HOW TO SURVIVE SUMMERS

-Bridgingites

I'm not surviving at all.

-Prakrati

Looking at people who can't afford an AC makes me grateful for the fact that I can... and that makes me survive it every day!

-Sakshi Aneja

PANI

-Shivalik

Mostly powered by iced coffee, questionable life choices, and the distant hope that the AC bill won't emotionally destroy me

The office AC for sure! It makes me wanna get to the office early and leave late XD

-Sarah Kaur

Ac at max but in office its hot.

Enjoyment. I believe we must enjoy every weather so just enjoy.

-Robinson David

AC and Ganne da Rass.

-Philip Brooks

AC at a comfortable 25, whatever chilled drink is available in the office cafeteria, and ice-cold water back at the PG are doing most of the heavy lifting these days. Plus, the occasional indulgence of mango shake with a scoop of vanilla ice cream, and (quietly) praying for some much-needed rain. And...(wait for it...) of course... Chai. Becuz some of us just refuse to give up on our beloved tea. Hot weather? Doesn't matter. At least ek cup to banta hi hai ;)
