world too full.

The illegal we do immediately. The unconstitutional takes a little longer.

Childbearing should be a punishable crime against society, unless the parents hold a government license. All potential

parents should be required to use contraceptive chemicals, the government issuing antidotes to citizens chosen for childbearing.

David R. Brower

The development of a long-term sterilizing capsule that could be implanted under the skin and removed when pregnancy is desired opens additional possibilities for coercive fertility control. The capsule could be implanted at puberty and might be removable, with official permission, for a limited number of births.

John Holdren

"Mitt Romney Is Moving Close to Eugenics and Really Bad Beliefs" by Gary Anderson, www.businessinsider.com. January 22, 2013.

The Planetary Regime might be given responsibility for determining the optimum population for the world and for each region and for arbitrating various countries' shares within their regional limits. Control of population size might remain the responsibility of each government, but the Regime would have some power to enforce the agreed limits.

John Holdren

In South America, the government of Peru goes door to door pressuring women to be sterilized and they are funded by American tax dollars to do this

Mark Earley
