Statistics: (Teens)

An estimated 55% of male and female teens have had sexual intercourse by age 18 and approximately 80% of teens used some form of contraception at first sex, according to a new report by the CDC's National Center for Health Statistics (NCHS).

This Photo by Unknown Author is licensed under CC BY-ND

Statistics: (Teens)

Among the teenagers who are between 12 and 14 years old

1. About twelve percent of them are sexually active. 5% of teenagers aged 12 are sexually active. 10% of teenagers aged 13 are sexually active and 20% of teenagers aged 14 are sexually active. This piece of teenage sexuality statistics can be surprising one takes into account the fact that less than 50% of all teenagers between the age of 12 and 14 actually have gone on a date. The more surprising or discomfoting reality is that the teenage sexuality statistics over several years have clearly indicated an upward trend.

Statistics: (Teens)

Among the teenagers who are between 12 and 14 years old

2. An interesting reality derived from contemporary teenage sexuality statistics is that girls between the age of 15 and 19 are less likely to have sex, which is possibly because of the fear of becoming pregnant, getting infected with sexually transmitted diseases or HIV or simply because they are more informed and mature. But the bad news is that more girls between the age of 12 and 14 have become sexually active in recent years. In other words, chances of a girl losing virginity at the age of 12 to 14 is higher now than ever before, whereas it was 16 to 19 for a long time in the past.

Statistics: (Teens)

Among the teenagers who are between 12 and 14 years old

3. More teenagers are opting for more than one sex partner today. 25% of those aged between 12 and 14 years old reported to be sexually active have sex with more than one person in a period of one year or two years.

Statistics: (Teens)

Among the teenagers who are between 12 and 14 years old

4. Teenage couples that are of the same age have a 13% chance of indulging in sex. When one teenager is 2 years older, then that chance increases to 26%. If one of the partners is 3 years older, then that chance increases to 33% and if a young teenager (12-14) dates an old teenager (15-19), then the chance of indulging in sex goes up to 47%. In other words, almost half of all teenagers who date people four years older or more will have sex. This applies to all teenagers dating someone who may or may not be a teenager but is four or more years older. This reality is further emboldened by the fact that more than 10% of young teenagers date or get involved in a relationship with another teenager who is at least three years older.

1 Corinthians 6:18 (NIV)

[18] Flee from sexual immorality. All other sins a man commits are outside his body, but he who sins sexually sins against his own body.

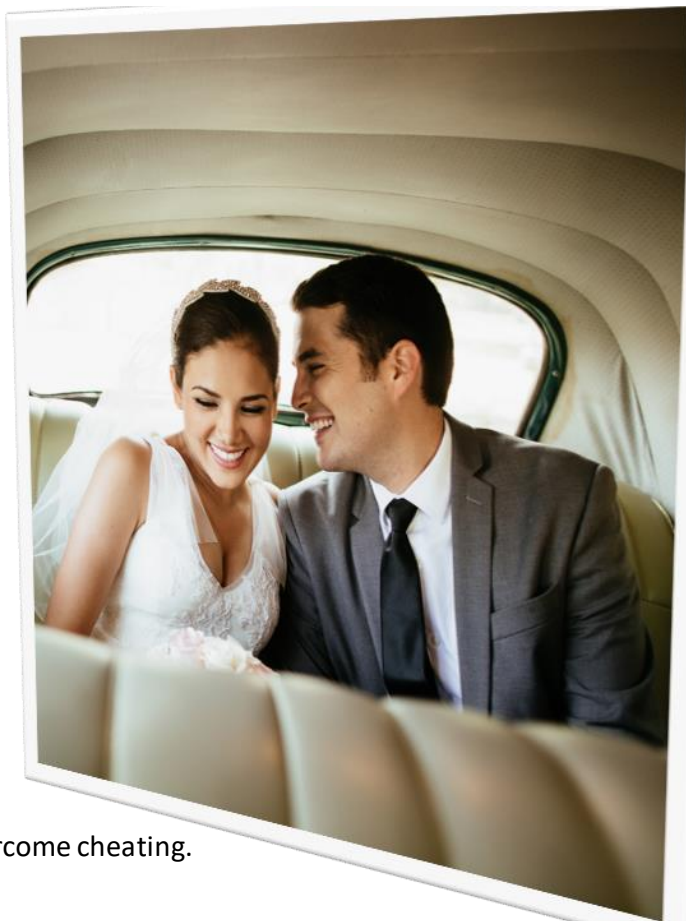

Colossians 3:5-6 (NIV)

[5] Put to death, therefore, whatever belongs to your earthly nature: sexual immorality, impurity, lust, evil desires and greed, which is idolatry. [6] Because of these, the wrath of God is coming.

A Few Statistics: (Married People)

55% of men and 50% of women surveyed by Trustify admit to cheating. That is an interesting number for several reasons.

1. Women cheat “almost” as much as men
2. That figure is very close to divorce rates
3. That’s a one out of two people

Statistics show that around 50-60% of couples eventually overcome cheating.

STD Statistics - 2019

Summary

- There were 33,725 cases of chlamydia, gonorrhea, and syphilis reported in 2019 compared to 32,024 cases in 2018.
- Chlamydia**, the number one reported infectious disease in the state, increased by 4% to 24,535 cases in 2019.
 - The majority occurred in teens and young adults ages 15 to 24.
 - One out of every three cases occurred in Greater Minnesota, with two or more cases reported in every county.
- Gonorrhea** remained the second most commonly reported STD in Minnesota with 8,063 cases reported in 2019, a 7% increase.
 - Forty percent of all gonorrhea cases occurred among 15 to 24 year-olds and three-quarters of the cases occurred in the seven-county Twin Cities metropolitan area.
- Syphilis** cases increased by 23% with 1127 cases in 2019.
 - New infections continued to be centered within the Twin Cities metropolitan area and among males, particularly among men who have sex with men.
 - However, the presence of syphilis among females, especially those who are pregnant or of child-bearing age, is of concern.
 - Twenty-one cases of congenital syphilis in infants were reported in 2019. This is a rate of 32.3 per 100,000 live births which is the highest Minnesota has ever reported and represents a 110% increase from 2018.

—
Sexual
immorality is
Forgivable.

But often the
consequences persist
for a lifetime.

Considerations that are attached to Sexual Immorality

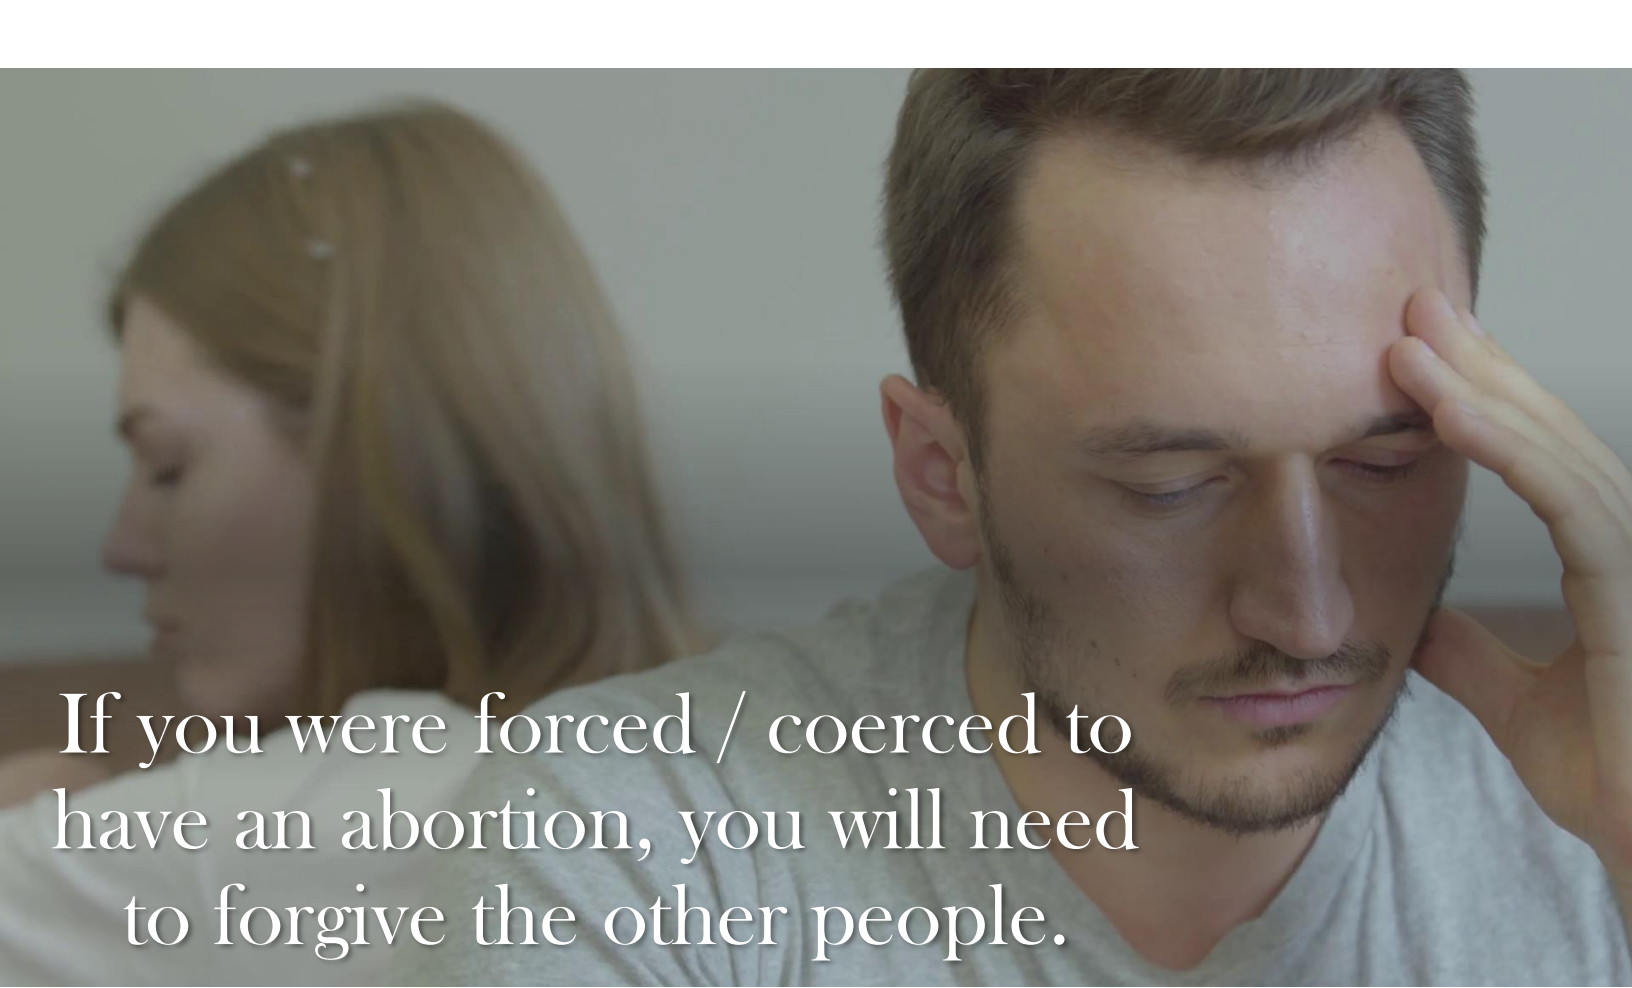

- Separation from God
- Possible loss of Eternal Life
- STD's and loss of physical health
- Physical, mental, emotional damage and death
- ("The wages of sin is Death" - Romans 6:23)
- Physical sickness & death traceable to an STD.
- Possible Damage to future children stemming from DNA imprinting.

If you've had
an Abortion,
it is Forgivable
by God.

If you've had an
Abortion, you will
need to Forgive
Yourself

If you were forced / coerced to have an abortion, you will need to forgive the other people.

- “When pregnant, the cells of the baby migrate into the mother’s bloodstream and then circle back into the baby, it’s called “fetal-maternal micro chimerism”.
- For 41 weeks, the cells circulate and merge backwards and forwards, and after the baby is born, many of these cells stay in the mother’s body, leaving a permanent imprint in the mother’s tissues, bones, brain, and skin, and often stay there for decades. Every single child a mother has afterwards will leave a similar imprint on her body, too.

- Even if a pregnancy doesn't go to full term or if you have an abortion, these cells still migrate into your bloodstream.

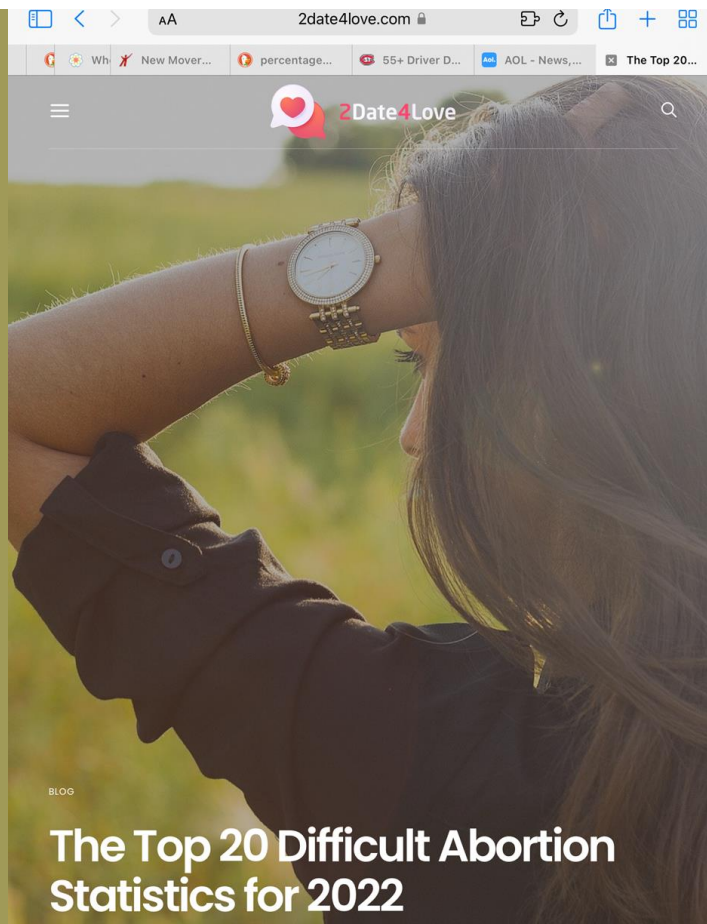

- Research has shown that if a mother's heart is injured, fetal cells will rush to the site of the injury and change into different types of cells that specialize in mending the heart. The baby helps repair the mother, while the mother builds the baby. This is often why certain illnesses vanish while pregnant. It's incredible how mother's bodies protect the baby at all costs, and the baby protects & rebuilds the mother back - so that the baby can develop safely and survive.

Credit: Unknown

- Studies have also shown cells from a fetus in a mother's brain 18 years after she gave birth.

- If you're a mom you know how you can intuitively feel your child even when they are not there.... Well, now there is scientific proof that moms carry them for years and years even after they have given birth to them.

Top 10 Key Abortion Statistics for 2022

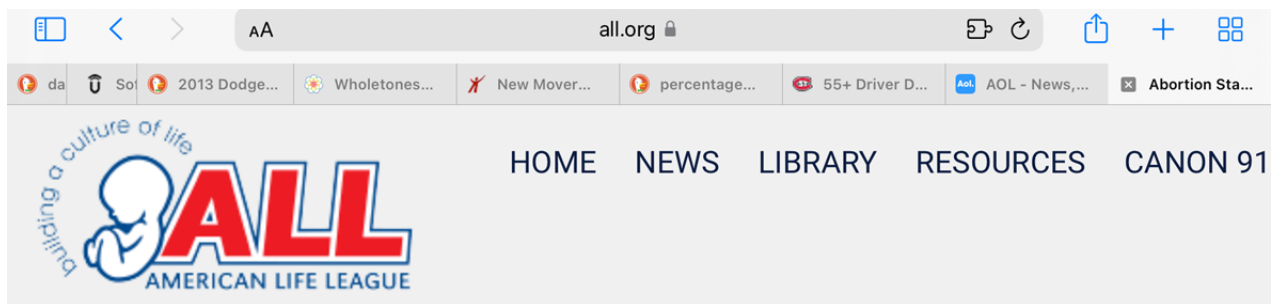

- Statistics on abortion and abortion laws in 26 countries around the globe strictly forbid it under any circumstances.
- 22% of pregnancies in the US are voluntarily terminated each year.
- 73% of the countries in Europe allow abortion on request, European abortion facts confirm.
- Abortion statistics indicate that around 90% of the abortions done in the Nordic countries were induced by medications.
- Abortion statistics worldwide show that approximately 70,000 women die each year due to unsafe abortion methods.
- A decrease of 24% in the number of abortions was noted by the CDC over the course of 9 years.
- Recent stats on abortion show that almost 27% of Americans think that abortion should be legal regardless of the circumstances.
- 90 million women globally have no legal right to choose abortion, stats reveal.
- Only 33% of the countries in sub-Saharan Africa allow abortion when incest or rape are the reasons for abortion, statistics reveal.
- Pro-abortion facts reveal that both men and women share the same views on abortion legalization in Europe.

General Abortion Statistics Worldwide

How do different countries treat abortion? How many women resort to it? These are just some of the questions we're about to answer to shed light on stark differences when it comes to the right of women to make a choice on parenthood.

Abortion Statistics

Current United States Data

- Total number of abortions in the U.S. 1973-2018: 61.8 million+
- 186 abortions per 1,000 live births (according to the Centers for Disease Control)
- U.S. Abortions in 2017: ~862,320 (Guttmacher Institute)
- Abortions per day: 2362+ (GI)

2:53 PM Fri May 6 all.org 94%

- Abortions per hour: 98+ (GI)
- 1 abortion every 37 seconds (GI)
- 13.5 abortions / 1000 women aged 15-44 in 2017 (GI)

These statistics include only surgical and medical abortions. Because many contraceptive measures are abortifacients (drugs that induce or cause abortions), it is important not to overlook the number of children killed by chemical abortions. Since 1965, an average of 11 million women have used abortifacient methods of birth control in the United States at any given time. Using formulas based on the way the birth control pill works, pharmacy experts project that about 14 million chemical abortions occur in the United States each year, providing a projected total of well in excess of 610 million chemical abortions between 1965 and 2009.

When conducting research on abortion statistics, you may also encounter two different sets of numbers. One set is from the Centers for Disease Control, and the other is from the Guttmacher Institute—the “independent research arm” of Planned Parenthood Federation of

Abortion Statistics

- 23% higher would be:
- 75.8 million abortions per year
- 228 abortions per 1000 live births
- 2,905 abortions per day
- 120 abortions per hour
- 1 abortion every 29.74 seconds

given time. Using formulas based on the way the birth control pill works, pharmacy experts project that about 14 million chemical abortions occur in the United States each year, providing a projected total of well in excess of 610 million chemical abortions between 1965 and 2009.

When conducting research on abortion statistics, you may also encounter two different sets of numbers. One set is from the Centers for Disease Control, and the other is from the Guttmacher Institute—the “independent research arm” of Planned Parenthood Federation of America.

The Guttmacher Institute totals are actually the more accurate since the Institute conducts private research on abortion providers throughout the country and because not all states are required to report to the CDC. In fact, California and New York, where high numbers of abortions occur, are not included in CDC figures.

U.S. Abortion Statistics

Facts and figures relating to the frequency of abortion in the United States.

Primary nationwide abortion statistics for the United States are available from two sources—privately from the [Guttmacher Institute \(AGI\)](#) and publicly from the [Centers for Disease Control \(CDC\)](#). Guttmacher's numbers, published every three years, come from direct surveys of all known and suspected abortion providers in the United States. The CDC numbers, published annually, are derived from actual counts of every abortion reported to state health departments. Unfortunately, California, Maryland, and New Hampshire do not publicly report abortion totals. As such, Guttmacher's abortion numbers are more complete, but they are approximations. Since only 59% of queried providers responded to [Guttmacher's latest survey](#), health department data was used for an additional 19%. Abortion totals were estimated for the

[Click here for hundreds of real-](#)

- Based on available state-level data, approximately **890,000 abortions** took place in the United States in 2016—down from approximately **913,000 abortions** in 2015.
- In 2019, approximately 19% of U.S. pregnancies (excluding spontaneous miscarriages) ended in abortion.¹
- According to the **United Nations' 2013 report**, only nine countries in the world have a higher reported abortion rate than the United States. They are: Bulgaria, Cuba, Estonia, Georgia, Kazakhstan, Romania, Russia, Sweden, and Ukraine.*

*Though the UN lists China's official abortion rate at 19.2, China's actual abortion rate is likely much higher. According to **China's 2010 census**, there were approximately 310 million women of reproductive age in the country. An **estimated 13-23 million abortions** happen annually in China, resulting in an adjusted abortion rate of 41.9-74.2. The abortion rate is the number of abortions per 1,000 women aged 15-44.

- In 2017, the highest percentage of pregnancies were aborted in the **District of Columbia** (37%), **New Jersey** (32%), and **New York** (31%). The lowest percentage of pregnancies were aborted in **Idaho** (5%), **South Dakota** (4%), and **Wyoming** (2%). (AGI abortion data + CDC birth data).
- In 2018, approximately 31% of all pregnancies in New York City (excluding spontaneous miscarriages) ended in abortion (CDC).

- In 2019, unmarried women accounted for 86% of all abortions (CDC).
- Among married women, 4% of 2019 pregnancies (excluding spontaneous miscarriages) ended in abortion. Among unmarried women, 28% ended in abortion (CDC).
- Women in their 20s accounted for the majority of abortions in 2019 and had the highest abortion rates (CDC).
- Adolescents under 15 years obtained 0.2% of all 2019 abortions; women aged 15–19 years accounted for 8.5% (CDC).
- Percentage of 2019 Reported Abortions by Age of Mother (CDC):

<15 years	15–19 years	20–24 years	25–29 years	30–34 years	35–39 years	≥40 years
0.2%	8.5%	27.7%	29.2%	19.6%	11.0%	3.7%

- Women living with a partner to whom they are not married account for 25% of abortions but only about 10% of women in the population (NAF).
- In 2019, women who had not aborted in the past accounted for 58% of all abortions; women with one or two prior abortions accounted for 34%, and women with three or more prior abortions accounted for 8% (CDC).

'How dare you?': Pence slams Harris for Roe comments

At a gala Thursday night for an anti-abortion group, former Vice President Mike Pence took aim at sitting Vice President Kamala Harris over remarks she delivered at a pro-choice group's annual gala two nights earlier.

"I say with the lives of 62 million unborn boys and girls ended in abortion since 1973, generations of mothers enduring heartbreaking and loss that can last a lifetime: Madame Vice President, how dare *you*?" Pence told anti-abortion activists at the annual gala for Carolina Pregnancy Center in Spartanburg, S.C.

On Tuesday, Harris [spoke at the Washington gala for EMILY's List](#), where she sharply criticized Republicans and conservative justices on the Supreme Court after it was revealed that the high court was poised to overturn *Roe v. Wade*.

ABORTION
IN AMERICA_

WOMEN SHARE INTIMATE STORIES OF ABORTION

VIEWER EMAIL

"This is the 1st time I've told my story, outside of friends, but with Roe being in such jeopardy I feel like I have to speak out.

I had an abortion when I was barely over 20. I was working in a bar, totally broke, really unhealthy, using substances, and generally unfit to become a parent. I struggled and struggled with my choice - it wasn't easy, especially with my strict Christian upbringing."

CAROLINE

VIEWER EMAIL

"I went to a planned parenthood where the pregnancy was confirmed, and then to a crisis pregnancy center, where I was met with nothing but a stick to pee on and judgment. Ultimately, I knew what I had to do.

Fast forward, 15 years later, I am a wife, mother to 2, and a social worker. I took my new chance at life and made the most of it. Without my abortion none of this would have been possible."

CAROLINE

HERE IS A PRINCIPLE THAT APPLIES TO EVERYTHING...

1 Corinthians
10:14-22
(NIV)

[14] Therefore, my dear friends, flee from idolatry. [15] I speak to sensible people; judge for yourselves what I say. [16] Is not the cup of thanksgiving for which we give thanks a participation in the blood of Christ? And is not the bread that we break a participation in the body of Christ? [17] Because there is one loaf (the body of Christ), we, who are many, are one body, for we all partake of the one loaf.

> Oneness develops with what we participate in.

HERE IS A PRINCIPLE THAT APPLIES TO EVERYTHING...

1 Corinthians
10:14-22
(NIV)

[18] Consider the people of Israel: Do not those who eat the sacrifices participate in the altar?
[19] Do I mean then that a sacrifice offered to an idol is anything, or that an idol is anything? [20] No, but the sacrifices of pagans are offered to demons, not to God, and I do not want you to be participants with demons.

If we can determine that something is actually being offered to the Kingdom of Darkness, not God's Kingdom – then we must conclude if we get involved with it, we are participating with Demons.

With Roe under threat, Calif. leans in as abortion refuge

Gov. Gavin Newsom and the state's top legislative leaders said they would seek voter approval to make abortions a constitutional right in California.

Maryland Proposes Bill To Allow Abortion 28 Days After Birth

CAN KILL 4 WEEKS AFTER BIRTH

March 11, 2022 • by Jacob M. Thompson • 13 Comments

“In other words, a baby born alive and well could be abandoned and left to starve or freeze to death, and nothing could be done to punish those who participated in that cruel death.”

The Maryland senate will soon review a proposal to allow mothers to abort their baby a whole 4 weeks after it has left the womb.

Senate Bill 669, otherwise known as the Pregnant Person’s Freedom Act of 2022, is sponsored by Senator William Smith, and initial hearings will begin on March 15th.

” [T]he bill also proposes a revision of the fetal murder/manslaughter statute that would serve to handcuff the investigation of infant deaths unrelated to abortion.

California Bill Would Allow Killing Babies in Infanticide Up to 28 Days After Birth

Some religions support abortion rights. Their leaders are speaking up.

"We support abortion justice not despite our religious values but because of them."

by Julianne McShane | NBC NEWS

After an abortion law took effect in Texas last fall that [allows private citizens to sue someone who performs an abortion or helps someone obtain one after six weeks of pregnancy](#), Rabbi Mara Nathan, the senior rabbi at Temple Beth-El in San Antonio, knew she wanted to address it in a sermon.

"It definitely felt like a risky sermon to give," she said, "but I felt like I really didn't have a choice."

In the sermon, which she titled "[The Right to Choose is a Jewish Value](#)," Nathan took aim at the law, known as S.B. 8, and outlined how, as she put it, "Judaism has always been pro-choice."

Various streams of Judaism [interpret Jewish law differently](#). Reform Judaism, of which Nathan is an adherent, supports abortion rights.

In response to her sermon, Nathan received a standing ovation, she said, along with angry reactions from "a few people who were upset" that she addressed abortion access from

Abortion is Murder

What is Murder?

Killing is not in of itself murder;

- > The Bible allows killing in self-defense. It is not murder.
- > The Bible allows the death penalty in cases where the court has found it necessary.
- > The Bible allows killing in times

What is Murder?

- It is unnecessarily taking a human's life.
- It is intentionally taking the life of the innocent or those who cannot defend themselves.

- 
- Murderers and the Sexually Immoral receive the 2nd Death / Lake of Fire.
 - They are not allowed in the New Jerusalem.

Revelation 21:2-3 (NKJV)

[2] Then I, John, saw the holy city, New Jerusalem, coming down out of heaven from God, prepared as a bride adorned for her husband. [3] And I heard a loud voice from heaven saying, “Behold, the tabernacle of God is with men, and He will dwell with them, and they shall be His people. God Himself will be with them and be their God.

Revelation 21:7-8 (NKJV)

[7] “He who overcomes shall inherit all things, and I will be his God and he shall be My son. [8] “But the cowardly, unbelieving, abominable, murderers, sexually immoral, sorcerers, idolaters, and all liars shall have their part in the lake which burns with fire and brimstone, which is the second death.”

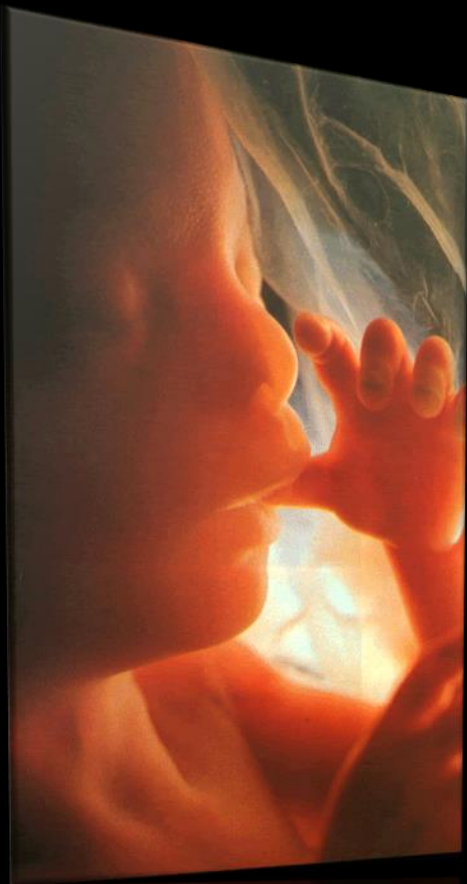

Revelation 22:14-15 (NKJV)

[14] Blessed are those who do His commandments, that they may have the right to the tree of life, and may enter through the gates into the city. [15] But outside are dogs and sorcerers and **sexually immoral and murderers** and idolaters, and whoever loves and practices a lie.
