

I had this dream on March 4th or 5th.

I was driving down a snowy road.

- *She was Driving > She is the focus of attention and the one to be in control.*
- *White (Snow covered road) > "Deception, Pure Evil"*

I spun to the left, and then slid to the right side of the road. The car made an S shape slide.

- *Spun > "Lost Control"*
- *Left > "Rejection; Weakness of Man"*
- *Slid / Slide > "No Word in the Heart / Spiritual Adultery"*
- *'Right' side of the road > (Interpret Positively) > "Power of God Revealed"*
- *Car Wreck > "Conflict, Mistake"*

- *Something in her life is not going well.*
- *'Rejection' left a hole in her heart. This opened her up to deception. As a result she's driving the road filled with Deception, and making decisions on the basis of past wounds, hurts, the hole in her heart. This causes her to go into a personal / emotion / ministry slide because the word in her heart that would hold her on the road is missing. The word will heal the rejection issue and fill the hole in the heart.*

The rejection / hole in the heart / deceptive way of looking at life is shown in the second scene with the 3 women. It comes out of how she was formed by her past.

The car was stopped but was now hanging over a snow burm (drift) on the edge of the road.

- *Car Stopped > Ministry / Personal Life is at a standstill. (no forward movement)*
- *Snow Drift > "Barrier; hindrance"*
- *Road > "Opportunities for movement / change"*
 - > *"The life's work / ministry is about to hit the ditch"*
- *River Bank > "Out of the Spirit; Decision time / place of decision"*

I was driving with one girl and two women in a midsize car. (They were in the rear seat) One woman I didn't know, but the other girl and woman live with me in my house.

- All 3 are being affected by what the driver is doing. (Along for the ride. They are passengers with no control but still in the ministry / person's life)
- Girl > Younger Generation
- Women > Old Generations; "Church; literally a woman"
 - All 3 are depicting literal people being affected by the person / ministry
- '3' > "Real, substantial"
- House > "Person, family, church"

It was day time and in color. There were no defining colors, but it wasn't black & white.

- Not Black and White > Not a warning dream
- Colorful but not defining / bright > Informational but crossing over to becoming a warning dream which represents a wake up call type of dream.

I noticed 1 woman on the right side (passenger side) behind the car. There was also two women on the left side (driver's side), behind the car.

- '1' > "Unity, beginning"
- Woman > "Literally a woman; spiritual mother"
- Right side > Side of Favor; "authority, power"
 - > The person(s) who gave the life-command / information was/were a person(s) of favor in the past for the dreamer.
- Behind > "Past; previous event or experience; hidden; memory"

- '2' > "Division; implies opposition"
 - > They also represent the past. They said and did nothing in the dream which means they were overly active in the persons life in the past. But they were there watching, observing, being a part of the persons life.
- Left > Direction of Disfavor; "Rejection; Weakness of man"
- Woman > "Literally a woman"

- They are representing observers from the past that have caused division, or brought opposition in the dreamers life. Even though they may not have been actively involved with the dreamer, they were always there and they

had an influence on where the dreamer / driver was going in life.

- One thing that stands out to me is the absence of men. The situation we are finding the car in, is a good situation for some input from a man in how to get out of this. That input is missing. This would indicate that the input needed for the dreamer to find her way through life, lacked good input from a man's perspective. With that input missing, all that is left is the Rejection and bad input received from the women.

The one lady on the right rear looked like Joy Behar. She had dark hair and dark draping clothing (loose and a cloak). She was tying fishing line and what I think was a long dark colored scarf on the car and tying it to a tree.

- Joy Behar > "Ungodly, unscriptural"
- Rear > (Behind) > "Past; previous event or experience; unaware; memory"
- Fishing line and scarf > Advice / input that was given in the past (likely believed) on how to keep your life on the road / how to live life.
- Dark hair, clothing, and scarf > represents the covering this information was from / under. Dark depicts kingdom of darkness.
- Tree > "Leader; shelter; false worship; evil influence"
- This woman represents a trusted person(s) from the past who has given input on how to do life. It was ungodly input / information. It definitely will not help when you're caught in a precarious / vulnerable situation.

New Scene:

I found my self in the passenger seat with my head out the window telling her two or maybe three times: "Call 911 - nothing else". My concern was that she would rock the car and make it fall. We were hanging over a dark river that was moving pretty good.

- Passenger Seat > "Generally good. Represents handing or giving their destiny / ministry over to God. God is in the drivers seat"
- Head out the window looking back > Still looking to the past.
- '2' or '3' > Calling for a Real, Substantial Dividing to take place

- Call 911 > An emergency call for help.
- Dark > “Ignorance; hidden; unknown course of action”
> “Not Godly”
- River > “spirit” > that could possibly sweep the car away, or drown the person/
ministry. To move into the river is to move into the wrong
spirit.
- Moving > It will take the person / ministry a whole different direction.
- This scene is showing why we are in this position. I believe it is revealing the
sources of deception that we’ve been driving in. It’s all rooted in the past
and what people have said and done to the dreamer. Most of the
information about life, and how to live life, (possibly even the worth /
destiny of the person) has been ungodly and bad.

The driver did the right thing by getting out of the drivers seat. Now God
can take over.

The driver did the wrong thing by looking into the past and trying to get
help from there (Call 911). The answer is not in the past, it’s the problem
and the deception that is in the past - - the answer is finding the
deception / ungodly information that has formed the persons life and
ministry, and getting away from it.

This is decision time. It’s a wake up call. Things need to be dealt with now.

The dark woman said: “if you go over in the water you will make it”.

- This again is past information and life advice. It’s basically saying that even if
what’s in front of you (your future) looks bad and uncertain, it doesn’t
matter - you’ll get through it.

If that were true, why is the woman trying to secure the car so it doesn’t
go into the water.

This is representing a “lie” of how to approach unknown, dangerous, and
difficult / vulnerable situation in life and the future.

I woke up and what I noticed first was NO FEAR.

As I was waking up, I saw a soft yellow cylinder with sign on it like bumper stickers. I was desperately trying to read the bumper stickers. I could read only one, and it said: OGC.

- Yellow > “The Mind; a Gift”
- Cylinder > “3-D object representing the spiritual; new dimensions”
- Bumper Stickers > “Attention getters; making statements”
- This seems most likely to be a alphabetical / numerical equation.
 - > O = ‘15’ > “Acts wrought by the energy of Diving Grace; God’s Divine Ability reflected in man”
 - > G = ‘7’ > “Spiritual perfection and completeness; complete, finished; satisfied; full”
 - > C = ‘3’ > “Substantial, Real, Entire, Complete”
- This is telling us that the answer is in how the person is thinking. The mind has been formed by Rejection, and lack of the Word on the Rejection and other bad information from the past. As a result, to get past this, the soul / mind needs renewing. New spiritual things need to be discovered so new dimensions of thinking can take place to replace the old Rejection and the resulting Deception ways of thinking.

God is getting the dreamers attention and making a statement here. The statement is:

- > By Diving (God’s) Grace and Ability, he wants to work this out in the dreamer.
- > This will move the dreamer down the road toward spiritual perfection.
- > This whole process of renewed mind is very Real, Substantial, and God’s intention is to do a Complete, Entire work.

What to do Now??

Go to God and see if he’ll show you what needs to be renewed. If you don’t see it, go to a trusted friend(s) (who has spiritual insight) and let them speak into it from their perspective. Sometimes people around us can more easily see into our lives than us.
